## ABSTRACT

First, by asking for forgiveness from Allah SWT, here I am trying to open the signs of the greatness of Allah SWT regarding just to be closer to piety seen from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)

The signs of the greatness of Allah SWT regarding just are closer to piety in the verse:

*"O you who believe, let you be the ones who always uphold (the truth) because of Allah, be witnesses with justice. And do not ever hate something people, encourage you to behave unfairly. Be fair, because it is fair. be closer to piety. And fear Allah, verily Allah knows what you are doing. (Al Maa'idah: 5: 8)*

In an effort to unveil the greatness of Allah SWT regarding just closer to piety I use the basic molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

## HYPOTHESIS

Here I propose the hypothesis of doing justice to increase piety in terms of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information which has a double structure that forms a double helix and which contains polynucleotide macromolecules which are arranged repeatedly from nucleotide polymers. These nucleotides are composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## JUST IS KEEPING BALANCE

Well, now we will dig up the secret behind the verse: *"O you who believe ... bear witnesses fairly ... (Al Maa'idah: 5: 8)*

It turns out that it is clear that strong faith gives birth to just thoughts, which are balanced impartially.

## RAISING HATE WILL DOWN A FAIR THOUGHT

Then we dig deeper into the secret behind the verse: *"... don't ... your hatred of a people, encourages you to act unfairly ... (Al Maa'idah: 5: 8)*

Now it turns out that it is now uncovered where hatred towards other humans will decrease fair thinking.

So it must be a balance between hatred and fair thinking.

### **JUST IS CLOSE TO PIETY**

We are still exploring the secret behind the verse: "... *Be fair, because just is closer to piety ... (Al Maa'idah: 5: 8)*

Here it is revealed that the higher the just thinking, the higher the level of obedience to Allah.

So the high value of fair thinking will increase the value of obedience to Allah.

### **CONCLUSION**

Based on the description above, we can conclude that strong faith gives birth to just thoughts, which are impartial.

Where hatred rises towards other human beings will reduce fair thinking.

There must be a balance between hatred and fair thinking.

The higher the value of fair thinking will increase the value of obedience to Allah.
