ABSTRACT

Previously, I asked for forgiveness from Allah SWT. Here I am trying to open the veil that covers love associated with human understanding and faith from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are two verses in the Al Quran that write down the problem of love related to understanding and faith, namely the verse:

"And know that among you there is the Messenger of Allah. If he obeys your wishes in some matters, you really get into trouble, but Allah makes you 'love' to faith and makes that faith beautiful in your heart and makes you hate disbelief, wickedness, and iniquity. They are the ones who follow the straight path, (Al Hujuraat: 49: 7)

"Say:" If you (really) love Allah, follow me, Allah will love and forgive your sins. "Allah is Forgiving, Most Merciful. (Ali 'Imran: 3:31)

Whereas in an effort to open the veil that covers the love associated with understanding and faith, I use a tool called deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis that love for Allah is a love that is balanced between understanding and faith according to the basis of Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information which has a double structure that forms a double helix and which contains polynucleotide macromolecules which are arranged repeatedly from nucleotide polymers. These nucleotides are composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

BALANCING LOVE TO UNDERSTANDING AND LOVE TO FAITH

We now open the secret that is in the verse: *"... Allah made you 'love' to faith ... (Al Hujuraat: 49: 7)* then we dig into the verse: *" ... Allah made you ... faith is beautiful in your heart. .. (Al Hujuraat: 49: 7)*

Now clearly and clearly it opens that there are two worlds of love, first love that leads to faith is born from the impulse to believe in Allah and secondly love through understanding, thinking,

deepening, which makes love beautiful.

So, love through encouragement, desire, to come to faith in Allah. Love through understanding, thinking, deepening through the brain path that gives birth to love for Allah becomes beautiful.

WHEN WE MAKE BALANCED LOVE WE WILL UNTIL ALLAH'S LAYER OF LIGHT

This is the secret behind the verse: *"Say: " If you (really) love Allah, follow me, Allah will love and forgive your sins. "... (Ali 'Imran: 3:31)* and verse: *" ... faith is beautiful in your heart ... (Al Hujuraat: 49: 7)*

Which describes the existence of a balanced love between love for faith and love for understanding that will lead us to the wave of light layers of Allah only.

CONCLUSION

Based on the description above we can conclude that in the verse: *"... Allah made you 'love' to faith ... (Al Hujuraat: 49: 7)* and the verse: *" ... Allah made you ... faith is beautiful in your heart. .. (Al Hujuraat: 49: 7)*

Describing the two worlds of love, first love that leads to faith is born from the urge to believe in Allah and secondly, love through understanding, thinking, deepening, makes love beautiful. Where is love through encouragement, desire, to come to faith in Allah.

Meanwhile, love through understanding, thinking, deepening through the brain pathway that gives birth to love for Allah becomes beautiful.

This is the secret behind the verse: *"Say: " If you (really) love Allah, follow me, Allah will love and forgive your sins. "... (Ali 'Imran: 3:31)* and verse: *" ... faith is beautiful in your heart ... (Al Hujuraat: 49: 7)*

Which describes the existence of a balanced love between love for faith and love for understanding that will lead us to the waves of the light layer of Allah only.
