ABSTRACT

First, by asking for forgiveness from Allah SWT here, I am trying to reveal the signs of the greatness of Allah SWT regarding the secret of Allah about the young men who are hiding in caves from the point of view of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)

Signs of the greatness of Allah SWT regarding the secret of Allah about the youths who are hiding in this cave are found in the verses:

"(Remember) when the youths were looking for shelter into the cave, they prayed:" O our Lord, give us mercy from Your side and perfect for us the straight direction in our (this) affairs. "(Al Kahf : 18: 10) "So We covered their ears for several years in the cave (Al Kahf: 18: 11) "Then We wake them up, so that We know which of the two groups is more accurate in calculating how long they lived (in the cave). (Al Kahf: 18:12)" Our people have made besides Him as gods. (to be worshiped) Why do they not put forward clear reasons (about their beliefs)? Who is more unjust than those who fabricate lies against Allah? (Al Kahf: 18:15)

"And they lived in their cave three hundred years and added nine years (more). (Al Kahf: 18: 25)" Say: "Allah knows better how long they lived (in the cave); is all that is hidden in the heavens and on earth. How bright was his sight and how sharp his hearing was; there is no protector for them but Him; and He did not take anyone to be His partner in making decisions. "(Al Kahf: 18: 26)" And they lived in their cave three hundred years and added nine years (again). (Al Kahfi: 18: 25)

In an effort to unveil the greatness of Allah SWT regarding Allah's secret about young men hiding in a cave, I use the basic photon, quarks and molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose God's secret hypothesis about a young man hiding in a cave being chased by Emperor Decius (249–51 AD) in terms of photons, quarks and the molecular structure of deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information which has a double structure that forms a double helix and which contains polynucleotide macromolecules which are arranged repeatedly from nucleotide polymers. These nucleotides are composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2

oxygen atoms and 8 hydrogen atoms.

Photons are elementary particles of the boson type and are carriers of electromagnetic interactions. Whereas quarks are also elementary particles contained in the protons of two upper and one lower quarks. Where these three quarks are combined with gluons.

YOUNG PEOPLE HIDING IN EFESOS TURKEY CAVE

Now we dig into what secrets are stored in the verse: *"... when the young men were looking for shelter in the cave ... (Al Kahf: 18:10)*

It turns out that this cave is in a place called Efesos near Izmir in Turkey

Figure 1: Young people hideout in a cave at Efesos near Izmir Turkey.

WHO IS THIS YOUTH HIDING AND SLEEPING?

We continue to uncover the secret that is in the verse: *"Our people have made besides Him as gods (to be worshiped) ... (Al Kahf: 18:15) Well, this young man said that "Our people ..." (Al Kahf: 18:15)*

Who are "our people"

It turns out that these young men were under the rule of the emperor Decius who was in power (249–51 AD)

This young man was a follower of the teachings of Prophet Isa.

Where the ruler of Decius did not want the teachings of Prophet Isa to be embedded in the mind of this young man. In order to avoid the pursuit of the followers of Decius, this young man hid in a cave at Ephesos.

YOUTH HIDDEN AND SLEPPED COMA FOR 309 YEARS

Then we dig deeper into the secret in the verse: *"So We covered their ears ... (Al Kahf: 18: 11)" Then We woke them up ... (Al Kahf: 18:12) "And they lived in a cave. they are three hundred years and plus nine years (more). (Al Kahf: 18:25)*

Now, how could this young man sleep for 309 years?

Now here it is revealed that when the human brain is in a coma, the brain does not need energy. All limbs are in a state of sleep. Only oxygen that enters the lung cavity through respiration gives the body strength to continue its function. Likewise, the brain continues to get oxygen through the bloodstream to keep brain function running.

YOUNG YOUTH SLEEPED COMA FOR 309 YEARS DO NOT REMEMBER ANYTHING

Furthermore, what secrets are kept in the verse: *"... which of the two groups is more accurate in calculating how long they lived (in the cave). (Al Kahf: 18:12)*

Now, because they slept in a coma, their brains didn't receive any new information from outside, so no information was stored in their memories, so they didn't know how long they slept.

So now the secret of the young man who hid and slept in a cave for 309 years turned out to be a young man who believed in the teachings of Prophet Isa and was chased by the emperor Decius who ruled (249–51 AD)

CONCLUSION

Based on the description above we can conclude that the secret stored in the verse: *"... when the young men were looking for shelter in the cave ... (Al Kahf: 18:10)*

It turns out that this cave is in a place called Efesos near Izmir in Turkey In the verse: *"Our people have made besides Him as gods (to be worshiped) ... (Al Kahf: 18:15) This young man said that "Our people ... " (Al Kahf: 18:15)*

Who are "our people" It turns out that these young men were under the rule of the emperor Decius who was in power (249–51 AD)

This young man was a follower of the teachings of Prophet Isa.

Where the ruler of Decius did not want the teachings of Prophet Isa to be embedded in the mind of this young man. In order to avoid the pursuit of the followers of Decius, this young man hid in a cave at Ephesos.

The secret that is in the verse: *"So We covered their ears ... (Al Kahf: 18: 11)" Then We woke them up ... (Al Kahf: 18:12) "And they lived in their cave three hundred years and plus nine years (more). (Al Kahf: 18:25)*

How could this young man sleep for 309 years?

Now here it is revealed that when the human brain is in a coma, the brain does not need energy. All limbs are in a state of sleep. Only oxygen that enters the lung cavity through respiration gives the body strength to continue its function. Likewise, the brain continues to get oxygen through the bloodstream to keep brain function running.

What secrets are kept in the verse: *"... which of the two groups is more accurate in calculating how long they lived (in the cave). (Al Kahf: 18:12)*

It turned out that because they slept in a coma, their brains did not receive any new information from the outside, so no information was stored in their memories, so they did not know how long they slept.

So now the secret of the young man who hid and slept in a cave for 309 years turned out to be a young man who believed in the teachings of Prophet Isa and was chased by the emperor Decius who ruled (249–51 AD)
