## **ABSTRACT**

Before I wrote down the secret issue of Allah regarding why almost 98% of the prophets were only Jews, I first asked for forgiveness from Allah SWT.

Here I am trying to open the veil that covers the secret of Allah regarding why the prophet is almost 98% Jewish only from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become tools for opening God's secrets regarding why the prophet prophets are almost 98% only Jews, namely the verse:

*"Verily We have created you (Adam), then We form your body, then We say to the angels:" Bow down to Adam ", then they prostrate themselves except the devil. He is not among those who prostrate. (Al A'raaf: 7: 11)*

*"Indeed, We have given revelations to you as We have given revelations to Noah and later prophets, and We have given revelations (also) to Abraham, Isma'il, Isaac, Ya'qub and their grandchildren, Isa, Ayyub, Yunus. , Aaron and Solomon. And We gave Zabur to David. (An Nisaa ': 4: 163)*

*"And (We have also sent) Lut (to his people). (Remember) when he said to them, "Why are you doing that faahisyah deed, which no one (in this world) has done before you?" (Al A'raaf: 7: 80)*

*"And indeed We have bestowed favors on Musa and Harun. (Ash Shaaffaat: 37: 114)*

*"... Idris (the one) in the Al Quran. In fact he is a very justifying and a prophet. (Maryam: 19:56)*

In an effort to unmask Allah's secret about why the prophet is almost 98% of the prophets are only Jews, I use the basic deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I am proposing a hypothesis because the prophet Ibrahim was a Jew, all the prophets were Jews, except for the prophet Muhammad when viewed from a basic point of view of Deoxyribonucleic acid (DNA)

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information which has a double structure that forms a double helix and which contains polynucleotide macromolecules which are arranged repeatedly from nucleotide polymers. These nucleotides are composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5

carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **ADAM IS FROM AFRICA**

Let us now uncover the secret behind the verse: *"Verily We have created you (Adam), then We form your body, .. (Al A'raaf: 7: 11)* And the verse: *" ... Allah created Adam from the ground ... (Ali 'Imran: 3: 59)*

Well, it turns out that Adam lived and passed down human descendants until now from Africa around Lake Victoria.

Then Adam was considered a prophet.

## **FROM THE PROPHET IDRIS, PROPHET NUH TO THE PROPHET ISMAIL WAS JEWS**

Let us continue to unpack to reveal the secret behind the verse: *"And tell (O Muhammad to them, the story) of Idris (the one) in the Quran ..."* (Maryam: 19:56)

And the verse: *"... We have given revelations to Noah and the prophets who were later, and We have given revelations (also) to Abraham, Isma'il, Isaac, Ya'qub and their grandchildren, Isa, Ayyub, Yunus, Harun. and Solomon. And We gave Zabur to David. (An Nisaa ': 4: 163)*

And the verse: *"And (We have also sent) Lut (to his people) ..."* (Al A'raaf: 7: 80)

Then the verse: *"And We save Abraham and Lut to a land that We have blessed him for all mankind. (Al Anbiyaa ': 21: 71)*

Then the verse: *"And indeed We have bestowed favors on Moses and Aaron. (Ash Shaaffaat: 37: 114)*

Now it is revealed that almost 98% of the prophets were the descendants of the Jews from Prophet Idris to Prophet Ismail, except for Prophet Muhammad and Prophet Adam.

## **THE KEY IS THE PROPHET IBRAHIM OF JEWISH PEOPLE**

Haplogroup J which gave birth to J1 and J2, who are the ancestors of the Jewish people. (Familytreedna)

Haplogroup J was formed 25000 years ago, in the border area between Saudi Arabia, Jordan and Egypt. (Familytreedna)

Haplogroup J's Jewish ancestors originated from the border between Saudi Arabia and Jordan emigrated to Ur in Iraq, sometime between 2000-1500 BC.

Where in Ur was born Prophet Ibrahim.

## **CONCLUSION**

Based on the description above we can conclude that the secret behind the verse: *"Verily We have created you (Adam), then We form your body, .. (Al A'raaf: 7: 11)* And verse: *" ... Allah created Adam from land ... (Ali 'Imran: 3: 59)*

It turns out that Adam lived and passed down human descendants until now from Africa around Lake Victoria.

Then Adam was considered a prophet.

From the start of the prophet Idris, the prophet Noah to the prophet Ismail are Jews.

The secret behind the verse: *"And tell them (O Muhammad, the story of) Idris (the one) in the Quran ..."* (Maryam: 19:56)

And the verse: *"... We have given revelations to Noah and the prophets who were later, and We have given revelations (also) to Abraham, Isma'il, Isaac, Ya'qub and their grandchildren, Isa, Ayyub, Yunus, Harun. and Solomon. And We gave Zabur to David. (An Nisaa ': 4: 163)*

And the verse: *"And (We have also sent) Lut (to his people) ..."* (Al A'raaf: 7: 80)

Then the verse: *"And We save Abraham and Lut to a land that We have blessed him for all mankind. (Al Anbiyaa ': 21: 71)*

Then the verse: *"And indeed We have bestowed favors on Moses and Aaron. (Ash Shaaffaat: 37: 114)*

Now it is revealed that almost 98% of the prophets were the descendants of the Jews from Prophet Idris to Prophet Ismail, except for Prophet Muhammad and Prophet Adam.

The key is the prophet Ibrahim, the descendant of the Jews.

Haplogroup J which gave birth to J1 and J2, who are the ancestors of the Jewish people. (Familytreedna)

Haplogroup J was formed 25000 years ago, in the border area between Saudi Arabia, Jordan and Egypt. (Familytreedna)

Haplogroup J's Jewish ancestors originated from the border between Saudi Arabia and Jordan emigrated to Ur in Iraq, sometime between 2000-1500 BC.

Where in Ur was born Prophet Ibrahim.
