## ABSTRACT

First, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT regarding the secret of making love in paradise from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

Signs of God's greatness regarding the secret of making love in paradise are found in several verses which I consider to be the key to unlocking God's secret about making love in paradise, namely:

*"And We said: "O Adam, dwell in this paradise for you and your wives, and eat from its abundant good food wherever you like, and do not approach this tree, which causes you to be among the wrongdoers. (Al Baqarah: 2:35) "Then the devil whispered evil thoughts to him, saying: "O Adam, will I show you the khuldi tree and the kingdom that will not perish?" (Thaahaa: 20: 120)*

*"So both of them ate from the fruit of the tree, then it appeared to them both his nakedness and began to cover them both with leaves (which are in) Paradise, and Adam disobeyed God and went astray (Thaahaa: 20: 120)*

In an effort to unveil the greatness of Allah SWT regarding the secret of making love in paradise, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

## HYPOTHESIS

Here I propose a hypothesis about making love in paradise the same as making love on earth when viewed from photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## PARADISE, A PLACE TO LOVE IS NO DIFFERENT WITH A PLACE TO LOVE ON EARTH

Now we collectively explore what is written in the verse: *"...O Adam, dwell in this paradise with you and your wife,...and do not approach this tree...(Al Baqarah: 2:35)*

Then we continue to explore the secret behind the verse: *"... the devil whispers..." O Adam, will I show you the khuldi tree and the kingdom that will not perish?" (Thaahaa: 20: 120)*

Then we dig deeper into the verse: *"So both of them ate from the fruit of the tree, then their nakedness appeared to them..." (Thaahaa: 20: 120)*

It turns out that now it has been revealed that what is shown by Adam and his wife is a picture of a husband and wife who have been lulled by the urge and desire to make love on our earth today.

Trees that should not be approached, is a picture that is an attraction and a stimulus for human impulses and desires to get satisfaction in life.

## **PARADISE IS A PLACE TO LOVE**

Adam and his wife made heaven as a place to release the urge and desire to make love as husband and wife is a natural and normal thing for humans.

The problem now is the impulses and desires of humans generated by the devil who brings and makes love which is originally natural and normal becomes a destruction.

And it is this situation that is described by Adam and his wife in heaven, namely Adam and his wife are not making love naturally and normally, but have followed the strains and whispers of the devil that lead to impulses and desires that lead to destruction.

## **THE IMAGE OF ADAM AND HIS WIFE IN LOVE IN HEAVEN IS NO DIFFERENT FROM THE PICTURE OF A HUSBAND WIFE IN LOVE ON OUR EARTH**

As the devil whispers: *"..." O Adam, will I show you ... a kingdom that will not perish?" (Thaahaa: 20: 120)* It turns out that the picture of love here is described as an endless desire and urge.

The image of love that gives satisfaction and pleasure that does not stop. And indeed the secret of love here describes how humans develop from husband and wife into tribes and nations.

Now the secret of love is revealed, namely *"...a kingdom that will not perish" (Thaahaa: 20: 120)* where humans will continue to grow to fill our earth.

## **CONCLUSION**

Based on the description above, we can conclude that what is written in the verse: *"...O Adam, dwell in this paradise with you and your wife,...and do not approach this tree...(Al Baqarah: 2:35)* and the secret behind the verse: *"... the devil whispers..." O Adam, will I show you the tree of khuldi and the kingdom that will not perish?" (Thaaha: 20: 120)*

Then in the verse: *"So both of them ate from the fruit of the tree, then their nakedness appeared to them..." (Thaahaa: 20: 120)*

It turns out that now it has been revealed that what Adam and his wife are showing is a picture of a husband and wife who have been swayed by the urge and desire to make love on our earth today.

Trees that should not be approached, is a picture that is an attraction and a stimulus for human impulses and desires to get satisfaction in life.

Adam and his wife made heaven as a place to release the urge and desire to make love as husband and wife is a natural and normal thing for humans.

The problem now is the impulses and desires of humans generated by the devil who brings and makes love which is originally natural and normal becomes a destruction.

And it is this situation that is described by Adam and his wife in paradise, namely Adam and his wife are not making love naturally and normally, but have followed the strains and whispers of the devil that lead to impulses and desires that lead to destruction.

As the devil whispers: "... *O Adam, will I show you ... a kingdom that will not perish?*" (*Thaahaa: 20: 120*)

The picture of love here is described as an endless desire and urge. The image of love that gives satisfaction and pleasure that does not stop.

And indeed the secret of love here describes how humans develop from husband and wife into tribes and nations.

Now the secret of love is revealed, namely *"...a kingdom that will not perish"* (*Thaahaa: 20: 120*) where humans will continue to grow to fill our earth.
