ABSTRACT

Before I write down the problem, on what basis, humans worship and believe in male jinn, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about, on what basis, humans worship and believe in the male jinn, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool on what basis humans worship and believe in the male jinn, namely the verses:

"They were never touched by humans before them, and neither by the jinn. (Ar Rahman: 55: 74)

"And if We had willed, We would have given every soul guidance, but my word has remained: "Indeed, I will fill the Hell with jinns and humans together." (As Sajdah: 32:13)

"And He created the jinn from the flames of fire. (Ar Rahman: 55:15)

"And I did not create the jinn and humans except that they might serve Me. (Adz Dzaariyaat: 51: 56)

"And verily among us are those who are obedient and there are those who stray from the truth. Whoever obeys, then they have indeed. And verily among us are those who obey and there are those who deviate from the truth. Whoever is obedient, then they have indeed chosen the straight path. (Al Jin: 72: 14)

"And verily We made for the Hellfire most of the jinn and humans, they have hearts, but they do not use to understand and they have eyes they do not use to see, and they have ears they do not use to hear. They are like cattle, they are even more misguided. They are the ones who are negligent. (Al A'raaf: 7: 179)

"And verily among us are those who are pious and among us there are those who are not. It's that we take different paths. (Al Jin: 72: 11)

"And that there are some men among mankind seeking protection from some men among the jinn, then the jinn add to their sins and faults. (Al Jin: 72:6)

The angels replied: "Glory be to You. You are our protector, not them; even they have worshiped the jinn; most of them believe in the jinn." (Saba' : 34:41)

"And that when the servant of Allah stood up and worshiped Him, the jinn almost rushed to swarm over him. (Al Jin: 72: 19)

"O congregation of jinn and humans, if you are able to penetrate the corners of the heavens and the earth, then cross it, you cannot penetrate it except with strength. (Ar Rahmaan: 55: 33)

"And they make the jinn partners with Allah, even though Allah created the jinn, and they lie: "That Allah has sons and daughters", without knowledge. Glory be to Allah and Exalted is the attributes that they bestow. (Al An'aam : 6: 100)

"And when We said to the angels: "Prostrate to Adam, then bow down to them except Satan. He is from the jinn group, so he disobeys the command of his Lord. Should you take him and his descendants as leaders other than Me, while they is your enemy? How bad is the devil as a substitute for the wrongdoers. (Al Kahf: 18: 50)

In an effort to open the veil of Allah's secret on what basis, humans worship and believe in the male jinn, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that humans worship and believe in male jinn, because humans and jinn are the same sex, not different, from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

HUMAN ASKING FOR HELP MALE JINN

Now, we are still concentrating on uncovering the secret behind the verse: ***"...there are some men among humans asking for protection from some men among the jinn...(Al Jin: 72:6)***

It turns out, indeed the jinn are a kind of human, whose body contains oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms. ***"... We made for the Hell of Hell most of the jinn and humans ... (Al A'raaf: 7: 179)***

Why is Hell filled with jinn and humans?

The answer is

Hidden in the secret of the verse: ***"...He created the jinn from a fire. (Ar Rahman: 55:15)***

It means, ***"...fire. (Ar Rahmaan: 55: 15)*** consists of oxygen atoms and hydrogen atoms.

Because the human body also contains oxygen atoms and hydrogen atoms, then humans and jinn are one type.

Now the question arises, why do humans seek help from male jinn?

The answer is

Hidden in the secret behind the verse: ***"... We made for Hell Hell most of the jinn and humans ... (Al***

A'raaf: 7: 179

That is, in hell, the fuel is hydrogen atoms. Because hydrogen atoms exist in the bodies of humans and jinn, the hydrogen atoms that come out of the bodies of jinn and humans are used as fuel for hell.

So, because humans and jinn are one type, humans ask for help from male jinn.

Because humans and jinn are one type, it is difficult to distinguish which are jinn and which are humans.

HUMANS WORSHIP AND BELIEVE IN JINN

Now, we continue to unveil the secret behind the verse: "*The angels replied: "Glory be to You. You are our protector, not them; even they have worshiped the jinn; most of them believe in the jinn."* (Saba' : 34:41)

It turns out, it is indeed one type, where because the jinn have higher knowledge than humans, the jinn are worshiped and believed in.

Where Allah has declared "*O congregation of jinn and humans, if you are able to penetrate the corners of the heavens and the earth, then cross it, you cannot penetrate it except with strength.*" (Ar Rahmaan: 55: 33)

Well here it turns out clearly, jinn and humans compete in the matter of science about the heavens and the earth. Where Allah calls, firstly, the name of the jinn, secondly, the name of the human being "*O congregation of jinn and humans...* (Ar Rahmaan: 55: 33)

JIN HAS A FAMILY AND CHILDREN

So, let's continue to explore the secret behind the verse: "*They have never been touched by humans before them, and neither by the jinn.* (Ar Rahman: 55: 74)

Now, it is increasingly being revealed that the jinn also touch women, meaning that the jinn have wives and families "*... among us there are pious people and among us there are those who are not...* (Al Jin: 72: 11)

It turns out that the genie and his family "*... there are pious people and... some are not...* (Al Jin: 72: 11)

HOW, WE KNOW IT IS A JIN OR NOT

Now we continue to unravel the secret behind the verse: "*... most of the jinn and humans, they have hearts, but they don't use them to understand and they have eyes they don't use to see, and they have ears they don't use to hear...* (Al A'raaf: 7:179)

Well, it turns out, the jinn have "*...heart,...eyes...ears...(Al A'raaf: 7:179)* like humans.

So, jinn are everywhere, all around us, we cannot distinguish between jinn and humans. There are jinn "*... who are pious...* (Al Jin: 72 : 11) and there are jinn who are "*... not so...* (Al Jin: 72 : 11)

When the Prophet Muhammad was praying "*.. the servant of Allah stood worshiping Him, almost the jinn were pressing to swarm around him.* (Al Jin: 72: 19)

JINN DON'T NEED TO BE WORSHIPED AND DON'T NEED TO BE BELIEVED

Now, let's unveil the secret behind the verse: *"...but my words have remained: "Indeed, I will fill the hell out of hell with jinn and humans together." (As Sajdah: 32:13)*

Well, because the jinn and humans will go to hell, then the jinn do not need to be worshiped and believed in.

Even though the jinn are smart, great in knowledge and have a lot of wealth, but if the jinn are still put into hell, then humans do not need to worship him and there is no point in believing in him.

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"...there are some men among humans asking for protection from some men among the jinn...(Al Jin: 72:6)*

It turns out, indeed the jinn are a kind of human, whose body contains oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms. *"... We made for the Hell of Hell most of the jinn and humans ... (Al A'raaf: 7: 179*
