ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I am trying to reveal the signs of Allah SWT regarding the secret of Allah to reach Allah through the mother book ocean route based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about getting to Allah through the oceanic path of the mother of the book, namely the following verses:

"And verily We have created man and know what his heart whispers, and We are closer to him than his jugular vein." (Qaf: 50:16)

"Only You we worship, and only You we ask for help. (Al Faatihah: 1: 5)

"When his Lord said to him: "Submit obediently!" Ibrahim replied: "I submit to the Lord of the worlds". (Al Baqarah: 2:131)

"The angels and Gabriel ascended (to face) Allah in a day the measure of which was fifty thousand years. (Al Ma'aarij: 70:4)

In an effort to unmask Allah's secret about getting to Allah through the mother ocean route, my book uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis to get to Allah through the ocean of the mother of the book with the help of the light of Allah's spirit that is in our bodies seen from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

SUBMIT OBEY AND LOOK FOR HELP

Now, we are together to focus our thoughts towards extracting the secret hidden under the verse: *"Only You we worship, and only You we ask for help. (Al Faatihah: 1: 5)*

It turns out that two secrets that can be used as a guide to get to Allah, namely:

The first secret is worship which is manifested in the form of obedience and submission.

The second secret is to expect help from Allah which we ourselves are unable to do and carry out.

THROUGH THE MOTHER'S OCEAN ROAD TO GET TO ALLAH WITH THE HELP OF THE LIGHT OF ALLAH'S SPIRIT THAT IS IN OUR BODY

Now, before reaching Allah, we must go through the path *"You are the only one we worship... (Al Faatihah: 1: 5)*

It means *"...Submit obey!" ... (Al Baqarah: 2:131)*

So, to get to Allah it is not necessary to have to penetrate the universe with a time of *"...fifty thousand years. (Al Ma'aarij: 70: 4)*, but only in one second.

Why in one second we have arrived at Allah?

The answer is

"... We are closer to him than his jugular vein, (Qaf: 50:16)

This means that the spirit of Allah is in our bodies.

So, when we stand, bow, prostrate and sit, five times a day, it is the time we speak directly to Allah *"... You are the one we worship... (Al Faatihah: 1:5)*

All of that is the path of the mother of the book, the spirit of Allah is already in our bodies, we just need to carry out God's command *"... Submit, obey!" ... (Al Baqarah: 2:131)*

After that, we ask Allah for something that we ourselves are not able to do and do *"... You are the one we ask for help. (Al Faatihah: 1: 5)*

THROUGH THE SPIRIT OF ALLAH IN OUR BODY DIRECTLY WE CAN TALK TO ALLAH

Now, the secret behind the verse has been revealed: *"The angels and Gabriel ascended (to face) Allah in a day which is fifty thousand years. (Al Ma'aarij: 70:4)*

That is, we do not need to follow the angels and Gabriel to face Allah which takes *"...fifty thousand years. (Al Ma'aarij: 70: 4)*, but only one second is enough, when we pray five times a day.

CONCLUSION

Based on the description above, we can conclude that the secret hidden under the verse: *"Only You we worship, and only You we ask for help. (Al Faatihah: 1: 5)*

It turns out that two secrets that can be used as a guide to get to Allah, namely:

The first secret is worship which is manifested in the form of obedience and submission.
