ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT's greatness regarding Allah's secret about what causes the devil to be higher than Allah based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

In the Qur'an, several verses are found that are the key to unlocking the secret of what causes the devil to want to be higher than Allah, namely the following verses:

"And (remember) when We said to the angels: "Prostrate yourselves to Adam, so prostrate them except Satan. He is from the group of jinn, so he disobeys the command of his Lord. Should you take him and his descendants as leaders other than Me, while they are your enemies? Very bad is the devil as a substitute (from Allah) for the wrongdoers. (Al Kahf: 18: 50)

Allah said: "O devil, what is preventing you from prostrating yourself to what I have created with My hands. Do you boast or do you (feel) of those who are (higher)?" (Shaad: 38: 75)

Allah said: "What prevented you from prostrating (to Adam) when I commanded you?" The devil replied "I am better than him: You created me from fire while You created him from clay." (Al A'raaf: 7: 12)

In an effort to open the veil about what causes the devil to want to be higher than Allah, based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that oxygen atoms are easier to oxidize with other atoms when viewed from the point of view of photons, quarks and deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

To find out quarks, let's look at one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

THE DEVIL IS A GROUP OF JINN WHO ARE A TYPE OF HUMAN

Let us together again reveal the secret hidden behind the verse:

"And (remember) when We said to the angels: "Prostrate yourselves to Adam, so prostrate them except Satan. He is from the group of jinn, so he disobeys the command of his Lord. Should you take him and his descendants as leaders other than Me, while they are your enemies? Very bad is the devil as a substitute (from Allah) for the wrongdoers. (Al Kahf: 18: 50)

Now it is revealed that Devil is a group of jinn and a kind of human, where in the devil's body not only contains oxygen atoms, but also hydrogen atoms, nitrogen atoms and carbon atoms.

Where the devil thinks that he is better than Adam, because he was created from fire, with the assumption that in fire there are oxygen atoms that are better than the nitrogen atoms and carbon atoms in the soil.

GOD FEELS THERE IS A COMPETITION WITH THE DEVIL

Well, it turns out that with the appearance of Devil's attitude with the assumption that the oxygen atom is what gives life to other living things, he despises Adam who was created from soil containing carbon and nitrogen atoms, including despising Allah who created Adam and created himself.

With the defiance of the devil to not prostrate to Adam ***"I am better than him: You created me from fire while You created him from clay." (Al A'raaf: 7:12)***

Plus an attitude that thinks he is higher than Adam and Allah himself.

Causing Allah to declare: ***"... Should you take him and his descendants as leaders other than Me, .. (Al Kahf: 18: 50)***

Now, it is increasingly being exposed now that the existence of this devil's attitude makes it easy for Allah to filter His servants, who still continue to believe and follow Allah, and who follow Allah's rival, namely the devil who is considered as ***"...they are your enemies? Very bad is the devil as a substitute (from Allah) for the wrongdoers. (Al Kahf: 18: 50)***

THE DEVIL IS A TYPE OF HUMAN

Well, because the devil's and human's bodies are built by oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms, then actually humans are able to become devils and ***"... their descendants as leaders... Al Kahf: 18: 50).***

A HUMAN TYPE OF DEVIL FEEL HIGHER THAN ADAM AND ALLAH

Now the secret behind the verse has been revealed: ***"...Are you boasting or do you (feel) including those who are (higher)?" (Shaad: 38: 75)***

It turns out that the devil feels arrogant and feels higher than others, including from Allah the creator of the devil himself. Well, actually not only the devil, but humans themselves can become demons if they feel arrogant and consider themselves to be higher than Allah.

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse:

"And (remember) when We said to the angels: "Prostrate yourselves to Adam, so prostrate them except Satan. He is from the group of jinn, so he disobeys the command of his Lord. Should you take him and his descendants as leaders other than Me, while they are your enemies? Very bad is the devil as a substitute (from Allah) for the wrongdoers. (Al Kahf: 18: 50)
