ABSTRACT

Before I write about why the prophets of the Jews did not eat pork, the writer first asked forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret why the prophets of the Jews did not eat pork from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There is a verse that is a secret unlocking tool why the prophets of the Jews did not eat pork, namely the verses:

"Indeed, Allah only forbids you... pork... (An Nahl: 16:115)

"Say: "I did not find in the revelation that was revealed to me, something that is forbidden for those who want to eat it, except for food ... pork .. (Al An'aam: 6: 145)

"Today...the food of those who were given the al kitab is lawful for you, and your food is lawful for them...(Maa'idah: 5:5)

"Forbidden to you... pork... (Al Maa'idah: 5:3)

In an attempt to unmask the secret of why the Jewish prophets did not eat pork, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that the prophets of the Jews did not eat pork because human DNA is the same as pig DNA when viewed from the basic point of Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ALL THE PROPHETS FROM THE PROPHET NUH TO THE PROPHET ISA THE SON OF MARYAM WERE JEWS BASED ON DNA

Now, we are still trying to squeeze our minds to reveal the secret behind the verse: *"... those who were given the al kitab... (Maa'idah: 5:5)*

It turned out that the people who were given the book were some of the prophets whose ancestors were Jews. From Prophet Nuh to Prophet Isa, based on Deoxyribonucleic acid (DNA).

Now, if we dig deeper into the lineage from Prophet Nuh to Prophet Isa, based on Deoxyribonucleic acid (DNA), it will be revealed that haplogroup J gave birth to J1 and J2, which are the ancestors of the Jews.

Where haplogroup J was formed 25000 years ago, in the border area between Saudi Arabia, Jordan and Egypt. Jews, haplogroup J, from the border between Saudi Arabia and Jordan into Egypt and into Iraq (Familytreedna)

Now if we examine the descendants of Prophet Nuh, the Prophet Ibrahim came from Ur, in Iraq. Also Prophet Moses came from Egypt.

Why was Prophet Ibrahim in Ur and Moses in Egypt?

The answer is

Because the ancestors of these Jews who came from the border between Saudi Arabia and Jordan emigrated to Egypt and Iraq, around 2000-1500 BC

THE FOOD OF THE JEWISH PROPHETS IS HALAL FOR MUSLIM

Now, let's continue to uncover the secret behind the verse: *"Today...the food of those who were given the al kitab is lawful for you, and your food is lawful for them...(Maa'idah: 5:5)*

It turns out that the food eaten by the Jewish prophets may be eaten by Muslims *"Today... (Maa'idah: 5: 5)*, namely after the Prophet Muhammad performed the hajj wada', which is the last pilgrimage, before the Prophet Muhammad was called by Allah to face Allah.

JEWISH PROPHETS DON'T EAT PORK

So, why didn't the prophets of the Jews eat pork?

The answer is

hidden behind the verse: *"Today...the food of those who were given the al kitab is lawful for you... (Maa'idah: 5:5)*

That is, the food that is forbidden in the Qur'an, including eating pork, is also forbidden in the al kitab of the people of the al kitab.

WHY EATING PORK IS PROHIBITED BOTH BY THE JEWISH PROPHETS AND BY THE AL QURAN

Now, let's break down what is in the pig's body if we study it based on Deoxyribonucleic acid (DNA).

It turns out that from the point of view of DNA structure, the similarities are very close.

Where in the composition of protein in the body of pigs is the same as in the composition of proteins in the human body. Therefore, it was once made from small piglets whose protein

composition was taken to make insulin.

EATING PORK IS THE SAME AS EATING HUMAN MEAT

Now let's get together to unpack the verse: *"Indeed, Allah only forbids you... pork..." (An Nahl : 16:115)* It turns out that there are similarities between pork and human flesh.

Now this is the secret that covers the verse: *"... Allah only forbids you... pork..." (An Nahl: 16: 115)*

IN THE BODY OF A PIG CAN BE USED FOR IMPLEMENTING THE HEART, LIVER, LUNGS, KIDNEY

With the help of Cas9 enzymes injected into pig cells and with Cas9 scissors, human DNA can be implanted in pig DNA fetuses.

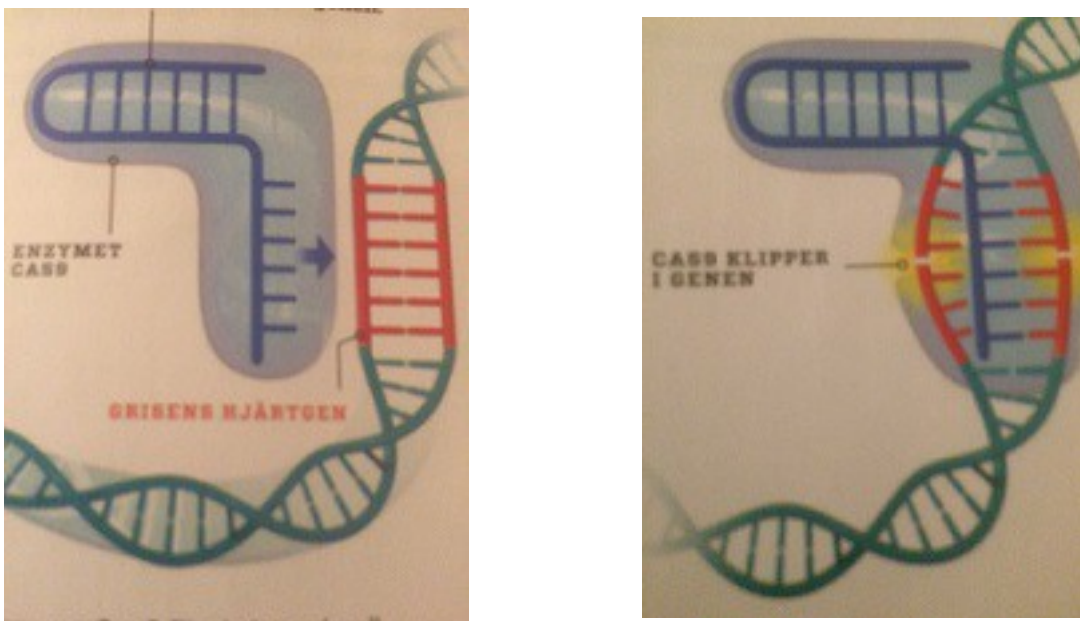

Figure 1: With the help of Cas9 enzyme injected into pig cells and with Cas9 Scissors

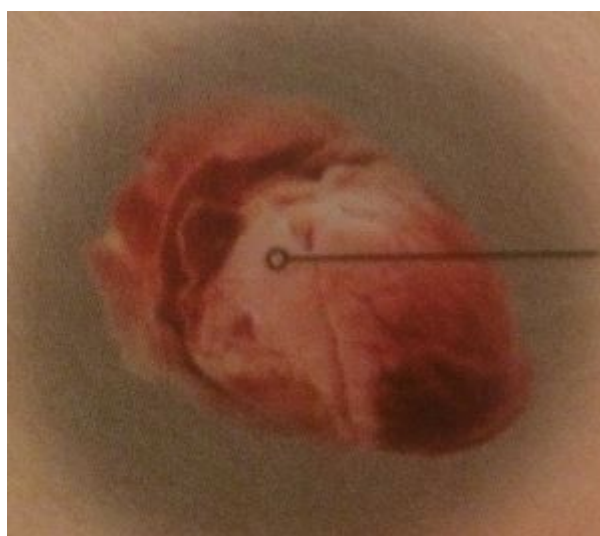

Figure 2: A human heart grows in a pig's body

Figure 3: Human stamsel injected into a young pig fetus.

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"... those who were given the al kitab..." (Maa'idah: 5:5)*

It turned out that the people who were given the book were some of the prophets whose ancestors were Jews. From Prophet Nuh to Prophet Isa, based on Deoxyribonucleic acid (DNA).

Now, if we dig deeper into the lineage from Prophet Nuh to Prophet Isa, based on Deoxyribonucleic acid (DNA), it will be revealed that haplogroup J gave birth to J1 and J2, which are the ancestors of the Jews.

Where haplogroup J was formed 25000 years ago, in the border area between Saudi Arabia, Jordan and Egypt. Jews, haplogroup J, from the border between Saudi Arabia and Jordan into Egypt and into Iraq (Familytreedna)

Now if we examine the descendants of Prophet Nuh, the Prophet Ibrahim came from Ur, in Iraq. Also Prophet Moses came from Egypt.

Why was Prophet Ibrahim in Ur and Moses in Egypt?

The answer is

Because the ancestors of these Jews who came from the border between Saudi Arabia and Jordan emigrated to Egypt and Iraq, around 2000-1500 BC

Now, let's continue to uncover the secret behind the verse: *"Today...the food of those who were given the al kitab is lawful for you, and your food is lawful for them..."(Maa'idah: 5:5)*

It turns out that the food eaten by the Jewish prophets may be eaten by Muslims *"Today..." (Maa'idah: 5: 5)*, namely after the Prophet Muhammad performed the hajj wada', which is the last pilgrimage, before the Prophet Muhammad was called by Allah to face Allah.

So, why didn't the prophets of the Jews eat pork?

The answer is

hidden behind the verse: *"Today...the food of those who were given the al kitab is lawful for you... (Maa'idah: 5:5)*

That is, the food that is forbidden in the Qur'an, including eating pork, is also forbidden in the al kitab of the people of the al kitab.

Now, let's break down what is in the pig's body if we study it based on Deoxyribonucleic acid (DNA).

It turns out that from the point of view of DNA structure, the similarities are very close.

Where in the composition of protein in the body of pigs is the same as in the composition of proteins in the human body. Therefore, it was once made from small piglets whose protein composition was taken to make insulin.

Now let's get together to unpack the verse: *"Indeed, Allah only forbids you... pork..." (An Nahl : 16:115)* It turns out that there are similarities between pork and human flesh.

Now this is the secret that covers the verse: *"... Allah only forbids you... pork..." (An Nahl: 16: 115)*

With the help of Cas9 enzymes injected into pig cells and with Cas9 scissors, human DNA can be implanted in pig DNA fetuses.

A human heart grows in a pig's body, because human stamcel injected into a young pig fetus.
