ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT regarding Prophet Ibrahim who asked Allah how Allah brought the dead to life based on photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

In the Qur'an there is a verse that is the key to unlocking the secret of Prophet Ibrahim who asked Allah how Allah brought the dead to life, namely:

"And Ibrahim said: "Indeed, I am going to my Lord, and He will guide me. (Ash Shaaffaat: 37:99)

"When his Lord said to him: "Submit obediently!" Ibrahim replied: "I submit to the Lord of the worlds". (Al Baqarah: 2:131)

And (remember) when Ibrahim said: "O my Lord, show me how You bring the dead to life." Allah said: "Are you not convinced yet?" Ibrahim replied: "I have convinced him, but so that my heart remains steady (with my faith). Allah said: "(Then) take four birds, then chop them all up by you. (Allah says): "Then put on each hill one part of it, then call them, surely they will come to you with immediately." And know that Allah is Mighty, Wise. (Al Baqarah: 2:260)

"And (remember the story of) Maryam who kept her honor, then We breathed into her a spirit from Us and We made her and her child a great sign (of Allah's power) for the worlds. (Al Anbiyaa ': 21: 91)

In an effort to open the veil about Prophet Ibrahim who asked Allah how Allah brought the dead to life based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that Allah brings the dead to life by releasing oxygen atoms, hydrogen atoms, nitrogen atoms, carbon atoms from the body based on photons, quarks and Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains

1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

As for if we want to know quarks, then we consider one of the hydrogen atoms which is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

PROMISE OF THE PROPHET IBRAHIM SUBMIT AND OBEY

Now we are back together to explore the secret hidden behind the verse: *"And Abraham said: "Verily I am going to my Lord, and He will guide me. (Ash Shaaffaat: 37:99)*

Well, here Prophet Ibrahim is looking for and studying who can give lessons and instructions to him.

After the Prophet Ibrahim found who he was looking for, namely Allah, then *"When his Lord said to him: "Submit obediently!" Ibrahim replied: "I submit to the Lord of the worlds". (Al Baqarah: 2:131)*

It turned out that here it was revealed that Prophet Ibrahim had declared that he was submissive and obedient to Allah. After Allah ordered Abraham to submit and obey.

THE BRAIN AND MIND OF THE PROPHET IBRAHIM STILL DON'T GET ANSWERS ABOUT HOW THE DEAD CAN BE RAISES

Now, let's unveil the secret behind the verse: *"And (remember) when Ibrahim said: "O my Lord, show me how You bring the dead to life." (Al Baqarah: 2: 260)*

It turns out that the brain and mind of the Prophet Ibrahim who had not found a satisfactory answer regarding who could bring the dead to life, now Ibrahim directs his mind to Allah: *"...how do you bring the dead to life."...(Al Baqarah: 2: 260)*

Here Allah declares: *"... " Are you not sure yet?".... (Al Baqarah: 2: 260)*

Well here Allah considers all who believe in Allah are all already believe that the dead Allah is the one who brings back to life.

But here the brain and mind of the Prophet Ibrahim is still not convinced that Allah is the one who brings the dead to life. *"...Ibrahim replied: "I have convinced him, but so that my heart remains steady (with my faith)...(Al Baqarah: 2:260)*

Well, of course Allah has to prove that Allah can bring the dead to life.

The trick is

Allah said: *"(Then) take four birds, then chop them all up by you. (Allah says): "Then put on each hill*

one part of the parts, then call them, surely they will come to you immediately."... (Al Baqarah: 2:260)

Now, after Prophet Ibrahim chopped four birds and divided them into four parts, each part was placed on a hill.

THE SPIRIT OF ALLAH COMES BACK FROM THE DEATH

What happened next with the four chopped up birds, of course what happened was *"...then We breathed into (the body) the spirit from Us... (Al Anbiyaa ' : 21: 91)*

It turns out, indeed the four birds died, but what came out of the dead birds was *"... the spirit from Us... (Al Anbiyaa ' : 21: 91)*

Where is the spirit of Allah or *"...the spirit of Us... (Al Anbiyaa' : 21: 91)* it consists of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

Now it is revealed that *"...they come to you immediately."... (Al Baqarah: 2:260)* not dead birds come back to life, but oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms that come out of the body the four dead birds.

So, actually what comes back to life is Allah's spirit which consists of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: *"And Abraham said: "Verily I am going to my Lord, and He will guide me. (Ash Shaaffaat: 37:99)*

Well, here Prophet Ibrahim is looking for and studying who can give lessons and instructions to him.

After the Prophet Ibrahim found who he was looking for, namely Allah, then *"When his Lord said to him: "Submit obediently!" Ibrahim replied: "I submit to the Lord of the worlds". (Al Baqarah: 2:131)*

It turned out that here it was revealed that Prophet Ibrahim had declared that he was submissive and obedient to Allah. After Allah ordered Abraham to submit and obey.

Now, let's unveil the secret behind the verse: *"And (remember) when Ibrahim said: "O my Lord, show me how You bring the dead to life." (Al Baqarah: 2: 260)*

It turns out that the brain and mind of the Prophet Ibrahim who had not found a satisfactory answer regarding who could bring the dead to life, now Ibrahim directs his mind to Allah: *"...how do you bring the dead to life."... (Al Baqarah: 2: 260)*

Here Allah declares: *"... " Are you not sure yet?".... (Al Baqarah: 2: 260)*

Well here Allah considers all who believe in Allah are all already believe that the dead Allah is the one who brings back to life.

But here the brain and mind of the Prophet Ibrahim is still not convinced that Allah is the one who brings the dead to life. *"...Ibrahim replied: "I have convinced him, but so that my heart remains steady (with my faith)... (Al Baqarah: 2:260)*

Well, of course Allah has to prove that Allah can bring the dead to life.

The trick is

Allah said: *"(Then) take four birds, then chop them all up by you. (Allah says): "Then put on each hill one part of the parts, then call them, surely they will come to you immediately."... (Al Baqarah: 2:260)*

Now, after Prophet Ibrahim chopped four birds and divided them into four parts, each part was placed on a hill.

What happened next with the four chopped up birds, of course what happened was *"...then We breathed into (the body) the spirit from Us... (Al Anbiyaa ' : 21: 91)*

It turns out, indeed the four birds died, but what came out of the dead birds was *"... the spirit from Us... (Al Anbiyaa ' : 21: 91)*

Where is the spirit of Allah or *"...the spirit of Us... (Al Anbiyaa' : 21: 91)* it consists of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

Now it is revealed that *"...they come to you immediately."... (Al Baqarah: 2:260)* not dead birds come back to life, but oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms that come out of the body the four dead birds.

So, actually what comes back to life is Allah's spirit which consists of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.
