ABSTRACT

First of all, by asking forgiveness from Allah SWT here I try to reveal the signs of Allah SWT's greatness regarding Allah's secret about a little knowledge, according to Allah, it is not the same as a little knowledge, according to humans, from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

The signs of Allah's greatness regarding a little knowledge, according to Allah, are not the same as a little knowledge, according to humans, namely in the verses:

"Say: If the sea were to be ink for the words of my Lord, the sea would be completely exhausted before the words of my Lord were finished, even though We brought that much extra." (Al Kahf: 18:109)

"Verily your Lord is only Allah, there is no god but Him. His knowledge covers all things." (Thaaha: 20:98)

"...Allah's seat covers the sky and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Great. (Al Baqarah: 2:255)

"It is Allah Who created the seven heavens and the earth like it. Allah's commandments apply to him, so that you may know that Allah is All-Powerful over all things, and verily Allah has full knowledge of all things. (Ath Thalaq: 65:12)

"And they ask you about spirits. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa': 17:85)

"Then He perfected and breathed into it His spirit and He made for you hearing and sight and hearts; you are very grateful. (As Sajdah: 32: 9)

In an effort to unmask the greatness of Allah SWT regarding a little knowledge, according to Allah, it is not the same as a little knowledge, according to humans I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose a hypothesis, a little knowledge, according to Allah, is not the same as a little science, according to humans, because there is a difference between the size according to Allah and the size according to humans, judging from the photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases.

The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

A LITTLE KNOWLEDGE ACCORDING TO ALLAH

Now, we still continue to focus our minds to uncover the secrets that are hidden behind the verse: *"... If the ocean were to become ink for the words of my Lord, the sea would be finished before the words of my Lord were finished....(Al Kahf: 18 : 109)*

Revealed now, the knowledge of Allah, which is described by *"...the words of my Lord...(Al Kahf: 18:109)* which *"... covers the heavens and the earth... (Al Baqarah: 2:255)* compared to the *"...the ocean becomes ink...(Al Kahf: 18:109)* to write *"...the words of my Lord...(Al Kahf: 18:109)*

Where, if humans compare this earth with the extent of *"...the sky... (Al Baqarah: 2:255)*, then this earth is like a speck of dust or smaller than that.

So, the knowledge of Allah, humans cannot calculate according to the size of human calculations on this earth.

LITTLE KNOWLEDGE ACCORDING TO HUMANS

Well, the measure of knowledge possessed by humans is based on the knowledge required, either through school or through experience.

Because of that *"...to (write) the words of my Lord, the sea is truly finished before the words of my Lord are finished....(Al Kahf: 18:109)*

Now, if Allah declares *"... you were not given knowledge but a little." (Al Israa': 17: 85)*

Now it means, here, *"... a little." (Al Israa': 17: 85)* knowledge according to Allah is if it is calculated based on human calculations, then knowledge is *"... a little." (Al Israa ': 17: 85)* according to Allah's reckoning, is a huge amount according to human reckoning.

ALLAH DECLARES, HUMAN KNOWLEDGE IS LITTLE, THAT IS ACCORDING TO ALLAH'S CALCULATIONS, WHILE ACCORDING TO HUMAN CALCULATIONS, KNOWLEDGE IS A HUGE AMOUNT

Now, when Allah says to humans *"...they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa': 17:85)*

Well here Allah says *"... you were not given knowledge but a little." (Al Israa': 17: 85)* , means *"... a little." (Al Israa ': 17: 85)* according to Allah, but according to human calculations the knowledge to dig and open a huge amount is a huge amount.

It all depends on the man himself, to dig and open and know more about *"...Spirit...(Al Israa': 17:85)* or *"...His spirit...(As Sajdah: 32 :9)*

Now the secret hidden behind the verse has been revealed: *"... you were not given knowledge but a little." (Al Israa': 17: 85)* , means *"... a little." (Al Israa ': 17: 85)* according to Allah, but according to human calculations, the knowledge to be learned, opened and explored *"...Spirit... (Al Israa': 17: 85)* is a huge amount.

CONCLUSION

From what has been described above we can now conclude that the secrets that are hidden behind the verse: *"... If the ocean were to become ink for the words of my Lord, the sea would be finished before the words of my Lord were finished....(Al Kahf: 18 : 109)*

Revealed now, the knowledge of Allah, which is described by *"...the words of my Lord...(Al Kahf: 18:109)* which *"... covers the heavens and the earth... (Al Baqarah: 2:255)* compared to the *"...the ocean becomes ink...(Al Kahf: 18:109)* to write *"...the words of my Lord...(Al Kahf: 18:109)*

Where, if humans compare this earth with the extent of *"...the sky... (Al Baqarah: 2:255)*, then this earth is like a speck of dust or smaller than that.

So, the knowledge of Allah, humans cannot calculate according to the size of human calculations on this earth.

Well, the measure of knowledge possessed by humans is based on the knowledge required, either through school or through experience.

Because of that *"...to (write) the words of my Lord, the sea is truly finished before the words of my Lord are finished....(Al Kahf: 18:109)*

Now, if Allah declares *"... you were not given knowledge but a little." (Al Israa': 17: 85)*

Now it means, here, *"... a little." (Al Israa': 17: 85)* knowledge according to Allah is if it is calculated based on human calculations, then knowledge is *"... a little." (Al Israa ': 17: 85)* according to Allah's reckoning, is a huge amount according to human reckoning.

Now, when Allah says to humans *"...they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa': 17:85)*

Well here Allah says *"... you were not given knowledge but a little." (Al Israa': 17: 85)* , means *"... a little." (Al Israa ': 17: 85)* according to Allah, but according to human calculations the knowledge to dig and open a huge amount is a huge amount.

Now the secret hidden behind the verse has been revealed: *"... you were not given knowledge but a little." (Al Israa': 17: 85)* , means *"... a little." (Al Israa ': 17: 85)* according to Allah, but according to human calculations, the knowledge to be learned, opened and explored *"...Spirit... (Al Israa': 17: 85)* is a huge amount.
