ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT regarding the secret of establishing a state based on prayer, zakat and the Medina charter from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

The signs of Allah's greatness regarding the secret of establishing a state based on prayer, zakat and the Medina charter are written in the verse:

"If they repent, establish prayer and pay zakat, then (they are) your brothers and sisters of the same religion. And We explain the verses for a people who know. (At Taubah: 9:11)

In an effort to unveil the greatness of Allah SWT regarding the secret of establishing a state based on prayer, zakat and the Medina charter, I use the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose a hypothesis about the state standing on the ideology of prayer, the economy of zakat and the constitution of the Medina charter seen from the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PROPHET MUHAMMAD ESTABLISHED A COUNTRY IN MADINAH BASED ON THE IDEOLOGY OF PRAYER, THE ECONOMY OF ZAKAT AND THE MADINAH CHARTER/LAW OF MADINAH CONSTITUTION

Let's unravel the secret behind the verse: *"... establish prayers and pay zakat, then (they are) your brothers and sisters of the same religion... (At Taubah: 9: 11)*

Well, it was revealed that the basis used by the Prophet Muhammad when establishing a state in Medina was *"...prayer and...zakat,...(At Taubah: 9: 11)* and the Medina Charter or the Medina Law.

Now, prayer is the basis of ideology and faith in establishing and building the country and all the people. On the basis of prayer was established the state, where prayer is the ideological basis of the state.

Then, zakat is the economic basis for building and developing the country. Without zakat, the country's economy will not run.

Furthermore, the Medina Charter or the Medina Law is the constitution or constitution of the first Islamic state established by the Prophet Muhammad in Medina or Yathrib.

These are the three main foundations in establishing and building a state that has been exemplified by the Prophet Muhammad in Medina or Yathrib.

Now, the question is why is it not written in the Quran to establish a state?

The answer is Prophet Muhammad has given an example of establishing an Islamic state in Medina with his Medina law (<https://www.ahmadsudirman.se/uudmadin.htm>)
(<https://www.ahmadsudirman.se/980904.htm>)

When the Prophet Muhammad entered the Yathrib area (Medina in present-day Saudi Arabia) on Friday, 12 Rabi'ul Awwal 1 Hijrah, the thirteenth year of the prophethood which coincided with 24 September 622 AD, de facto a Muslim area was born (the Muhajirin) and the Ansar and the Jews, who were free from the power and influence of the Quraysh (the Meccan disbelievers) under the leadership of Walid bin Mughirah.

With the signing of the defense agreement or the Medina Charter or the Medina Law, the first de facto Islamic State was established in the Yathrib area, with the leader of the country directly held by the Prophet Muhammad, whose people were Muslims in Yathrib (the Muhajirin and the Ansar) and the Jews.

Now, the secret behind the verse has been revealed: *"If they repent, establish prayer and pay zakat, then (they are) your brothers and sisters of the same religion... (At Taubah: 9: 11)* namely the Prophet Muhammad established a state in Medina by ideology *"...prayer...(At Taubah: 9:11) and economics"..."zakat,..(At Taubah: 9:11)* as well as the Medina Charter or the Medina Law.

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"... establish prayers and pay zakat, then (they are) your brothers and sisters of the same religion... (At Taubah: 9: 11)*

Well, it was revealed that the basis used by the Prophet Muhammad when establishing a state in Medina was *"...prayer and...zakat,..(At Taubah: 9: 11)* and the Medina Charter or the Medina Law.
