## ABSTRACT

Before I write down Allah's secret problem about how the devil can whisper into the human mind even though the devil is a human type from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)

There are several verses that become Allah's secret unlocking tool about how the devil can whisper into the human mind even though the devil is a human type, namely the following verses:

*"And thus We made enemies for every prophet, namely the devils of humans and jinn, some of them whispering to others beautiful words to deceive. If your Lord had willed, they would not have done it, then leave them and what they invented. (Al An'aam: 6:112)*

*"From the evil of the devil who used to hide, (An-Naas: 114: 4) who whispers into the chests of people (An-Naas: 114: 5)*

In an effort to open the veil of Allah's secret about how the devil can whisper into the human mind even though the devil is a human type, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## HYPOTHESIS

Here I propose the hypothesis that the devil is a human being where humans influence each other from a basic point of view of Deoxyribonucleic acid (DNA).

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytosine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms.

2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## SATAN = HUMAN = JINN

Now, we are trying to focus on the secret that lies behind the verse: "... *We made enemies for every prophet, namely the devils of humans and jinn, some of them whispering to others beautiful words-beautiful to deceive... (Al An'aam: 6:112)*

It turned out that the secret behind the verse was revealed, namely **shaitan = human = jinn**.

What factors make Satan the same as humans and the same as the jinn?

The answer is

Because oxygen atoms exist in the body of the devil, in the human body and in the body of the jinn.

Why the oxygen atom?

The answer is

Because "... *the devils of humans...* (*Al An'aam: 6:112*) "... *We created the jinn before (Adam) from a very hot fire*". (*Al Hijr: 15:27*)

"...*a very hot fire...*" (*Al Hijr: 15:27*) in which hidden elements of oxygen atoms are very easily oxidized by combustible materials and with friction.

So in the body of Satan, humans and jinn there contain oxygen atoms

Now because humans contain Deoxyribonucleic acid (DNA) which consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So in the body of the devil and the jinn also contain 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

### **SATAN, HUMANS AND JINN WHISPER TO EACH OTHER**

Now it is revealed that in fact it is not only shaitan and jinn that whisper into the human mind, but also humans whisper into the mind of shaitan and jinn.

"...*some of them whisper to others...* (*Al An'aam: 6:112*) "...*the devil who used to hide, (An-Naas: 114:4)*  
"...*whispers into the chests of people (An-Naas: 114:5)*

### **CONCLUSION**

Based on the description above, we can conclude that

the secret that lies behind the verse: "... *We made enemies for every prophet, namely the devils of humans and jinn, some of them whispering to others beautiful words- beautiful to deceive...* (*Al An'aam: 6:112*)

It turned out that the secret behind the verse was revealed, namely **shaitan = human = jinn**.

What factors make Satan the same as humans and the same as the jinn?

The answer is

Because oxygen atoms exist in the body of the devil, in the human body and in the body of the jinn.

Why the oxygen atom?

The answer is

Because "... *the devils of humans...* (*Al An'aam*: 6:112) "... *We created the jinn before (Adam) from a very hot fire*". (*Al Hijr*: 15:27)

"...*a very hot fire...*" (*Al Hijr*: 15:27) in which hidden elements of oxygen atoms are very easily oxidized by combustible materials and with friction.

So in the body of Satan, humans and jinn there contain oxygen atoms

Now because humans contain Deoxyribonucleic acid (DNA) which consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So in the body of the devil and the jinn also contain 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

Now it is revealed that in fact it is not only shaitan and jinn that whisper into the human mind, but also humans whisper into the mind of shaitan and jinn.

"...*some of them whisper to others...* (*Al An'aam*: 6:112) "...*the devil who used to hide*, (*An-Naas*: 114:4)  
"...*whispers into the chests of people* (*An-Naas*: 114:5)
