ABSTRACT

Previously, I asked forgiveness from Allah SWT. Here I am trying to open the veil that covers the secret of angels talking to dead humans from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses in the Qur'an that write about the problem of angels talking to dead humans, namely:

"Indeed, those whose souls are taken away by angels in a state of persecuting themselves, (to them) the angels asked: "In what state are you in?" They replied: "We are the oppressed in the land (Mecca)." The angels said: "Isn't Allah's earth wide, so that you can emigrate to it?." Those people are the place of Hell, and Hell is the worst place to return, (An Nisaa ': 4: 97)

Where in an effort to open the veil that covers the secret of angels talking to dead humans, the author uses a tool called deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that angels talk like humans talk to other humans on the basis of Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ANGELS TAKE HUMANS ARE THE SAME AS HUMANS WHOSE HEART HAS STOPPED

Let's uncover the secret behind the verse: *"... those whose souls are taken away by angels are in a state of persecuting themselves,...* (An Nisaa ': 4: 97)

It was revealed now, where when angels take human life are the same as humans whose heart stops, cannot pump blood throughout the body and to the lungs.

Here it is described that angels are atoms that meet with atoms that come out of a dead human body.

ANGEL IS A MAN

If we dig deeper, it will be revealed that the angel is a male human, *"... if We made the apostle an angel, We would certainly have made him a male... (Al An'aam: 6 :9)*

Here it is clearly illustrated that the angel is a man like us human men. Where this male angel talks to other humans *"The messengers (angels) said: "O Luth, indeed we are the messengers of your Lord..." (Hud: 11:81)*

The more clearly seen and read by us that angels are men who talk to the prophet Luth using a language that is understood by the prophet Luth and by the angels.

ANGELS TALK TO DEAD HUMANS THROUGH ATOMICS

Now we examine to the bottom of the secret behind the verse: *"...the angels asked: "In what state are you in?" They replied: "We are the oppressed people in the land (Mecca)..." (An Nisaa ': 4:97)*

Here it is clearly illustrated that the dialogue between angels and dead humans is through dialogue between atoms.

Why?

Because humans are made up of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms. Likewise, angels are composed of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

From the dead human body, oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms emerge. When angels talk to dead humans it is through atomic contact.

So now the secret behind the verse is revealed: *"...those whose souls are taken away by angels in a state of persecuting themselves, (to them) the angel asked: "In what state are you in?" They replied: "We are the oppressed. in the land (Mecca)." The angels said: "Isn't Allah's earth wide, so that you can emigrate on that earth?... (An Nisaa': 4:97)* is a symbol that describes the state and situation of the dialogue between angels and humans who have died so that it can be understood and understood by those of us who read it.

CONCLUSION

Based on the description above we can conclude that the secret behind the verse: *"... those whose souls are taken away by angels are in a state of persecuting themselves,..." (An Nisaa ': 4: 97)*

Now it is revealed, where when angels take human life are the same as humans whose heart stops, cannot pump blood throughout the body and to the lungs.

Here it is described that angels are atoms that meet with atoms that come out of a dead human body. If we dig deeper, it is revealed that the angel is a male human, *"... if We made the apostle an angel, We would certainly have made him a male... 9)*

Here it is clearly illustrated that the angel is a man like us human men. Where this male angel talks to humans *"The messengers (angels) said: "O Luth, indeed we are the messengers of your Lord..." (Hud: 11:81)*

Here we can see and read that angels are men who talk to the prophet Luth using a language that is understood by the prophet Luth and by the angels.

Now we examine to the bottom of the secret behind the verse: *"...the angels asked: "In what state are you in?" They replied: "We are the oppressed people in the land (Mecca)..." (An Nisaa ': 4:97)*

Here it is clearly illustrated that the dialogue between angels and dead humans is through dialogue between atoms.
