**ABSTRACT**

Before I write about Allah's secret problem about the fact that Allah's spirit came out of the body of Isa, son of Maryam, the same thing as Allah's spirit came out of the bodies of humans on earth today, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that serve as tools for revealing Allah's secrets about the fact that Allah's spirit came out of the body of Isa, son of Maryam, the same way that Allah's spirit came out of the bodies of humans on earth today, namely the following verses:

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*"...Indeed the Messiah, Jesus the son of Mary, is the Messenger of Allah and His words which He conveyed to Mary, and a spirit from Him. So believe in Allah and His messengers...(An Nisaa ': 4: 171)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*(Remember), when Allah said: "O Isa, indeed I will take your life and raise you to Me and cleanse you from those who disbelieve, and make those who follow you above those who disbelieve until the Day of Resurrection. Then to Me is your return, then I will judge between you about things that you always disagree with." (Ali 'Imran: 3:55)*

*"But Allah has raised Isa to Him. And Allah is Mighty, Most Wise. (An Nisa': 4: 158)*

*"(Remember), when the Angels said: "O Maryam, indeed Allah delights you with words from Him, his name is Al Masih Isa, son of Maryam, a prominent person in this world and in the Hereafter and among those who are brought near, (Ali 'Imran: 3:45)*

*"Indeed, for example, Isa in the sight of Allah, is like Adam. Allah created Adam from clay, then Allah said to him: "Be", so he was. (Ali 'Imran: 3:59)*

*And Maryam, the daughter of Imran, who kept her honor, so We breathed into her womb some of Our souls, and she confirmed the words of her Lord and His Books, and she was one of the obedient. (At Tahrim: 66:12)*

*"And it is He who has supreme authority over all His servants, and has sent guardian angels to you, so that when death comes to one of you, Our angels take his life, and Our angels do not neglect their obligations. (Al An'aam: 6:61)*

In an effort to open the veil of Allah's secret about the fact that Allah's spirit came out of the body of Isa, the son of Mary, the same way that Allah's spirit came out of the bodies of humans on earth today, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose the hypothesis that the spirit of Allah that is breathed into all humans is no different from that which was breathed into Adam from a basic point of view of Deoxyribonucleic acid (DNA).

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **ADAM, ISA SON OF MARYAM AND ALL HUMANS ON THIS EARTH WAS CREATED BY THE SPIRIT OF ALLAH**

Well, now we continue to try to focus our minds to reveal the secrets that are stored in the verse: *"Indeed, for example, Isa in the sight of Allah, is like Adam. Allah created Adam from clay, then Allah said to him: "Be", so he was. (Ali 'Imran: 3:59)*

It is now revealed that Isa son of Maryam was born because *"... We breathed into her womb some of our spirits... (At Tahrir: 66:12)*

Likewise, when Adam was created *"...when I have perfected the scene and I breathed into him My spirit;...(Shaad: 38:72)*

## **ALLAH'S SPIRIT**

Now, what exactly is *"...Our spirit,..(At Tahrir: 66:12)* or *"...My spirit;...(Shaad: 38:72)?*

The answer is

deoxyribonucleic acid (DNA) in which there is a *"spirit from Him...(An Nisaa': 4: 171)* consisting of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

Where deoxyribonucleic acid (DNA) is the nucleus in sperm from the father and in eggs from the mother.

When there is a meeting between the sperm from the father's side and the egg from the mother *"...in the womb...(At Tahrir: 66:12)* this is and *"...when I have perfected the event and I have breathed into it My spirit;...( Shaad: 38: 72),* then be a human in the mother's womb.

Now it is getting clearer, and it is revealed that *"...Our spirit,..(At Tahrir: 66:12)* or *"...My spirit;...(Shaad: 38:72)* is deoxyribonucleic acid (DNA) which becomes the nucleus in the sperm from the father's side and in the egg from the mother's side. Where when the sperm from the father's side and

the egg from the mother's side meet "...in the womb...(At Tahrir: 66:12) and "...when I have perfected the event and I breathed into it My spirit;...(Shaad : 38: 72), then be a human in the womb of the mother.

## **ADAM, ALL HUMANS ON EARTH AND ISA THE SON OF MARYAM IS DIE**

Well, then we uncover the secret hidden behind the verse: "... when Allah said: "O Isa, indeed I will take your life and raise you to Me...(Ali 'Imran: 3:55)

Well, it turns out that not only Isa, the son of Marya, take his life, but also Adam and all humans living on our earth today.

Why were Adam, Isa son of Marya and all humans living on this earth died?

The answer is

Hidden behind the verse: "... when death comes to one of you, he is killed by Our angels, and Our angels do not neglect their duty. (Al An'aam: 6:61)

Well, it turns out that from the start of Adam and all his descendants, will "... take their life by Our angels, ... (Al An'aam: 6: 61)

Likewise with Jesus son of Mary "(Remember), when Allah said: "O Isa, verily I will take your life and raise you to Me...(Ali 'Imran: 3:55)

## **ALLAH'S SPIRIT IS BLOWED BY ALLAH AND BACK TO ALLAH**

Now it was revealed when "...I breathed into him my spirit;...(Shaad: 38:72), then lived Adam, Isa son of Mary and all humans living on this earth. Then when "... I will take your life... (Ali 'Imran: 3:55), then Adam, Isa son of Maryam and all humans living on this earth died.

Now, after Adam, Isa son of Mary and all humans living on this earth "...deathed by Our angels,...(Al An'aam: 6:61) , then "...My spirit;. ..(Shaad : 38: 72) return to Allah.

Or in other words "...I will take your life and raise you to Me...(Ali 'Imran: 3:55)

It means, "...My spirit;...(Shaad: 38:72) is blown by Allah and returns to Allah by "...raising you to Me...(Ali 'Imran: 3:55)

## **CONCLUSION**

Based on the description above, we can conclude that the secrets that are stored in the verse: "Indeed, for example, Isa in the sight of Allah, is like Adam. Allah created Adam from clay, then Allah said to him: "Be", so he was. (Ali 'Imran: 3:59)

It is now revealed that Isa son of Maryam was born because "... We breathed into her womb some of our spirits... (At Tahrir: 66:12)

Likewise, when Adam was created "...when I have perfected the scene and I breathed into him My spirit;...(Shaad: 38:72)

Now it is getting clearer, and it is revealed that *“...Our spirit,..(At Tahrim: 66:12)* or *“...My spirit;...(Shaad: 38:72)* is deoxyribonucleic acid (DNA) which becomes the nucleus in the sperm from the father's side and in the egg from the mother's side.
