## ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I am trying to reveal the signs of Allah SWT's greatness regarding whether Allah's creation is true, so be, then be, through a process based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

In the Qur'an, several verses are found that are the key to unlocking the secret of whether God's creation was true, so be, then be, through a process, namely the following verses:

*"Allah is the light of the heavens and the earth.*

*"Allah is the Creator of the heavens and the earth, and if He wills (to create) something, then (suffice it) He simply says to it: "Be!" Then it is. (Al Baqarah: 2:117)*

*"The angels and Gabriel ascended (to face) God in a day whose level is fifty thousand years. (Al Ma'aarij: 70: 4)*

*"Indeed, We say to something when We will, We only say to it: "kun (be)", so it is. (An Nahl: 16: 40)*

*Maryam said: "My Lord, how can I have children, when I have never been touched by a man." Allah says: "Thus Allah creates what He wills. If Allah wills to determine something, then Allah only suffices to say to him: "Be", then he becomes. (Ali 'Imran: 3:47)*

In an effort to open the veil about whether Allah's creation is true, be, then be, through a process the author based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## HYPOTHESIS

Here the author proposes a hypothesis because there is a difference in the calculation of time between humans and Allah, then Allah's creation, be, then be, is through a process seen from the point of view of photons, quarks and Deoxyribonucleic acid (DNA).

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## 1 SECOND OF ALLAH = 211, 37 HUMAN DAYS

Now, we are back together to reveal the secret hidden behind the verse: "...if We willed, We only said to him: "kun (be)", then so be it. (An Nahl: 16: 40)

Well, it was revealed that because of the difference in the calculation of time between Allah's reckoning and human reckoning, then if Allah says "kun (be)", then it is. (An Nahl: 16: 40) in 1 second, then in reality according to human time calculations is equal to 211, 37 days.

So 1 second God = 211, 37 human days.

Why is God's time reckoning different from human reckoning?

The answer is

Hidden behind the verse: "The angels and Gabriel ascend (facing) to God in a day whose level is fifty thousand years. (Al Ma'aarij: 70: 4)

Well apparently, 1 day according to Allah's reckoning is equal to 50 000 years according to human reckoning.

Or the same as 1 second God = 18 262 500 human seconds = 211, 37 human days.

## BE, THEN BE, NEED A PROCESS USING THE SPEED OF LIGHT

Then we explore the secret behind the verse: "Allah is the light of the heavens and the earth.

Because *"Allah is the light of the heavens and the earth ... (An Nuur: 24: 35)*, then as described in the verse: *"The angels and Gabriel ascend (facing) to Allah in a day whose level is fifty thousand years. (Al Ma'aarij: 70:4)*

Where when the angels and Gabriel ascended to meet Allah at the speed of light. With the image of one light day according to Allah's calculation is equal to 50 000 light years according to human calculations.

According to human calculations one second the speed of light is 299 792 km.

The distance between the earth and the place where Allah is located is 50 000 light years.

One light year is 9 460 730 472 580 800 meters.

## KUN FAYAKUUN = A LONG PROCESS

Now, the secret hidden behind the verse has been revealed: *"Allah is the Creator of the heavens and the earth, and if He wills (to create) something, then (suffice it) He only says to him: "Be!" Then he was. (Al Baqarah: 2: 2: 117)*

It turned out to be in fact *"Be!" Then so be it. (Al Baqarah: 2: 117)* according to human calculations requires a long process.

## KUN FAYAKUUN 1 SECOND = 7 MONTHS PREGNANT MARYAM PROCESS

Finally, the secret behind the verse was also revealed: *"Maryam said: "My Lord, how can I have children, even though I have never been touched by a man." Allah says: "Thus Allah creates what He wills. If Allah wills to determine something, then Allah only suffices to say to him: "Be", then he becomes. (Ali 'Imran: 3:47)*

So kun fayakun according to Allah in 1 second is equal to 211, 37 days according to human calculations.

Or in other words, kun fayakuun 1 second according to Allah is the same as Maryam already pregnant for approximately 7 months.

## CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: "...if We willed, We only said to him: "kun (be)", then so be it. (An Nahl: 16: 40)

Well, it was revealed that because of the difference in the calculation of time between Allah's reckoning and human reckoning, then if Allah says "kun (be)", then it is. (An Nahl: 16: 40) in 1 second, then in reality according to human time calculations is equal to 211, 37 days.

So 1 second God = 211, 37 human days.

Why is God's time reckoning different from human reckoning?

The answer is

Hidden behind the verse: *"The angels and Gabriel ascend (facing) to God in a day whose level is fifty thousand years. (Al Ma'aarij: 70: 4)*

Well apparently, 1 day according to Allah's reckoning is equal to 50 000 years according to human reckoning.

Or the same as 1 second God = 18 262 500 human seconds = 211, 37 human days.

Then we explore the secret behind the verse: *"Allah is the light of the heavens and the earth.*

Because *"Allah is the light of the heavens and the earth ... (An Nuur: 24: 35), then as described in the verse: "The angels and Gabriel ascend (facing) to Allah in a day whose level is fifty thousand years. (Al Ma'aarij: 70:4)*

Where when the angels and Gabriel ascended to meet Allah at the speed of light. With the image of one light day according to Allah's calculation is equal to 50 000 light years according to human

calculations.

According to human calculations one second the speed of light is 299 792 km.

The distance between the earth and the place where Allah is located is 50 000 light years.

One light year is 9 460 730 472 580 800 meters.

Now, the secret hidden behind the verse has been revealed: *"Allah is the Creator of the heavens and the earth, and if He wills (to create) something, then (suffice it) He only says to him: "Be!" Then he was. (Al Baqarah: 2: 2: 117)*

It turned out to be in fact *"Be!" Then so be it. (Al Baqarah: 2: 117)* according to human calculations requires a long process.

Finally, the secret behind the verse was also revealed: *"Maryam said: "My Lord, how can I have children, even though I have never been touched by a man." Allah says: "Thus Allah creates what He wills. If Allah wills to determine something, then Allah only suffices to say to him: "Be", then he becomes. (Ali 'Imran: 3:47)*

So kun fayakun according to Allah in 1 second is equal to 211, 37 days according to human calculations.

Or in other words, kun fayakuun 1 second according to Allah is the same as Maryam already pregnant for approximately 7 months.
