REVEALING ALLAH'S SECRETS WHY ALLAH TOLD HUMANS TO USE THE MIND

ABSTRACT

Previously the author asked forgiveness from Allah SWT in connection here I tried to open the signs of the greatness of Allah SWT about why Allah told humans to use the mind based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses from the entire contents of the Qur'an that can be used as a basis for unlocking the secret of why Allah told humans to use the mind, namely the following verses:

"O People of the Book, why do you deny about Abraham, when the Torah and the Gospel were not revealed except after Abraham. Do you not think? (Ali 'Imran: 3:65)

"Why do you tell other people to worship, while you forget yourself, even though you read the Book? Then you don't think? (Al Baqarah: 2:44)

"And among them there are those who listen to you. Can you make deaf people hear even though they don't understand? (Jonah: 10:42)

In an effort to reveal the secret of why Allah told humans to use this mind I used a tool called deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes the hypothesis of the Jews through Ibrahim from Ur, Iraq using YDNA J1 and J2 from the point of view of Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

IF WE USE THE MIND, PROPHET IBRAHIM OF UR, IRAQ IS THE ANCESTORS OF THE JEWS THROUGH THE Y-DNA HAPLOGROUP

Well, we are now back to reveal the secret hidden behind the verse:

"O People of the Book, why do you deny about Abraham, when the Torah and the Gospel were not

revealed except after Abraham. Do you not think? (Ali 'Imran: 3:65)

Now it is revealed that when Allah commanded man to use the mind “...*do you not think? (Ali 'Imran: 3:65)*”, it turns out that it is true that Prophet Ibrahim when viewed from the Y-DNA haplogroup is a descendant of the J haplogroup which gave birth to J1 and J2, which are the ancestors of the Jews (Familytreedna)

Haplogroup means a group of similar haplotypes that share a common ancestor with a single base polymorphic mutation.

The Y-DNA haplogroup is the haplogroup of the male Y chromosome

Where haplogroup J was formed 25000 years ago, in the border area between Saudi Arabia, Jordan and Egypt. (Familytreedna) So Prophet Ibrahim is descended from haplogroup J.

So if you look at the Torah which was revealed to the Prophet Moses and the Bible which was revealed to the Prophet Isa, indeed Prophet Ibrahim is not included in the person who has to spread what is in the Torah and the Bible, because Prophet Ibrahim was born around 1500 BC.

However, from the point of view of Deoxyribonucleic acid (DNA), Y-DNA, then Prophet Musa and Prophet Isa are descendants of Prophet Ibrahim.

Now this is where Allah asks us “...*Don't you think? (Ali 'Imran: 3:65)*”

So, when viewed in terms of the book, the Torah and the Bible, Prophet Ibrahim was not among those who received revelation to teach the Torah and the Bible.

But when viewed from the point of view of Y-DNA, then Prophet Moses and Prophet Isa are descendants of Prophet Ibrahim. So Prophet Ibrahim is the ancestor of Prophet Moses and Prophet Isa, namely the Jews.

So Prophet Ibrahim was among them, namely the Jews.

READING THE QURAN MUST USE THE MIND

Well, then we will unravel the secret behind the verse: “*Why do you ask other people to worship, while you forget yourself, even though you are reading the Bible? Then you don't think? (Al Baqarah: 2:44)*”

It turns out, if we only read the book or only read the Koran on its surface without using the mind, it will happen “...*you tell other people to worship, while you forget yourself,...(Al Baqarah: 2:44)*”

WHY USE THE MIND WILL GET TO ALLAH

Then we uncover the secret contained in the verse: “*And among them there are those who listen to you. Can you make deaf people hear even though they don't understand? (Jonah: 10:42)*”

Now, it has been revealed that in order to understand and reach Allah, we must “...*understand. (Jonah: 10:42)*”

That means, we have to use our minds.”...*don't you think? (Al Baqarah: 2:44)*”

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse:

"O People of the Book, why do you deny about Abraham, when the Torah and the Gospel were not revealed except after Abraham. Do you not think? (Ali 'Imran: 3:65)

Now it is revealed that when Allah commanded man to use the mind "***...do you not think? (Ali 'Imran: 3:65)*** , it turns out that it is true that Prophet Ibrahim when viewed from the Y-DNA haplogroup is a descendant of the J haplogroup which gave birth to J1 and J2, which are the ancestors of the Jews (Familytreedna)

Haplogroup means a group of similar haplotypes that share a common ancestor with a single base polymorphic mutation.

The Y-DNA haplogroup is the haplogroup of the male Y chromosome

Where haplogroup J was formed 25000 years ago, in the border area between Saudi Arabia, Jordan and Egypt. (Familytreedna) So Prophet Ibrahim is descended from haplogroup J.

So if you look at the Torah which was revealed to the Prophet Moses and the Bible which was revealed to the Prophet Isa, indeed Prophet Ibrahim is not included in the person who has to spread what is in the Torah and the Bible, because Prophet Ibrahim was born around 1500 BC.

However, from the point of view of Deoxyribonucleic acid (DNA), Y-DNA, then Prophet Musa and Prophet Isa are descendants of Prophet Ibrahim.

Now this is where Allah asks us "***...Don't you think? (Ali 'Imran: 3:65)***

So, when viewed in terms of the book, the Torah and the Bible, Prophet Ibrahim was not among those who received revelation to teach the Torah and the Bible.

But when viewed from the point of view of Y-DNA, then Prophet Moses and Prophet Isa are descendants of Prophet Ibrahim. So Prophet Ibrahim is the ancestor of Prophet Moses and Prophet Isa, namely the Jews.

So Prophet Ibrahim was among them, namely the Jews.

Well, then we will unravel the secret behind the verse: "***Why do you ask other people to worship, while you forget yourself, even though you are reading the Bible? Then you don't think? (Al Baqarah: 2:44)***

It turns out, if we only read the book or only read the Koran on its surface without using the mind, it will happen "***...you tell other people to worship, while you forget yourself,...(Al Baqarah: 2:44)***

Then we uncover the secret contained in the verse: "***And among them there are those who listen to you. Can you make deaf people hear even though they don't understand? (Jonah: 10:42)***

Now, it has been revealed that in order to understand and reach Allah, we must "***...understand. (Jonah: 10:42)***
