ABSTRACT

First of all, by asking forgiveness from Allah SWT here I am trying to reveal the signs of Allah SWT about Allah's secret about meeting Allah through one's own body and through the heavens and the earth based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

In the Qur'an found several verses that are the key to unlocking the secret of Allah's secret to meeting Allah through one's own body and through the heavens and the earth, namely the following verses:

"Allah is the light of the skies and the earth.

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me. Me, that they may always be in the truth (Al Baqarah: 2: 186)

" those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell." Ali 'Imran : 3:191)

"And why don't they think about themselves? Allah did not make the heavens and the earth and what is between them except with the truth and at an appointed time. And indeed, most of the people really deny meeting their Lord. (Ar Ruum: 30:8)

"To Allah belongs the kingdom of the heavens and the earth, and Allah is Mighty over all things. (Ali 'Imran: 3:189)

"Indeed, in the creation of the heavens and the earth, and the alternation of the night and the day, there are signs for people of understanding (Ali 'Imran: 3: 190)

"...Then didn't you think? (Ash Shaaffaat: 37:138)

"The angels and Gabriel ascended (to face) God in a day whose level is fifty thousand years. (Al Ma'aarij: 70: 4)

"... We are closer to him than his jugular vein, (Qaf: 50:16)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it

"He who listens to the words then follows what is best of them. They are the ones whom Allah has guided and they are the people who have reason. (Az Zumar: 39:18)

In an effort to open the veil about the secret of Allah to meet Allah through one's own body and through the heavens and the earth the author bases on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis to meet Allah, through thinking about themselves and while standing or sitting or lying down and they think about the creation of the heavens and the earth from the point of view of photons, quarks and Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

MEET ALLAH THROUGH YOUR OWN BODY

Now, we are still focusing our minds on uncovering the secrets stored in the verse: *"...why don't they think about themselves?...(Ar Ruum: 30: 8)*

It turns out, it is revealed now, that Allah told humans to *"...think about themselves?...(Ar Ruum: 30: 8)*

Why are humans told to *"...think about themselves?...(Ar Ruum : 30: 8)?*

The answer is

It is hidden in a secret that lies behind the verse: *"... My spirit has breathed into it, so submit to it prostrating yourself (Al Hijr: 15: 29)*

It turns out, when Allah *"...has breathed into it my spirit...(Al Hijr: 15: 29)* , then angels, jinn, devils and satans, must *"...submit to him in prostration (Al Hijr: 15 :29)*

That is, angels, jinn, devils and satans must submit to Allah who has *"...blowed into it my spirit" (Al Hijr: 15: 29)*

So, when Allah declares: *"...why don't they think about themselves?...(Ar Ruum: 30: 8)* it means, in humans there is already *"... My spirit...(Al Hijr: 15 :29)*

Or in other words, if humans want to understand and meet Allah, they must *"... think about themselves... (Ar Ruum: 30: 8)* humans themselves.

To reach the meeting with Allah must use mind *"...don't you think? (Ash Shaaffaat: 37:138)*

MEET ALLAH THROUGH THE SKY AND EARTH

Well, we continue to uncover the secrets that are hidden behind the verse: *"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, you did not create this in vain.. (Ali 'Imran : 3:191)*

Apparently, now it is revealed, where to meet Allah is by way of *"...remembering Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth... (Ali 'Imran: 3: 191)*

Now, humans to reach the level of meeting with God through the way *"...skys and earth...(Ali 'Imran: 3:191)* then humans must understand what the skys are and what the earth is.

So, humans must understand what the sky is and what the earth is, how the skys and the earth were created.

Well, here humans are required to have knowledge of the skys and the earth.

Humans without knowledge of the skys and the earth, will not understand about Allah and will not meet Allah.

Why?

Because they must *"...think about the creation of the skys and the earth...(Ali 'Imran: 3:191)*

It means *"...thinking...(Ali 'Imran: 3:191)* that, must be through knowledge, about the skys and the earth.

MEET ALLAH THROUGH ALLAH'S LIGHT

So, onward, we will uncover the secrets that are hidden behind the verse: *"Allah is the light of the skys and the earth....Light upon light...(An Nuur: 24: 35)*

Well, humans through *"...the light of the skys and the earth....(An Nuur: 24:35)* will reach Allah.

Why?

Because Allah's light illuminates *"...the light of the skys and the earth....(An Nuur: 24: 35)*

It means, *"...Light upon light...(An Nuur: 24:35)* will reach the earth, and reach our bodies.

Well, because *"...Light upon light...(An Nuur: 24: 35)* or *"Allah is the light of the skys and the earth.... (An Nuur: 24: 35)* that reaches the earth, and into the human body. through the rays of the sun's rays that are visible to the human eye, then Allah declares *"...I am near... (Al Baqarah: 2: 186)*

So, through *"Allah is the light of the skys and the earth....(An Nuur: 24: 35)* people will arrive and

meet Allah.

CONCLUSION

Based on the description above, we can conclude that the secrets stored in the verse: *"...why don't they think about themselves?...(Ar Ruum: 30: 8)*

It turns out, it is revealed now, that Allah told humans to *"...think about themselves?...(Ar Ruum: 30: 8)*
