## **ABSTRACT**

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT regarding the secret of the apocalypse that occurs after the sun dies or before the sun dies from the point of view of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

The signs of Allah's greatness regarding the Day of Judgment occur after the sun dies or before the sun dies, namely in the verse:

*"They ask you about the Hour: "When will it happen?" Say: "Indeed, the knowledge of the Hour is with my Lord; no one can explain the time of his coming except Him. Doomsday is very heavy (riot for creatures) in the heavens and on earth. The Hour will not come to you but suddenly." They ask you as if you really knew it. Say: "Indeed, the knowledge of the Day of Resurrection is with Allah, but most people do not know." (Al A' raf : 7:187)*

*"And they do not glorify Allah with proper exaltation when the whole earth is in His hands on the Day of Resurrection and the heavens are rolled up with His right hand. Glory be to God and exalted is He from what they associate. (Az Zumar: 39: 67)*

*"When the sun is rolled up, (At Takwiir: 81:1)*

In an effort to unmask the greatness of Allah SWT regarding the Day of Judgment occurring after the sun dies or before the sun dies, the author uses the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

## **HYPOTHESIS**

Here I propose the hypothesis that the apocalypse occurs after the sun dies as seen from the photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **ALTHOUGH WE DON'T KNOW WHEN THE DAY OF THE APOCALYPSE WILL BE BUT IF THE SUN DIES NOTHING ELSE CAN LIVE ON OUR EARTH**

Now we try to concentrate all thoughts on uncovering the secret behind the verse: *"...no one can explain the time of his coming except Him. Doomsday is very heavy (riot for creatures) in the heavens and on earth. The apocalypse will not come to you but suddenly .... (Al A'raaf: 7: 187)*

Well, it turns out that the apocalypse is *"... The apocalypse will not come to you but suddenly .... (Al A'raaf: 7: 187)*

The occurrence of the apocalypse is sudden.

## **THE DAY OF THE APOCALYPSE HAPPEN BUT THE SUN IS STILL ALIVE**

The question now is,

When will the apocalypse occur, before the sun dies?

Well, if the apocalypse happened suddenly and the sun was still alive, it means that all living organisms, from viruses, bacteria, amoeba, archaea, fungi, plants, animals, humans did not die.

## **THE APOCALYPSE HAPPENS WHEN THE SUN IS OFF**

Then, when will the apocalypse occur, after the sun dies?

Well, if the apocalypse happened suddenly because the sun had died, then it would mean that all living organisms, from viruses, bacteria, amoeba, archaea, fungi, plants, animals, humans all died.

## **WHEN THE SUN IS OFF**

The age of the sun until now is about 2.5 billion years. And it is estimated that the age of the sun until the sun dies is approximately 5 billion years.

So the remaining life of the sun is 2.5 billion years, or 2 500 000 000 years

## **AS LONG AS THE ATOM HAVE NOT DISAPPEARED, THE APOCALYPSE WILL HAPPEN**

Now, because if the atoms have disappeared from this universe, only photons and quarks are left, then there will be no more human souls to be judged.

Why?

The answer is

Because human spirits are in the form of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

If the atoms disappear, then no one will be judged, no one will be tormented in hell and no one will live in heaven.

When will these atoms disappear from this universe?

The answer is After 10 billion billion billion billion billion billion billion billion billion billion billion years from now.

Now, the secret behind the verse has been revealed: *"...They ask you as if you really know it. Say: "Indeed, the knowledge of the Day of Judgment is with Allah, but most people do not know." (Al A'raaf: 7: 187)*

So actually the apocalypse will occur before the atoms disappear and only photons and quarks remain, that is, when the sun is dead or *"When the sun is rolled up, (At Takwiir: 81: 1)*

That is approximately 2 500 000 000 years from now the apocalypse will occur.

### **THE SUN IS DEAD THERE IS NO PARADISE**

Well, the problem now is

If the sun dies, then there is no more layer of Allah's light to give life in paradise.

Without a layer of Allah's light through the sun's rays, paradise would not be possible.

There is only hell, because in hell only hydrogen atoms are burned.

### **PARADISE EXISTS BEFORE THE SUN DIES**

So, actually, people who have died and have been judged and judged by Allah enter Paradise, so they enter Paradise from now on before the sun dies.

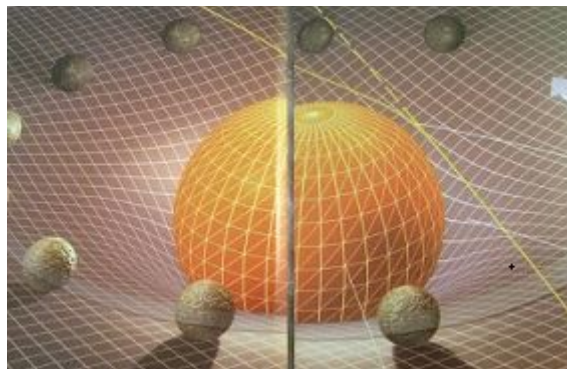

Figure 1: The earth is above the room where this room can be rolled, flattened, bent so this room can be changed.

Figure 2: The Milky Way galaxy is above the space, where this space can be rolled, flattened, bent, according to the state of the object above, in this case the Milky Way galaxy which is a collection of billions of billions of stars and planets.

## CONCLUSION

From what has been described above we can now conclude that the secret behind the verse: *"...no one can explain the time of his coming except Him. Doomsday is very heavy (riot for creatures) in the heavens and on earth. The apocalypse will not come to you but suddenly .... (Al A'raaf: 7: 187)*

Well, it turns out that the apocalypse is *"... The apocalypse will not come to you but suddenly .... (Al A'raaf: 7: 187)*

The occurrence of the apocalypse is sudden.

The question now is,

When will the apocalypse occur, before the sun dies?

Well, if the apocalypse happened suddenly and the sun was still alive, it means that all living organisms, from viruses, bacteria, amoeba, archaea, fungi, plants, animals, humans did not die.

Then, when will the apocalypse occur, after the sun dies?

Well, if the apocalypse happened suddenly because the sun had died, then it would mean that all living organisms, from viruses, bacteria, amoeba, archaea, fungi, plants, animals, humans all died.

The age of the sun until now is about 2.5 billion years. And it is estimated that the age of the sun until the sun dies is approximately 5 billion years.

So the remaining life of the sun is 2.5 billion years, or 2 500 000 000 years

Now, because if the atoms have disappeared from this universe, only photons and quarks are left, then there will be no more human souls to be judged.

Why?

The answer is

Because human spirits are in the form of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

If the atoms disappear, then no one will be judged, no one will be tormented in hell and no one will live in heaven.

When will these atoms disappear from this universe?

The answer is After 10 billion billion billion billion billion billion billion billion billion billion years from now.

Now, the secret behind the verse has been revealed: *"...They ask you as if you really know it. Say: "Indeed, the knowledge of the Day of Judgment is with Allah, but most people do not know." (Al A'raaf: 7: 187)*

So actually the apocalypse will occur before the atoms disappear and only photons and quarks remain, that is, when the sun is dead or *"When the sun is rolled up, (At Takwiir: 81: 1)*

That is approximately 2 500 000 000 years from now the apocalypse will occur.

Well, the problem now is

If the sun dies, then there is no more layer of Allah's light to give life in paradise.

Without a layer of Allah's light through the sun's rays, paradise would not be possible.

There is only hell, because in hell only hydrogen atoms are burned.

So, actually, people who have died and have been judged and judged by Allah enter Paradise, so they enter Paradise from now on before the sun dies.
