## **ABSTRACT**

First of all, by asking forgiveness from Allah SWT here I try to reveal the signs of the greatness of Allah SWT regarding on what basis, Allah has a throne on water, when Allah created the skys and the earth, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

In the Qur'an found several verses that are the key to unlocking the secret on what basis, Allah has a throne on water, when Allah created the skys and the earth, namely the verses:

*"The angels and Gabriel ascended to God in a day the measure of which is fifty thousand years. (Al Ma'aarij: 70: 4)*

*"And it is He Who created the heavens and the earth in six days, and His throne is over the water, so that He may test which of you is better in deed, and if you say: "Indeed, you will be resurrected after death." those who disbelieve will say: "This is nothing but real magic." (Huud: 11:7)*

*"Then He headed towards the creation of the heavens and the sky was still smoke, then He said to him and to the earth: "Come, both of you, at My commandment willingly or unwillingly." Both replied: "We came willingly." (Fushshilat :41:11)*

*"Who has created the seven heavens in layers. You never see in the creation of the Most Merciful God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"So He made it seven heavens in two days. He revealed in each sky its affairs. And We adorn the near sky with bright stars and We take care of it as well as possible. Such is the provision of the Mighty, All-Knowing. (Fushshilat :41:12)*

*"And among the signs of His power, He shows you lightning for fear and hope, and He sends down rain from the sky and gives life to the earth with it after its death. Verily in that are signs for a people who uses his mind (Ar Ruum: 30: 24)*

In an attempt to unmask on what basis, Allah has a throne on water, when Allah created the skys and the earth, I based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose the hypothesis that Allah has a throne on water, when Allah created the skys and the earth, because living organisms need oxygen atoms, oxygen atoms are in water, from the point of view of photons, quarks and Deoxyribonucleic acid (DNA)

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide

polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARK

If we want to know quarks, then we consider one of the hydrogen atoms which is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## WHEN ALLAH CREATED THE SKY AND THE EARTH, ALLAH'S THRONE WAS ABOVE THE WATER

Now, we are still focused on continuing to try to uncover the secret hidden in the verse: *"And it is He Who created the skys and the earth in six days, and is His throne on the water... (Huum: 11: 7)*

Apparently, Allah has prepared with water *"...His throne on the water... (Huum: 11: 7)*, before the creation of the heavens and the earth.

Why did Allah prepare water before the skys and the earth were created?

The answer is

The secret is kept in the verse: *"...He sends down rain from the sky, then gives life to the earth with water after its death... (Ar Ruum: 30: 24)*

Well, the presence of water, which consists of hydrogen atoms and oxygen atoms, will give life to all living organisms on earth.

Now the question arises,

Why is there only water on earth, not on other planets, when the other planets are also partly like earth?

The answer is

Because on these planets there are no oxygen atoms, only hydrogen atoms.

Well, because on the other planets there are no oxygen atoms, then water will not be formed, even though there are hydrogen atoms.

Why didn't Allah create oxygen atoms on a planet that only contains hydrogen atoms?

The answer is

Hidden in the secret behind the verse: *"...He made seven skys in two days. He revealed in each sky his affairs...(Fushshilat: 41:12)*

That is, Allah gives power to each sky to regulate its affairs. The division of hydrogen atoms, carbon atoms, oxygen atoms, nitrogen atoms, is left to each sky to regulate.

Well, on earth there are oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms.

Because the room or sky above which there is an expanse of earth, and oxygen atoms are on earth, then water can be created, after the union of two hydrogen atoms with 1 oxygen atom.

### **ALLAH'S LAW OR NATURAL LAW APPLY IN THE SKY AND EARTH**

Now, then, we will reveal the secret behind the verse: *"...You never see in the creation of the Most Gracious God something that is not balanced...(Al Mulk: 67: 3)*

That is, Allah's law or natural law, applies in the heavens and the earth. All living organisms that live in the heavens and on the earth, follow the laws of Allah or the laws of nature.

Or in other words, all living organisms that follow Allah's laws or natural laws, make Allah's creation balanced.

Now, the secret hidden behind the verse has been revealed: *"And it is He Who created the skys and the earth in six days, and is His throne on the water... (Hud: 11: 7)*

Namely, water containing oxygen atoms and hydrogen atoms gives life to living organisms on earth.

### **CONCLUSION**

Based on the description above, we can conclude that the secret hidden in the verse: *"And it is He Who created the skys and the earth in six days, and is His throne on the water... (Hud: 11: 7)*

Apparently, Allah has prepared with water *"...His throne on the water... (Hud: 11: 7)*, before the creation of the heavens and the earth.
