ABSTRACT

Before I write down the problem of paradise being opened before the sun dies, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the real secret that paradise has been opened before the sun dies from the point of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about paradise that was opened before the sun died, namely the following verses:

And We said: "O Adam, dwell in this paradise for you and your wives, and eat from its abundant good food wherever you like, and do not approach this tree, which causes you to be among the wrongdoers. (Al Baqarah: 2:35)

"The paradise of 'Adn which they enter into, rivers flow under it, in that paradise they will find everything they want. Thus Allah will reward those who are pious, (An Nahl: 16: 31)

"In Paradise there will be a lot of fruit for you, some of which you eat. (Az Zukhruf: 43:73)

"Enter you into heaven, you and your wives will be rejoiced." (Az Zukhruf: 43:70)

"Those who were earlier, were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has prepared for them paradises in which rivers flow. forever. They stay in it. That's a big win. (At Taubah: 9: 100)

"When the sun is rolled up, (At Takwiir: 81: 1)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

In an effort to open the veil of Allah's secret about paradise, which has been opened before the sun goes down, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that paradise has been opened since Adam before the sun died seen from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thyminine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen

atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

THE SPIRIT OF ALLAH THAT COMES FROM THE BODY OF THE DEATH IN THE GRAVES AFTER ALLAH IS ACCEPTED TO THE PERSON DIRECTLY ENTERED INTO PARADISE

Now, let's focus our minds again on uncovering the secret behind the verse: *"And We said: "O Adam, dwell in this paradise with you and your wife, and eat a lot of good food wherever you like, .. (Al Baqarah : 2:35)*

It turns out that now it has been revealed that the paradise that will be entered by those who believe in Allah and do good deeds is the paradise that was once inhabited by Adam and his wife.

Now the question is

Why was paradise created before humans, angels, jinn, devils and satans were created?

The answer is

Hidden behind the verse: *"Paradise 'Adn... rivers flow beneath it,...(An Nahl: 16: 31)* and the verse: *"In Paradise there is a lot of fruit...(Az Zukhruf: 43:73)*

Now, it turns out that now it is revealed that rivers with water containing oxygen atoms and hydrogen atoms and fruits need Allah's light with photons that illuminate life in paradise. Where the light of Allah that contains photons is sunlight.

So paradise was created by Allah at the same time as the creation of the earth. Because the earth was created after the sun was created.

AS LONG AS THE SUN DOESN'T DIE, THEN PARADISE STILL EXIST

Now, because paradise and all the life in it depends on Allah's light with its photons through the sun's rays, then people who have died and Allah has been pleased with them, are immediately admitted to paradise.

Those who have believed in Allah since 1400 years ago who are called *"Those who were earlier, first of all from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has provided for them paradises in which rivers flow forever... (At Taubah: 9: 100)*

Indeed paradise already exists, they just need to be put into paradise, because *"... Allah is pleased with them... (At Taubah: 9: 100)*

NOW THE SPIRIT OF ALLAH COMING OUT FROM THE BODY OF THE DEAD THAT ALLAH HAS BEEN ENJOYED IN HIM IS ENTERED INTO PARADISE

Now, the secret hidden behind the verse is revealed: *"Enter you into heaven, you and your wives will be rejoiced." (Az Zukhruf: 43: 70)*

Because indeed paradise has existed since the earth was created and has been inhabited by Adam and his wife *"And We said: "O Adam, dwell in this paradise you and your wife... (Al Baqarah: 2:35)*

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"And We said: "O Adam, dwell in this paradise with you and your wife, and eat a lot of good food wherever you like, .. (Al Baqarah : 2:35)*

It turns out that now it has been revealed that the paradise that will be entered by those who believe in Allah and do good deeds is the paradise that was once inhabited by Adam and his wife.
