ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah's greatness regarding the secret of Allah to meet Allah not by turning the head left, right, up, down and around the body based on photons, quarks and the molecular structure of nucleic acids. or deoxyribonucleic acid (DNA)

In the Qur'an found several verses that are the key to unlocking the secret of Allah's secret to meet Allah not by turning the head left, right, up, down and around the body, namely the following verses:

"Allah is the light of the skies and the earth.

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me. Me, that they may always be in the truth (Al Baqarah: 2: 186)

" those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell." Ali 'Imran : 3:191)

"The angels and Gabriel ascended (to face) God in a day whose level is fifty thousand years. (Al Ma'aarij: 70: 4)

"... We are closer to him than his jugular vein, (Qaf: 50:16)

"...Indeed, the Messiah, Jesus, the son of Mary, is the messenger of Allah and His words which He conveyed to Mary, and a spirit from Him... (An Nisaa ': 4:171)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourselves (Al Hijr: 15: 29)

"... Moses said: "O my Lord, show me (yourself) so that I can see you." The Lord said: "You can never see me, but look at that hill, so if he stays on where it was (as before) surely you will see Me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious..." (Al A'raaf: 7: 143)

"He who listens to the words then follows what is best of them. They are the ones whom Allah has guided and they are the people who have reason. (Az Zumar: 39:18)

In an effort to open the veil about the secret of Allah to meet Allah not by turning my head left, right, up, down and around my body, I based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis to meet Allah, standing or sitting or lying down and they think about the creation of the heavens and the earth from the point of view of photons, quarks and

Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

HUMANS WHO USE MIND, WILL ARRIVE AND MEET ALLAH

Now, we continue to try to focus our minds in order to unlock the secret that is hidden behind the verse: *“Those who listen to the words then follow what is best among them. They are the ones whom Allah has guided and they are the people who have reason. (Az Zumar: 39:18)*

Apparently, whatever humans learn, humans only take and follow lessons in which there are instructions that come from Allah.

So, humans are freed by Allah to learn anything, because humans *“...have mind. (Az Zumar: 39: 18)* , the decision is in the hands of humans.

It is only for man who has found the guidance of Allah, who will follow the best lesson among the lessons he has learned.

That is, humans who *“...have mind. (Az Zumar: 39: 18)* and used his mind to learn lessons that contain God's instructions.

HUMANS WHO SEEK AND WANT TO MEET ALLAH, WITHOUT USING MIND, WILL LOSE THE WAY TO ALLAH

Now, we continue to uncover the secrets that are hidden behind the verse: *“And when My servants ask you about Me, then, that I am near... (Al Baqarah: 2: 186)*

Well it turns out, Allah does not need to be sought, because indeed Allah is near "*...that I am near... (Al Baqarah: 2: 186)*

Why is Allah near?

The answer is

Hidden in the secret behind the verse: "*... I... have blown into it my spirit... (Al Hijr: 15: 29)*

Well, because "*...my spirit... (Al Hijr: 15: 29)* is in the human body, then "*...I am near... (Al Baqarah: 2: 186)* and "*...We closer to him than his jugular vein, (Qaf: 50:16)*

To arrive and meet Allah through "*... my spirit... (Al Hijr: 15: 29)* which is in the human body, one must "*... have mind (Az Zumar: 39:18)*

That is, the human mind is still functioning well, does not experience disturbances in the head, which causes the function of the nerves in the brain to no longer function.

TWIT THE HEAD LEFT, RIGHT, UP, DOWN AND SURROUNDING THE BODY

Now, humans who want to meet Allah must "*...have mind (Az Zumar: 39: 18)*, but when the human wants to meet Allah, while his head is turned left, right, up, down while rotating his body, the human brain will be disturbed by the function of the nerves of the brain, which is caused by the rotation of the head and body.

So that the human is not in a state of consciousness, calm and full of concentration to meet Allah, but his head becomes dizzy and his concentration is disturbed, and finally loses consciousness.

Because human consciousness is lost, then what should be "*...mind. (Az Zumar: 39: 18)* it works its way well, becomes, like a human being living in a dream.

Now, it has been revealed now, that in order to meet Allah, humans must "*...have mind. (Az Zumar: 39:18)* and "*...mind (Az Zumar:39:18)* it must function well, and be conscious.

CONCLUSION

Based on the description above, we can conclude that the secret that is hidden behind the verse: "*Those who listen to the words then follow what is best among them. They are the ones whom Allah has guided and they are the people who have reason. (Az Zumar: 39:18)*

Apparently, whatever humans learn, humans only take and follow lessons in which there are instructions that come from Allah.
