## ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT's greatness regarding Allah's secret regarding, for what reason, the laws of nature, being a way of worshiping Allah, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid. (DNA)

In the Qur'an, several verses are found that are the key to unlocking the secret regarding, for what reason, the laws of nature, as a way of worshiping Allah, namely the following verses:

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)*

*"Allah who preserves the two places where the sun rises and Allah who preserves the two places where it sets." (Ar Rahman: 55:17)*

*"Allah of the skys and the earth and what is between them and Allah of the places where the sun rises. (Ash Shaaffaat: 37:5)*

*"And it is He Who gives life and causes death, and it is He who changes the night and the day. Then do you not understand it? (Al Mu'minuun: 23: 80)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Allah is the light of the heavens and the earth...Light upon light...(An Nuur: 24: 35)*

*"And, when We made the house a gathering place for humans and a safe place. And make part of Ibrahim's station a place of prayer. And We ordered Ibrahim and Ishmael: "Clean my house for those who are tawaf, who are i'tikaf, those who bow and prostrate" (Al Baqarah: 2: 125)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*"And they do not glorify Allah with proper exaltation when the whole earth is in His hands on the Day of Resurrection and the heavens are rolled up with His right hand. Glory be to God and exalted is He from what they associate with. (Az Zumar: 39: 67) Indeed, the Day of Judgment will surely come, there is no doubt about it, but most people do not believe (Al Mu'min: 40: 59)*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "Allah, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"Indeed, in the creation of the skys and the earth, the alternation of night and day, the ark that sailed on the sea brought what was useful to mankind, and what Allah sent down from the sky was water, and with it He gave life to the earth after its death and spread it over the earth is all kinds of animals, and the movement of the winds and clouds is controlled between the heavens and the earth, indeed signs for a people who think (Al Baqarah: 2:164)*

***"When his Lord said to him: "Submit obediently!" Ibrahim replied: "I submit obediently to the Lord of the worlds." (Al Baqarah: 2:131)***

In trying to unmask Allah's secret about, for what reason, the laws of nature, being a way of worshiping Allah, I rely on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I put forward the hypothesis of natural law, as a way of worshiping Allah, because Allah made the laws of nature, based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **NATURAL LAW IS ALLAH'S LAW**

Now, we are still trying with all our attention to uncover the secrets contained behind the verse: ***"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah... (Al Baqarah: 2:115)***

It turns out, the east and west directions, is to illustrate that the earth where all living things are rotating on its axis.

Actually, ***"...the face of Allah...(Al Baqarah: 2: 115)*** is ***"... the light of the skys and the earth... The light upon the light... (An Nuur: 24: 35)***

So, when the earth rotates on its axis, like the rotation of a clock, from the west to the east, describing ***"Allah, the light of the skys and the earth ... (An Nuur: 24: 35)*** illuminates the rotating surface of the earth.

Or in other words, the earth rotates on its axis, there is ***"... the exchange of night and day ... (Al Mu'minuun: 23: 80)*** which is a natural law created by Allah.

## **NATURAL LAW, BECOME A WAY OF WORSHIP TO ALLAH**

Now, let's unravel the secret behind the verse: ***"... We ordered Ibrahim and Ismail: "Clean my house for those who are tawaf, who are i'tikaf, who bow and prostrate" (Al Baqarah: 2:125)***

It turned out that Allah declared: ***"... We ordered Ibrahim and Ismail: "Clean my house for those who are tawaf... (Al Baqarah: 2: 125)***

What happens, when people do "...*thawaf...*(*Al Baqarah: 2: 125*) must follow the natural law that Allah has created, "...*to Allah belongs the east and the west, so wherever you face there is face of Allah...* (*Al Baqarah: 2:115*)

That is, when people do "... *Tawaf...* (*Al Baqarah: 2: 125*), do it like the earth rotates on its axis, from the west to the east.

Well, when people are "... *Tawaf...* (*Al Baqarah: 2: 125*) they should always "... *think about the creation of the skys and the earth: " O Allah, you did not create this in vain, Most High. Holy are You, so save us from the torment of hell. (Ali 'Imran: 3:191)*

Now, it is revealed, that Allah has created the laws of nature, as "...*signs for a people who think. (Al Baqarah: 2:164)*

It means "...*people who think. (Al Baqarah: 2: 164)* are people who use their minds to understand about "... *the creation of the skys and the earth... (Ali 'Imran: 3: 191)*

## CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: "*And to Allah belongs the east and the west, so wherever you turn there is the face of Allah...* (*Al Baqarah: 2:115*)

It turns out, the east and west directions, is to illustrate that the earth where all living things are rotating on its axis.

Actually, "...*the face of Allah...*(*Al Baqarah: 2: 115*) is "... *the light of the skys and the earth... The light upon the light... (An Nuur: 24: 35)*

So, when the earth rotates on its axis, like the rotation of a clock, from the west to the east, describing "*Allah, the light of the skys and the earth ... (An Nuur: 24: 35)* illuminates the rotating surface of the earth.

Or in other words, the earth rotates on its axis, there is "... *the exchange of night and day ... (Al Mu'minuun: 23: 80)* which is a natural law created by Allah.

Now, let's unravel the secret behind the verse: "... *We ordered Ibrahim and Ismail: "Clean my house for those who are tawaf, who are i'tikaf, who bow and prostrate" (Al Baqarah: 2:125)*

It turned out that Allah declared: "... *We ordered Ibrahim and Ismail: "Clean my house for those who are tawaf... (Al Baqarah: 2: 125)*

What happens, when people do "...*thawaf...*(*Al Baqarah: 2: 125*) must follow the natural law that Allah has created, "...*to Allah belongs the east and the west, so wherever you face there is face of Allah...* (*Al Baqarah: 2:115*)

That is, when people do "... *Tawaf...* (*Al Baqarah: 2: 125*), do it like the earth rotates on its axis, from the west to the east.

Well, when people are "... *Tawaf...* (*Al Baqarah: 2: 125*) they should always "... *think about the creation of the skys and the earth: " O Allah, you did not create this in vain, Most High. Holy are You, so save us from the torment of hell. (Ali 'Imran: 3:191)*

Now, it is revealed, that Allah has created the laws of nature, as "...*signs for a people who think. (Al*

*Baqarah: 2:164)*

It means "...*people who think. (Al Baqarah: 2: 164)* are people who use their minds to understand about "... *the creation of the skys and the earth... (Ali 'Imran: 3: 191)*
