## **ABSTRACT**

Before I write down the problem, why Allah raised the foam, as a symbol that has no value, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of why God raised foam, as a symbol that has no value, from the point of view of the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about why Allah raises the foam, as a symbol that has no value, namely the following verses:

*"He created the sky and the earth with right. Allah is exalted above what they associate. (An Nahl: 16:3)*

*"To Him belongs whatever is in the heavens and what is in the earth. And He is the Most High, the Most Great. (Asy Shuura: 42:4)*

*"Allah has sent down water from the sky, so the water flows in the valleys according to their measure, and the current carries floating foam. And from what they melted in the fire to make ornaments or tools, there was a foam like the foam of the stream. Thus Allah makes parables of truth and falsehood. As for the foam, it will disappear as something of no value; as for those who benefit man, he remains on earth. Thus Allah makes parables. (Ar Ra'd: 13:17)*

*"So exalted is Allah the true King, and do not rush to read the Qur'an before it is perfected to reveal it to you, and say: "O my Lord, add to me knowledge." (Thaaha: 20:114)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"Surely you will not be able to guide those you love, but Allah guides those whom He wills, and Allah knows best those who accept guidance. (Al-Qasas: 28: 56)*

*"When his Lord said to him: "bow down obey!" Ibrahim replied: "I bow down obey to the Lord of the worlds". (Al Baqarah: 2: 131)*

In an attempt to unmask Allah's secret about why Allah raised foam, as a priceless symbol, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose the hypothesis that Allah raised foam, as a symbol that has no value because it does not provide benefits to humans from the basic point of Deoxyribonucleic acid (DNA).

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and

which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **WATER IS THE SOURCE OF LIFE FOR ALL LIFE THINGS ON THIS EARTH**

Now, we are still trying to focus our minds to dig and uncover the secrets that are hidden behind the verse: *"Allah has sent down water from the sky, so water flows in the valleys according to their measure ... (Ar Ra'd: 13:17)*

It turns out that water which is a combination of hydrogen atoms and oxygen atoms, which is *"...my spirit...(Shaad: 38:72)*, has become a source of life for all Allah's creatures, from bacteria, animals, humans, plants , plants to trees.

Without water, all creatures and organisms that exist on earth will not live.

It turns out that by combining two hydrogen atoms with one oxygen atom, it has provided a source of life for the earth and its contents.

Water has provided a source of life and benefits for all living creatures and organisms on this earth.

Where this water is like *"... Allah guides whom He wills... (Al Qashash: 28: 56)*

Now the question arises, why is water considered guidance?

The answer is

hidden in the secret behind the verse: *"... the water flows in the valleys according to their size, then the current carries a floating foam.... (Ar Ra'd: 13:17)*

It turned out to be revealed, who got a clue and who was swept away by the current.

## **FLOATING FOAM, THERE IS NO PRICE**

Now, the secret behind the verse: *"then the current carries a floating foam .... (Ar Ra'd: 13:17)*

Apparently, here Allah has given a picture through *"... my spirit... (Shaad: 38: 72)*, namely through oxygen atoms and hydrogen atoms that make up water.

Where the result of the combination of 2 hydrogen atoms and 1 oxygen atom, gave birth to water, the source of human life.

That is, for humans who have been given *"...guidance... (Al Qashash: 28: 56)* then humans are born who are *"...bow down obey to the Lord of the worlds". (Al Baqarah: 2: 131)*

While other humans who are arid from "...guidance... (Al Qashash: 28: 56) enter into "... floating foam.... (Ar Ra'd: 13: 17)

Now, the secret behind the verse has been revealed: "...As for the foam, it will disappear as something that has no value; as for those who benefit man, he remains on earth. Thus Allah makes parables. (Ar Ra'd: 13:17)

That is, where humans who get "...guidance... (Al Qashash: 28: 56) become the human who "... bow down obey to the Lord of the worlds". (Al Baqarah: 2: 131)

While humans are arid from "...guidance... (Al Qashash: 28: 56) then humans enter into "... floating foam.... (Ar Ra'd: 13: 17)

## CONCLUSION

Based on the description above, we can conclude that the secrets that are hidden behind the verse: "Allah has sent down water from the sky, so water flows in the valleys according to their measure ... (Ar Ra'd: 13:17)

It turns out that water which is a combination of hydrogen atoms and oxygen atoms, which is "...my spirit...(Shaad: 38:72), has become a source of life for all Allah's creatures, from bacteria, animals, humans, plants, plants to trees.
