ABSTRACT

Previously I asked forgiveness from Allah SWT regarding here I tried to open the signs of Allah SWT about how Dzulqarnain was immortalized by Allah based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)

There are several verses from the entire contents of the Qur'an that can be used as the basis for unlocking the secret of how Dzulqarnain was enshrined by Allah, namely the following verses:

"They will ask you (Muhammad) about Dzulqarnain. Say: "I will read to you a story about him." (Al Kahf: 18: 83)

"Until when he had reached the sunset, he saw the sun setting in the black muddy sea, and he found there a group of people. We said: "O Dzulqarnain, you can torture or do good to them. (Al Kahf: 18: 86)

"Until when he has reached the sun rising (in the east) he finds the sun shining on a group of people that We did not make for them something to protect them from (the light of) the sun, (Al Kahf: 18: 90)

"They said: "O Dzulqarnain, indeed Ya'juj and Ma'juj are people who make mischief on the earth, so can we give you something in payment, so that you make a wall between us and them?" (Al Kahf: 18 :94)

"Until when (the walls) are opened Ya'juj and Ma'juj, and they descend quickly from all high places. (Al Kahf: 18: 96)

In an effort to reveal the secret of how Dzulqarnain was immortalized by Allah, I used a tool called deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes the hypothesis of Dzulqarnain to be immortalized by Allah because he was one of the greatest warlords in world history and conquered Persia, Egypt and India from the point of view of Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T)

contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WHO IS DZULQARNAIN IMMORTALIZED BY ALLAH IN THE QURAN

Now we focus again on uncovering the secret behind the verse: *"They will ask you (Muhammad) about Dzulkarnain. Say: "I will read to you a story about him." (Al Kahf: 18: 83)*

Well, here Allah has informed the Prophet Muhammad that there will be Muslims who will ask about Dzulkarnain.

Why do Muslims question who Dzulkarnain is and its history?

The answer is

There is no one who is so famous as a world war leader who is able to conquer Persia, Egypt and India, except for the world-famous commander, Dzulkarnain, the king of Macedonia.

When the Prophet Muhammad Isra Mi'raj on the night of 27 Rajab 11 prophetic years, coinciding with March 8, 620 AD, Dzulkarnain was born on July 20, 356 BC in Pella, and died on June 10, 323 BC in Babylonia.

So for 943 years there has not been a world-famous warlord after the death of Dzulkarnain.

Well it turns out, who else is being questioned to the Prophet Muhammad about Dzulkarnain, if not Alexander the Great or Alexander III of Macedonia.

WHY ALEXANDER THE AGUNG IS IMMORTALIZED BY ALLAH IN THE QURAN

Now, we continue to explore the secret behind the verse: *"Until when he has reached the place of sunset, (Al Kahf: 18: 86)* then *"Until when he has reached the place of sunrise (east side)*

It turned out that the countries that were in the west where the sun rose, Greece and the countries in the eastern part of the sunset, Egypt and India had been conquered and controlled by him.

Where Allah has given freedom to Alexander the Great *"... We said: "O Dzulkarnain, you may torture them or may do good to them. (Al Kahf: 18: 86)*

Well, why did God give freedom to Alexander the Great when he was ancient Greek *"...you can torture them or you can do good to them. (Al Kahf: 18: 86)*

The answer is

Because when Alexander the Great conquered and controlled the country, the country he conquered was never destroyed, the wealth belonging to the state and the people robbed was brought back to Macedonia, and the leaders of the countries he conquered were never killed.

Then the people in the conquered country asked Alexander the Great for help against the people and groups in the country *"They said: "O Dzulkarnain, verily Ya'juj and Ma'ju are people who do mischief on earth, then can we give you something in payment, so that you can build a wall between us and them?" (Al Kahf: 18: 94)*

YA'JUJ AND MA'JUJ WHO ARE THEY

Well, here it appears that Alexander the Great is considered their leader

Of course who is "... *Ya'juj and Ma'juj* are the people who make mischief on earth..."?

The answer is

There were groups in India around 321 BC who did not recognize the dynasties that ruled India, such as the Nanda dynasty which was overthrown by Chandragupta Maurya as emperor.

These groups have their own laws and make other people feel afraid.

Now when Alexander the Great took control of India in the northwest, in 326 BC, the people living in that area asked to destroy these groups which they called "... *Ya'juj and Ma'juj*..."

Those who are called by the people "... *Ya'juj and Ma'juj*..." "...*they descend swiftly from all high places. (Al Kahf: 18: 96)*

So actually "... *Ya'juj and Ma'juj*..." are wild groups whose work is to destroy, rob and kill the people .

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: "*They will ask you (Muhammad) about Dzulkarnain. Say: "I will read to you a story about him."* (Al Kahf: 18: 83)

Well, here Allah has informed the Prophet Muhammad that there will be Muslims who will ask about Dzulkarnain.

Why do Muslims question who Dzulkarnain is and its history?

The answer is

There is no one who is so famous as a world war leader who is able to conquer Persia, Egypt and India, except for the world-famous commander, Dzulkarnain, the king of Macedonia.
