## **ABSTRACT**

Previously, I asked forgiveness from Allah SWT. Here the author tries to open the veil that covers whether everything that happens is Allah's will from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

In the Qur'an there are several verses that I consider the key to unlocking the secret of whether everything that happens is the will of Allah, namely the following verses:

*"... And Allah decrees the law (according to His will), no one can reject His decree;... (Ar Ra'd: 13: 41)*

*"...So Allah guides those who believe to the truth about what they dispute with His will...(Al Baqarah: 2:213)*

*"And whatever calamity befalls you, it is caused by the deeds of your own hands, and Allah forgives most (of your faults). (Ash Shuura: 42: 30)*

*"No calamity befalls a person except with Allah's permission; ... (At Taghaabun: 64: 11)*

Where in an effort to open the veil that covers about whether everything that happens is Allah's will I use a tool called deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose the hypothesis that all calamities are caused by human hands which Allah wills according to the basis of Deoxyribonucleic acid (DNA).

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **ALLAH'S WILL OR PERMISSION HAPPEN AFTER CALAMITY HAPPENED TO HUMANS**

Let us now reveal the secret behind the verse: *"...And Allah decreed the law (according to His will),...*

*(Ar Ra'd: 13: 41)*

Well, here it looks like the law was set by Allah after something happened that required the law.

What caused Allah to set the law?

The answer is

***"...that We actually came to the regions (the disbelievers), then We reduced them (little by little) from their edges? And Allah establishes the law (according to His will), ... (Ar Ra'd: 13: 41)***

It turned out that when the Muslims had mastered several areas, then a law was enacted that would apply in the area controlled by the Muslims.

So here Allah wants to make law after an area is controlled by Muslims.

Then we reveal the secret behind the verse: ***"...whatever misfortune befalls you, it is caused by the actions of your own hands,..(Asy Syuura: 42:30)***

Well, as well as here it is clearly illustrated that calamities occur because of what is made by humans themselves, not by the will of Allah.

But then, the secret behind the verse was revealed: ***"No calamity befalls a person except by Allah's permission; ... (At Taghaabun: 64: 11)***

It turns out that now it has been revealed that Allah's permission or will was determined after the calamity made by human hands itself occurred.

Or in other words, Allah gives permission or approval or stipulation to disasters that have occurred due to those made by human hands themselves.

For example, the Covid-19 RNA (Ribonucleic acid) virus, did this virus originate from bats or was it made by humans, resulting in a pandemic like the current situation.

Well, this pandemic is a very big disaster that was made by humans themselves.

This means that this pandemic emerged caused by human hands itself.

So, in this situation, no will or permission or approval of Allah has been given.

Well, only when the Covid-19 RNA (Ribonucleic acid) virus enters the human lungs, then there is Allah's permission or decree.

Or in other words, after the human being attacked by the Covid-19 RNA (Ribonucleic acid) virus is sick and cannot breathe, then Allah with His permission or will forgives the human. ***"...Allah forgives most (of your faults). (Ash Shuura : 42:30)***

So here, it was revealed that Allah's will or Allah's permission came out after humans permission or will forgives the human. ***"...Allah forgives most (of your faults). (Ash Shuura : 42:30)*** with their own hands caused the disaster.

## CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"...And Allah decreed the law (according to His will),...(Ar Ra'd: 13: 41)*

Well, here it looks like the law was set by Allah after something happened that required the law.

What caused Allah to set the law?

So here, it was revealed that Allah's will or Allah's permission came out after humans permission or will forgives the human. *"...Allah forgives most (of your faults). (Ash Shuura : 42:30)* with their own hands caused the disaster.
