ABSTRACT

Previously, the author asked forgiveness from Allah SWT. Here I am trying to open the veil that covers Allah's secret about Jibril being a man from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses in the Qur'an that write about Jibril being a man, namely the following verses:

"And if We made the apostle an angel, We would certainly have made him a man and (if We had made him a man), We would have doubted about them what they doubted about themselves. (Al An'aam : 6: 9)

"... Gabriel has sent it down (Al Quran) into your heart with Allah's permission;...(Al Baqarah: 2: 97)

"...then We sent our spirit to him, then he appeared before her (in the form of) a perfect human being. (Maryam: 19:17)

"He (Jibril) said: "Indeed I am only a messenger of your Lord, to give you a pure son." (Maryam: 19: 19)

" Jibril said: "So it is." Your Lord said: "It is easy for Me; and that We may make it a sign for mankind and as a mercy from Us; and it is a matter that has been decided." (Maryam: 19:21)

"Then Jibril called him from a low place: "Do not be sad, your Lord has made a tributary under you (Maryam: 19:24)

"...and (that Jibril) appeared in his true form. (An Najm: 53: 6) "... And indeed Muhammad saw Jibril (in his original appearance) at another time, (An Najm: 53: 13) "... And indeed Muhammad saw Jibril on the horizon bright. (At Takwiir: 81: 23)

"Allah is the light of the heavens and the earth....Light upon light (in layers),...(An Nuur: 24: 35)

Where in an effort to unmask about Jibril is a man I base on deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that Jibril is a man because it contains oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms based on the basis of Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases.

The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

THE ANGEL THAT BECOME A MESSENGER IS A MAN

Now, we focus on revealing the secret behind the verse: *"And if We made the apostle an angel, We would certainly have made him a man... (Al An'aam: 6: 9)*

Well, it turns out that all the messengers or apostles assigned by Allah are men.

Or in other words Allah sent to man through a man.

Why did Allah send humans to convey revelations or events regarding human life and the universe through a male messenger?

The answer is

Because angels are a kind of human, whose body contains oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

As Allah has declared: *"And if We had made the apostle an angel, We would certainly have made him a man... (Al An'aam: 6: 9)*

JIBRIL IS A MAN

It turns out that the secret behind the verse is proven: *"...then We sent Our spirit to him, then he incarnated before her (in the form of) a perfect human. (Maryam: 19:17)*

Well, since the angel is a man, it is clear that Jibril is also a man.

Why was Jibril sent to Mary?

The answer is

Because Jibril was a man, he could convey what Allah had commanded directly to Maryam.

"Jibril said: "So it is." Your Lord said: "It is easy for Me; and that We may make it a sign for mankind and as a mercy from Us; and it is a matter that has been decided." (Maryam: 19:21)

Well, because Jibril is a man, it is easy to talk directly to Maryam.

Or in other words, to get in touch with humans must go through humans.

Then "He (Jibril) said: "Indeed I am only a messenger of your Lord, to give you a pure son." (Maryam: 19: 19)

Well it turns out, Jibril who is a man conveys Allah's command by saying to Maryam: *"...to give you a holy son." (Maryam: 19: 19)*

What is meant by the holy son is Isa, who after being born and raised by Allah became Prophet Isa.

PROPHET MUHAMMAD SEE JIBRIL IN ORIGINAL APPEARANCE

Well, even here the Prophet Muhammad saw Jibril as a man *"... And indeed Muhammad saw Gabriel (in his original appearance) at another time, (An Najm: 53:13)*

Jibril's original appearance was *"... if We had made the apostle an angel, We would have made him a man... (Al An'aam: 6: 9)* and *"... he appeared before him (in form) perfect human. (Mary: 19:17)*

So now it was revealed that Jibril was a perfect man.

Or in other words Jibril is *"...a perfect human. (Mary: 19:17)*

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"And if We made the apostle an angel, We would certainly have made him a man... (Al An'aam: 6: 9)*

Well, it turns out that all the messengers or apostles assigned by Allah are men.

Or in other words Allah sent to man through a man.

(Maryam: 19: 19)

Well it turns out, Jibril who is a man conveys Allah's command by saying to Maryam: **"...to give you a holy son." (Maryam: 19: 19)**

What is meant by the holy son is Isa, who after being born and raised by Allah became Prophet Isa.

Well, even here the Prophet Muhammad saw Jibril as a man **"... And indeed Muhammad saw Gabriel (in his original appearance) at another time, (An Najm: 53:13)**

So now it was revealed that Jibril was a perfect man.

Or in other words Jibril is **"...a perfect human. (Mary: 19:17)**
