ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT regarding the secret of obedience, help and guidance from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

The signs of Allah's greatness regarding the secret of obedience, help and guidance are written in the verses:

"And your Lord said: "Pray to Me, I will surely allow you... (Al Mu'min: 40: 60)

"Only You we worship, and only You we ask for help. (Al Faatihah: 1: 5) Show us the straight path, (Al Faatihah: 1: 6) (ie) The way of those whom Thou hast bestowed upon them; not (the way) of those who are angry and not (the way) of those who have gone astray. (Al Faatihah : 1: 7)

In an effort to unveil the greatness of Allah SWT regarding the secret of obedience, help and guidance, I use the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose a hypothesis about obedience, help and guidance are three stages to the light of Allah seen from the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

REQUEST AND ACCEPTANCE

Let's now together uncover the secret behind the verse: *"... your Lord says: "Pray to Me, I will surely allow you... (Al Mu'min: 40: 60)*

Well, here it is clearly illustrated that if we ask, plead and pray to Allah, then our requests, requests and prayers will be granted by Allah.

The question now is How does Allah answer our requests, supplications and prayers?

The answer is: Acceptance is carried out after fulfilling three stages.

The first stage is obedience, the second stage is help and the third stage is guidance.

THREE STAGES, COMPLIANCE, HELP AND INSTRUCTIONS

Now we continue to uncover the secret behind the verses: *"... You are the one we worship..., (Al Faatihah: 1:5) "...to You we ask for help. (Al Faatihah: 1:5) "Show me we are the straight path, ... (Al Faatihah: 1: 6)*

Well, now it's been revealed that to get our requests, requests and prayers answered, we have to go through three stages.

The first stage we must worship, submit and obey Allah.

The second stage, we really ask for help because we ourselves are not able to do and make it.

The third stage, we ask for guidance and guidance to the path that is pleasing to Allah.

So now the secret behind the verses is revealed: *"... You are the one we worship..., (Al Faatihah: 1:5) "...to You we ask for help. (Al Faatihah: 1:5) "Show us straight path, ... (Al Faatihah: 1: 6)*

These are all three requirements for our requests, supplications and prayers to be granted.

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"... your Lord says: "Pray to Me, I will surely allow you... (Al Mu'min: 40: 60)*

Well, here it is clearly illustrated that if we ask, plead and pray to Allah, then our requests, requests and prayers will be granted by Allah.

These are all three requirements for our requests, supplications and prayers to be granted.
