ABSTRACT

First of all, by asking forgiveness from Allah SWT here I try to reveal the signs of the greatness of Allah SWT about why Allah brought up much of the history of Prophet Musa and Prophet Ibrahim based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

In the Qur'an there is a verse that is the key to unlocking the secret of why Allah brought up the many histories of Prophet Musa and Prophet Ibrahim, namely the following verses:

"Allah said: "O Musa, verily I chose (exceeded) you and other humans (in your time) ... to speak directly with Me, .. (Al A'raaf: 7: 144)

"... said Musa: "O my Lord, show me (Yourself) so that I can see You." Allah said: "You can never see Me, but look at the hill, then if it stays in place (as before) surely you will be able to see Me." When his Lord appeared to the mountain, he made the mountain crumble... (Al A'raaf: 7: 143)

"And (remember) when Ibrahim said: "O my Lord, show me how You bring the dead to life." Allah said: "Are you not convinced yet?" Ibrahim replied: "I have convinced him, but so that my heart remains steady (with my faith). Allah said: "(Then) take four birds, then chop them all up by you. (Allah says): "Then put on each hill one part of it, then call them, surely they will come to you with soon." And know that Allah is Mighty, Wise. (Al Baqarah: 2:260)

"And (remember) when Isa ibn Maryam said: "O Children of Israel, indeed I am the messenger of Allah to you, confirming the book before me, namely the Torah, and giving glad tidings of (the arrival of) an Apostle who will come after me, whose name is Ahmad (Muhammad). ." So when the apostle came to them with clear evidence, they said: "This is real magic." (Ash Shaff: 61: 6)

"Allah is the light of the heavens and the earth....Light upon light (in layers), Allah guides to His light whom He wills...(An Nuur: 24:35)

In an attempt to unmask why Allah has brought up much of the history of Musa and Ibrahim based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that Allah raised a lot of the history of Prophet Musa and Prophet Ibrahim because Allah had spoken directly to them based on photons, quarks and Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G)

is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

As for if we want to know quarks, then we look at one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

ALLAH IN DIALOGUE WITH THE PROPHET MUSA

Now we continue to explore the secret that lies behind the verse: *"... said Musa: "O my Lord, show me (yourself) so that I can see you." (Al A'raaf: 7: 143)*

Then we also explore the secret behind the verse: *"... Allah says: "You can never see Me, but look at that hill, so if it stays where it used to be, you will surely see Me.".. (Al A'raaf : 7:143)*

Well, it is clear from what is written in the verse above, there is a dialogue between Allah and Musa.

So, it is clear here that it is seen how Allah actually has a dialogue with ordinary humans who have been appointed as prophets, namely Musa.

Where the history of the Prophet Musa is raised in 228 verses, a history of the prophet that is more than the history of any other prophet.

ALLAH IN DIALOGUE WITH THE PROPHET IBRAHIM

Then we explore the secret behind the verse: *"And (remember) when Ibrahim said: "O my Lord, show me how You bring the dead to life." (Al Baqarah: 2: 260)*

Then we also explore the secret in the verse: *"... Allah says: "Are you not sure yet?"... (Al Baqarah: 2: 260)*

Also we continue to explore the secret in the verse: *"...Ibrahim replied: "I have convinced my self, but so that my heart remains steady (with my faith)... (Al Baqarah: 2: 260)*

Then we continue to uncover the secret behind the verse: *"... Allah says: "(Then) take four birds, then chop them all up by you. (Allah says): "Then put on each hill one part of it, then call them, surely they will come to you quickly... (Al Baqarah: 2: 260)*

Now, it is becoming clearer now that Allah raised the history of Prophet Ibrahim to a high historical level with 163 verses that reveal it. Because Allah had a direct dialogue with Prophet Ibrahim.

DIALOGUE WITH ALLAH AN EVIDENCE OF THE APPOINTMENT OF ORIGINAL HUMANS TO HIGH LEVELS WITH THE STATUS OF THE PROPHET

Now, what is described in the history of Prophet Musa and Prophet Ibrahim is a proof that ordinary people can talk and have direct dialogue with Allah. Allah speaks directly to humans is by using the vibration frequency layer of Allah's light. *"Allah is the light of the heavens and the earth....Light upon light (in layers),...(An Nuur: 24: 35)*

To get to the level of Prophet Musa and Prophet Ibrahim who could talk directly to Allah is because Prophet Ibrahim and Prophet Musa had studied, studied, analyzed, explored, disassembled, analyzed and lived and believed in what had been conveyed and revealed to them both.

The question now is Can ordinary people now talk and dialogue directly with Allah?

The answer is

Humans must learn and understand and explore what Ibrahim and Musa have done, namely:

Humans must explore, study, analyze, explore, disassemble, analyze and appreciate and believe in what has been conveyed and revealed to the Prophet Muhammad, namely the Qur'an.

CONCLUSION

Based on the description above, we can conclude that the secret that lies behind the verse: *"... said Musa: "O my Lord, show me (yourself) so that I can see you." (Al A'raaf: 7: 143)*

Then we also explore the secret behind the verse: *"... Allah says: "You can never see Me, but look at that hill, so if it stays where it used to be, you will surely see Me.." (Al A'raaf : 7:143)*

Well, it is clear from what is written in the verse above, there is a dialogue between Allah and Musa.
