ABSTRACT

Before I write down the problem of how to meet Allah through the spirit of Allah, the writer first asks forgiveness from Allah SWT. Here I try to open the veil that covers the secret of how to meet Allah through Allah's spirit from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become a secret unlocking tool to meet Allah through Allah's spirit, namely the following verses:

"So when I have perfected the event and I have breathed into it My spirit; then you should fall down prostrating to it." (Shaad : 38:72)

"Indeed, I am Allah, there is no god but Me, so worship Me and establish prayer in remembrance of Me. (Thaaha: 20:14)

"Establish prayer from after the sun has slipped until the darkness of the night and dawn. Indeed, the morning prayer was witnessed. (Al Israa ' : 17: 78)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily, Allah is All-Encompassing, All-Knowing (Al Baqarah: 2:115)

"Do you not know that Allah is the glory of what is in the heavens and the earth and the birds with their wings spread out. Each one knows his prayer and tasbih, and Allah is Knowing of what they do. (An Nuur: 24:41)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to unmask the secret of how to meet Allah through Allah's spirit I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis to meet Allah through Allah's bad spirit in our bodies seen from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T)

contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

I AM ALLAH, CLOSER THAN YOUR JUGULAR VEIN, YOU CAN MEET ALLAH DIRECTLY

Now, we continue to try to focus our minds in order to reveal the secret hidden behind the verse: *"Indeed I am Allah,...establish prayer to remember Me. (Thaaha: 20:14)*

Now, it is revealed that to meet Allah directly through Allah's spirit is through prayer.

Why to meet directly with Allah must be through prayer?

The answer is

Saved in the verse: *"...We are closer to him than his jugular vein, (Qaaf: 50:16)* and the verse *"...I breathed into him my spirit...(Shaad: 38:72)* and the verse: *"... establish prayer in remembrance of Me. (Thaahaa: 20:14)*

It turns out that Allah's secret is open now, where if we want to meet directly with Allah it is through the Spirit of Allah which is closer than our jugular vein by establishing prayer.

So through prayer we can directly meet Allah *"... I am Allah,... (Thaahaa: 20:14)*

ALLAH IS NOT FAR, ALLAH THROUGH THE SPIRIT OF ALLAH IS IN OUR BODY

Now, we continue to uncover the secrets hidden behind the verse: *"...I breathed into him my spirit...(Shaad: 38:72)* and the verse: *"...to Allah belongs the east and the west, so wherever you turn in the that is the face of Allah...(Al Baqarah: 2:115)*

Now, it is increasingly being revealed that actually because Allah's spirit is in our bodies, so actually there is no direction to the east and direction to the west, wherever we turn *"...that's where the face of Allah is...(Al Baqarah: 2:115)*

This is the secret that is hidden behind the verse: *"Indeed I am Allah, there is no god but Me, so worship Me and establish prayer in remembrance of Me. (Thaaha: 20:14)*

WHEN WE PRAY, WE DIRECTLY MEET AND TALK DIRECTLY WITH ALLAH

This is the secret, now it has just been revealed that actually when we pray is we meet and talk directly with Allah, because the spirit of Allah is in our bodies.

Therefore, *"Establish prayer from after the sun goes down until the darkness of the night and dawn. Indeed, the morning prayer was witnessed. (Al Israa ': 17: 78)*

The Spirit of Allah is in our bodies and when we pray it is *"...witnessed. (Al Israa ': 17: 78)* directly by Allah from within our own bodies because of Allah *"...closer to him than the jugular vein, (Qaaf: 50:16)*

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: *"Indeed I*

am Allah,...establish prayer to remember Me. (Thaaha: 20:14)

Now, it is revealed that to meet Allah directly through Allah's spirit is through prayer.

Why to meet directly with Allah must be through prayer?

The answer is

Saved in the verse: *"...We are closer to him than his jugular vein, (Qaaf: 50:16)* and the verse *"...I breathed into him my spirit...(Shaad: 38:72)* and the verse: *"... establish prayer in remembrance of Me. (Thaahaa: 20:14)*
