ABSTRACT

First, by begging forgiveness from Allah SWT, here the author tries to reveal the signs of the greatness of Allah SWT about 'Arsy is a place full of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms, to create the skys and earth, based on deoxyribonucleic acid (DNA).).

In the Al-Quran, several verses are found which are the key to unlocking Allah's secrets regarding 'Arsy is a place full of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms, to create the skys and earth, namely the verses:

"Surely your God is Allah who created the skys and the earth in six days, then He sat on 'Arsy. He closed the night to the day that followed quickly, and the sun, moon and stars were subject to His commands. Remember, to create and rule only belongs to Allah. Glory be to Allah, Lord of the worlds. (Al A'raaf: 7: 54)

"It is Allah Who raises the skys without pillars that you see, then He sits on 'Arsy, and subdues the sun and the moon. Each circulates for an appointed time. Allah take care of interests, explains the signs, so that you believe in meeting your God. (Ar Ra'd: 13: 2)

"Allah, there is no god who is worshiped except He, God who has a great 'Arsy. (An Naml : 27: 26)

"And you will see angels circling around 'Arsy glorifying while praising his God and being judged among Allah's servants fairly and saying: "Praise be to Allah, God of the worlds." (Az Zumar: 39: 75)

"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see something that is not balanced? (Al Mulk: 67: 3)

"And if We had made the apostle an angel, We would have made him a male and, of course, We would have doubted about them what they doubted about themselves (Al An'aam: 6: 9)

"So when I have perfected the body, and have breathed into it my spirit, then you bow down to him with prostration (Al Hijr: 15: 29)

"Angels and spirits ascend to God in a day whose value is fifty thousand years (Al Ma'aarij: 70:4)

"And the angels are in all corners of the sky. And on that day eight angels uphold 'Arsy of your God above them. (Al Haaqqah: 69: 17)

In an effort to open the veil, 'Arsy is a place full of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms, to create the skys and earth, the authors based on deoxyribonucleic acid.

HYPOTHESES

Here the author proposes the hypothesis 'Arsy is a place full of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms, to create the skys and earth, based on Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

'ARSY IS A PLACE FULL OF OXYGEN ATOMS, HYDROGEN ATOMS, NITROGEN ATOMS AND CARBON ATOMS TO CREATE THE SKY AND EARTH

Well now, we are still trying to concentrate our minds in order to unravel the secrets contained in the verses: “... *Allah who created the skys and the earth in six days, then He sat on 'Arsy...(Al A'raaf: 7: 54)*”...*angels circling around 'Arsy...(Az Zumar: 39:75)*”...*eight angels uphold 'Arsy...(Al Haaqqah: 69:17)*

Well, apparently, Allah or Jahve or Adonai, has declared “... *Allah who created the skys and the earth in six days, then He sat on 'Arsy...(Al A'raaf: 7: 54)*

Well, “...*the skys and the earth...(Al A'raaf: 7: 54)* were created by “...*my spirit...(Al Hijr: 15: 29)* or “...*the spirit of Allah.. .(Al Hijr : 15: 29)* or the spirit of Jahve or the spirit of Adonai, which is composed of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, actually, “...*the skys and the earth...(Al A'raaf: 7: 54)* were created with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms.

Now, the question arises,

Why “...*Allah sat on 'Arsy...(Al A'raaf: 7: 54)*, what does it have to do with “...*the skys and the earth...(Al A'raaf: 7: 54)* which were created with “...*my spirit...(Al Hijr: 15: 29)* or “...*the spirit of Allah.. .(Al*

Hijr : 15: 29) or the spirit of Jahve or the spirit of Adonai?

The answer is in the secret behind the verse: *"...angels circling around 'Arsy...(Az Zumar: 39:75) "...eight angels uphold 'Arsy...(Al Haaqqah: 69: 17)*

Well, it turns out, *"...angels...(Az Zumar: 39: 75)* built by *"...my spirit...(Al Hijr: 15: 29)* or *"...the spirit of Allah.. (Al Hijr : 15: 29)* or the spirit of Jahve or the spirit of Adonai, which is in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, *"...circling around the 'Arsy...(Az Zumar: 39: 75)* and *"... uphold 'Arsy...(Al Haaqqah: 69: 17)*

Another question arises,

Why *"...angels circling around the 'Arsy...(Az Zumar: 39: 75)* and *"... uphold 'Arsy...(Al Haaqqah: 69: 17)?*

Because, what is in the form of *"...angels...(Az Zumar: 39: 75)* and what is in *"...'Arsy...(Az Zumar: 39: 75)* is *"...my spirit...(Al Hijr: 15: 29)* or *"...the spirit of Allah.. (Al Hijr : 15: 29)* or the spirit of Jahve or the spirit of Adonai, which is in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atom.

So, actually, 'Arsy is a storage place for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for the purposes of life in the heavens and on earth. Everything on earth requires hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Because, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are very necessary to live on earth and also to live in paradise, because paradise is on earth, then the 'Arsy, which is a place where hydrogen atoms, carbon atoms, nitrogen atoms and nitrogen atoms are stored. oxygen must be guarded by *"...angels...(Az Zumar: 39: 75)*

This is the secret of Allah, which is not understood by almost all Muslims in the world. Muslims in the world, consider 'Arsy is the attribute of Allah. Because Muslims in the world do not understand the real Allah.

CONCLUSION

Based on the description above we can conclude that the secrets contained in the verses: *"... Allah who created the skys and the earth in six days, then He sat on 'Arsy...(Al A'raaf: 7: 54) "...angels circling around 'Arsy...(Az Zumar: 39:75) "...eight angels uphold 'Arsy...(Al Haaqqah: 69:17)*

Well, apparently, Allah or Jahve or Adonai, has declared *"... Allah who created the skys and the earth in six days, then He sat on 'Arsy...(Al A'raaf: 7: 54)*

Well, *"...the skys and the earth...(Al A'raaf: 7: 54)* were created by *"...my spirit...(Al Hijr: 15: 29)* or *"...the spirit of Allah.. (Al Hijr : 15: 29)* or the spirit of Jahve or the spirit of Adonai, which is composed of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, actually, *"...the skys and the earth...(Al A'raaf: 7: 54)* were created with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms.

Now, the question arises,

Why *"...Allah sat on 'Arsy...(Al A'raaf: 7: 54)*, what does it have to do with *"...the skys and the earth...(Al A'raaf: 7: 54)* which were created with *"...my spirit...(Al Hijr: 15: 29)* or *"...the spirit of Allah.. (Al*

Hijr : 15: 29) or the spirit of Jahve or the spirit of Adonai?

The answer is in the secret behind the verse: "...*angels circling around 'Arsy...*(*Az Zumar: 39:75*)
"...*eight angels uphold 'Arsy...*(*Al Haaqqah: 69: 17*)

Well, it turns out, "...*angels...*(*Az Zumar: 39: 75*) built by "...*my spirit...*(*Al Hijr: 15: 29*) or "...*the spirit of Allah..* .(*Al Hijr : 15: 29*) or the spirit of Jahve or the spirit of Adonai, which is in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, "...*circling around the 'Arsy...*(*Az Zumar: 39: 75*) and "... *uphold 'Arsy...*(*Al Haaqqah: 69: 17*)

Another question arises,

Why "...*angels circling around the 'Arsy...*(*Az Zumar: 39: 75*) and "... *uphold 'Arsy...*(*Al Haaqqah: 69: 17*)?

Because, what is in the form of "...*angels...*(*Az Zumar: 39: 75*) and what is in "... '*Arsy...*(*Az Zumar: 39: 75*) is "...*my spirit...*(*Al Hijr: 15: 29*) or "...*the spirit of Allah..* .(*Al Hijr : 15: 29*) or the spirit of Jahve or the spirit of Adonai, which is in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atom.

So, actually, 'Arsy is a storage place for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for the purposes of life in the heavens and on earth. Everything on earth requires hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Because, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are very necessary to live on earth and also to live in paradise, because paradise is on earth, then the 'Arsy, which is a place where hydrogen atoms, carbon atoms, nitrogen atoms and nitrogen atoms are stored. oxygen must be guarded by "...*angels...*(*Az Zumar: 39: 75*)

This is the secret of Allah, which is not understood by almost all Muslims in the world. Muslims in the world, consider 'Arsy is the attribute of Allah. Because Muslims in the world do not understand the real Allah.
