**ABSTRACT**

Before I write the real problem Allah does not need a place, because Allah's energy and Allah's particles that have incredible speed, are everywhere, but Allah's spirit needs a certain place, first I beg forgiveness from Allah Almighty. Here I try to open the veil that covers the secret about the fact that Allah does not need a place, because Allah's energy and Allah's particles that have incredible speed, are everywhere, but Allah's spirit needs a certain place, based on Deoxyribonucleic acid (DNA)

There are some verses that are Allah's secret, about the fact that Allah does not need a place, because Allah's energy and Allah's particles that have incredible speed, are everywhere, but Allah's spirit needs a certain place, namely the following verses:

*"Allah ... the light of the skys and the earth ... The light above the light ... (An Nuur: 24: 35)*

*"those who remember Allah while standing or sitting or in a state of lying down and they think about the creation of the heavens and the earth:" O our Lord, Thou didst not create this in vain, Glory be to Thee, so protect us from the punishment of Hell. (Ali 'Imran: 3: 191)*

*"And verily We have created man from an extract of dust. (Al Mu'minuun: 23: 12)*

*"So when I have perfected his creation and breathed into him My spirit; then prostrate yourselves before him. "(Shaad: 38: 72)*

*"So when I have completed his creation, and have breathed into him of My Spirit, then bow down to him in prostration (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His Spirit and He made for you hearing, sight and hearts; you are a little grateful. (As Sajdah: 32: 9)*

*"And if We had made the messenger an angel, We would certainly have made him a man, and We would certainly have doubted over them what they doubt about themselves (Al An'aam: 6: 9)*

*"And it is not possible for a human being that God speaks to him except by revelation or behind a veil or by sending a messenger and then revealed to him with His permission what He wills. Surely He is High, Wise. (Asy Syuura: 42: 51)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"And when My servants ask thee concerning Me, then, that I am near. I grant the supplication of the suppliant when he supplicates to Me, then let them fulfill (all My commands) and let them believe in- Me, that they may always be in the truth. (Al Baqarah: 2: 186)*

*"He is the First and the Last, the Outward and the Inward; and He is Aware of all things. (Al Hadiid: 57: 3)*

*"And when We said to the angels: " Prostrate yourselves before Adam, "they prostrated themselves except Iblis; he refused and was arrogant and was of the disbelievers. (Al Baqarah: 2: 34)*

*"He regulates affairs from the skys to the earth, then it ascends to Him in a day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

*"The angels and the souls ascend to God in a day the measure of which is fifty thousand years (Al Ma'aarij: 70: 4)*

*"Who created the seven skys in layers. You do not see in the creation of the Most Gracious anything unbalanced. So look again and again, do you see anything unbalanced? (Al Mulk: 67: 3)*

*"And to Allah belongs the east and the west, so wherever you turn, there is the face of Allah. Indeed, Allah is All-Embracing, All-Knowing. (Al Baqarah: 2: 115)*

*"those who remember Allah while standing or sitting or in a state of lying down and they think about the creation of the skys and the earth:" O our Lord, Thou didst not create this in vain, Glory be to Thee, so protect us from the punishment of Hell. (Ali 'Imran: 3: 191)*

*"The angels and the spirits descend by the permission of their Lord to arrange all affairs (Al Qadr: 97: 4)*

*"And they ask you about the spirit. Say:" The spirit is the affair of my Lord, and you are not given knowledge except a little. "(Al Israa ': 17: 85)*

*"Verily, We have adorned the skys which are near to the stars, and We have made them instruments of the devil, and We have prepared for them the punishment of the Blazing Fire. (Al Mulk: 67: 5)*

*"And We did not create the skys and the earth and all that is between them in play (Al Anbiyaa ': 21: 16)*

*"So He made them seven skys in two periods. He revealed to each heaven its affairs. And We adorned the nearest heaven with bright stars and We guarded it with the best. Such is the provision of the Almighty, the All-Knowing. (Fushshilat) : 41: 12)*

*"Allah created the heavens and the earth with truth. Indeed in that are signs of Allah's power for the believers (Al 'Ankabuut: 29: 44)*

*"He it is Who created the skys and the earth in six periods: Then He established Himself on the Throne. He knows what goes into the earth and what comes out of it and what descends from the sky and what ascends to Him. And He is with you in Wherever you are, and Allah is Seer of what you do. (Al Hadiid: 57: 4)*

*"And We made a wall before them and a wall behind them, and We covered them so that they could not see." (Yaasiin: 36: 9)*

In an effort to unveil Allah's secret about the fact that Allah does not need a place, because Allah's energy and Allah's particles that have incredible speed, are everywhere, but Allah's spirit needs a certain place, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acid .

## HIPOTESA

Here I make the hypothesis that Allah does not need a place, because Allah's energy and Allah's particles are everywhere, but Allah's spirit needs a specific place, based on Deoxyribonucleic acid (DNA)

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARK

If we want to know the quark then we look at one of the hydrogen atoms that are the building blocks of the human body, animals, growing plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next if this proton is split, then we will find two upper quarks and one lower quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a duplicate structure that forms a double helix and contains polynucleotide macromolecules that are repeatedly composed of nucleotide polymers. These nucleotides consist of folate, 5-carbon sugars and one of the nitrogen bases. Nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Timine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Timin (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA) is composed of 32.20 % atoms carbon, 25.43 % nitrogen atoms, 6.78 % oxygen atoms and 35.59 % hydrogen atoms. Where Carbon, nitrogen, oxygen and hydrogen atoms abound around us and in atmosphere.

## **ACTUALLY ALLAH DOES NOT NEED A CERTAIN PLACE, BECAUSE ALLAH'S ENERGY AND ALLAH'S PARTICLES ARE EVERYWHERE, THE ONLY ONE WHO NEEDS A CERTAIN PLACE IS THE SPIRIT OF ALLAH**

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: *"He who created the sky and the earth in the next six years He resides above the 'arsy ... (Al Hadiid: 57: 4)"... I breathed into him my spirit...(Shaad: 38:72)"...I...have breathed into it my spirit...(Al Hijr: 15:29)*

Apparently, Allah has declared, that Allah *"...created the sky and the earth... (Al Hadid: 57: 4)*

So, with what Allah *"...created the sky and the earth...(Al Hadid: 57:4)?*

The answer is

Hidden in the secret behind the verse: *"... I... have breathed into it my spirit... (Al Hijr: 15: 29)*

Well, apparently, "... *my spirit...* (*Al Hijr: 15: 29*) to "...*create the sky and the earth...*(*Al Hadiid: 57: 4*)

That is, because "...*my spirit...*(*Al Hijr: 15: 29*) is formed by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then actually "...*sky and earth...*(*Al Hadiid: 57:4*) was created with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, "...*my spirit...*(*Al Hijr: 15: 29*) which is formed by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, which actually requires a certain place.

### **'ARSY IS THE STORAGE OF THE SPIRIT OF ALLAH**

Now, why did Allah declare "...*then He resided on the 'arsy...*(*Al Hadiid: 57:4*) ?

Well, the answer is "... *'arsy ...*(*Al Hadiid : 57: 4*) is a room in the "...*sky ...*(*Al Hadiid : 57: 4*) as a place to store "...*my spirit ...*(*Al Hijr: 15: 29*) or hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, actually, Allah has prepared "... *'arsy...*(*Al Hadiid: 57:4*) as a storage place for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Because these atoms are indispensable in "... *the sky and the earth...* (*Al Hadiid: 57: 4*)

### **MOST OF HUMANS IN THE WORLD THINK THAT 'ARSY IS THE ATTRIBUTE OF ALLAH, THIS ASSUMPTION IS THE BIG WRONG**

Well, because Allah has declared that "... *'arsy ...* (*Al Hadiid: 57: 4*) is a storage place for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms which are indispensable in "...*sky and earth...*(*Al Hadiid: 57:4*) then, if there are most people think and believe that the 'Arsy is an attribute of Allah, then the assumption and belief is very wrong.

Or in other words, most people do not understand the real Allah.

### **THE SPIRIT OF ALLAH IS IN THE BODY OF EVERY LIFE AND THINGS THAT IS IN THE SEVEN SKYS**

Now, Allah "...*has breathed into it the spirit of Allah...*(*Al Hijr: 15:29*). That is, "...*the spirit of Allah...*(*Al-Hijr: 15:29*) is in every living creature's body and the things that are in the seven skys,

For this reason, why "...*the spirit of Allah...*(*Al Hijr: 15: 29*) needs a certain place.

### **MOST OF HUMANS THINK THAT IF HUMANS PRAY, PRAYER GOES UP, THIS ASSUMPTION IS A BIG WRONG**

Now, because humans do not understand the real Allah, then the assumption arises that if humans pray, their prayers go up, to where, humans can't explain it.

The question now is

Why do most people until now think that when humans pray to Allah, their prayers go up?

The answer is

Hidden in the secret behind the verse: "...*He resides on 'arsy ...* (*Al Hadiid: 57: 4*)

Now, because the 'Arsy is considered an attribute of Allah, associated with 'Arsy is outside the earth, then Allah is considered to be above the earth.

This is a human thinking that is wrong, because humans do not understand the real Allah.

Whereas the truth is, Allah *"...has breathed into it the spirit of Allah...(Al Hijr: 15: 29).*

So, because *"...Allah...(Al Hijr: 15: 29)* through *"...the spirit of Allah...(Al Hijr: 15: 29)* is in the human body, also the energy of Allah and the particles of Allah are in the human body, then when humans pray to Allah, Allah immediately knows it, Allah *"... be with you wherever you are... (Al Hadiid: 57: 4)* *"... We are closer to him than his jugular vein. ." (Qaf: 50:16)*

## CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"He who created the sky and the earth in the next six years He resides above the 'arsy ... (Al Hadiid: 57: 4)"... I breathed into him my spirit...(Shaad: 38:72)"...I...have breathed into it my spirit...(Al Hijr: 15:29)*
