ABSTRACT

Before the author writes about Al Quran is a symbol interpreted by Allah's spirit so that it can be understood by the Prophet Muhammad saw, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets of Al Quran is a symbol interpreted by Allah's spirit so that it can be understood by the Prophet Muhammad saw, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about Al Quran is a symbol interpreted by Allah's spirit so that it can be understood by the Prophet Muhammad saw, namely the following verses:

"And it is impossible for a human, Allah speak to a human except through revelation or behind a veil or by sending a messenger and then revealing to him with His permission what He wills. Indeed, He is the Most High, the Most Wise (Ash Syuura: 42: 51)

"So when I have perfected the existence of Adam and have breathed into Adam My spirit, then you must bow down to him (Shaad: 38: 72)

"Say: I am not the first of the messengers and I do not know what will be done to me and not to you. I am nothing but following what was revealed to me and I am nothing but a warner who explains (Al Ahqaaf: 46 :9)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see (Yaasiin: 36: 9)

In an effort to reveal the secret of Allah about Al Quran is a symbol interpreted by Allah's spirit so that it can be understood by the Prophet Muhammad saw, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis Al Quran is a symbol interpreted by Allah's spirit so that it can be understood by the Prophet Muhammad saw, based on Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T). Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are found in abundance around us and in the atmosphere.

AL QURAN IS A SYMBOL INTERPRETED BY ALLAH'S SPIRIT SO THAT IT CAN BE UNDERSTOOD BY THE PROPHET MUHAMMAD SAW

So now, we still focus our minds on uncovering the secrets hidden behind the verses: "*...Allah speak to a human...behind a veil...(Ash Syuura : 42: 51)*" "*...I am nothing but following what was revealed to me...(Al Ahqaaf: 46: 9)*.

Well, here Allah declares "*...Allah speak to a human...behind a veil...(Ash Syuura : 42: 51)*

So, what does Allah actually mean by "*...a veil...(Ash Syuura: 42: 51)*?"

Well the answer is in the secret behind the verse: "*...We made a wall before them and behind them a wall, and We covered them so that they could not see (Yaasiin: 36: 9)*

Well, this means that the human eye can only see light in the electromagnetic spectrum area between 430 and 740 nanometers. If there are light rays in the electromagnetic spectrum area below 430 nanometers and light in the electromagnetic spectrum area above 740 nanometers, then the human eye cannot see the light.

Well, this is what is called "*...a veil...(Asy Syuura: 42: 51)*

So, in fact, human from birth have had "*...a veil...(Asy Syuura: 42: 51)*

Humans, anytime, anywhere, can speak directly with Allah, because there is "*...a veil...(Ash Syuura: 42: 51)*

So now, how did Allah convey revelations to the Prophet Muhammad saw, when Allah was in the Prophet Muhammad saw and in every human body?

The answer is in the secret behind the verse: "*...I breathed into Adam My spirit...(Shaad: 38: 72)*

So it turns out, "*...my spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed with quarks, quarks formed with Allah's energy are in every human body, also in every animal body, in plants, in flowers, in fungi, in bacteria, is in amoeba, is in archaea, is in viruses.

Where "*...my spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms which form the nervous system is in the human body and brain.

So now, when Allah spoke to the Prophet Muhammad saw in the form of symbols, in the form of sounds, in the form of the sound of bells, the sound of vibrations of electromagnetic waves, which were interpreted by the spirit of Allah in the form of sounds in the form of an arrangement of words, where The results of the interpretation from the spirit of Allah were passed on to the mind of the Prophet Muhammad saw, so that the mind of the Prophet Muhammad saw understood what the arrangement of the words meant. Next, the order of words that was understood by the mind of the Prophet Muhammad saw was arranged in written form, so that the Prophet Muhammad saw

understood the order of the words in written form.

Now, in order for human to understand the symbols revealed by Allah to the Prophet Muhammad saw, human must understand the results of the interpretation of Allah's spirit in the form of sounds in the form of an arrangement of words that can be heard and understood by human, so that the human mind understands what it means the order of the words. Next, the arrangement of words that is understood by the human mind is arranged in written form, so that human can see the arrangement of the words and understand the meaning of the arrangement of the words.

Now this is the secret of Allah, namely that the symbols revealed by Allah to the Prophet Muhammad saw are the same as sounds in the form of an arrangement of words, and in the form of an arrangement of written words, which can be heard, seen and understood by the mind of the Prophet Muhammad saw.

So in fact, human can confirm the existence of Quran which is with Allah in the form of symbols through the interpretation of Allah's spirit in the form of sounds in the form of words that can be heard and understood by human, and which are in the form of words. What is understood by the human mind is arranged in written form, so that human can see the arrangement of the words and understand the arrangement of the words.

Well, the results of the interpretation of Allah's spirit are in the form of sound in the form of an arrangement of words that can be heard and understood by human, and in the form of an arrangement of words that the human mind can understand, arranged in written form, so that human can see the arrangement of the words and understood by the human mind, now exists in the form of a book of Quran written in Arabic.

So actually what is seen, what is written in Arabic in the current Al Quran is the result of the interpretation of Allah's spirit in the form of sound in the form of an arrangement of words that can be heard and understood by human, and in the form of an arrangement of words that are understood by the human mind are arranged in written form, so that human can see the arrangement of the words and understand the arrangement of the words.

So now Allah's secret has been revealed that the current Al Quran which contains the arrangement of words in written form in Arabic which can be read by human and which is understood by the human mind is the same as that which was revealed by Allah in the form of symbols in the form of sounds, in the form of the sound of a bell, the sound of vibrations of electromagnetic waves that exist with Allah.

Now another question arises,

How did Gabriel convey Allah's revelation directly to the Prophet Muhammad saw using Arabic?

The answer is in the secret behind the verse: *"...We sent Our spirit...Our spirit incarnated...a perfect human. (Maryam: 19: 17).*

Well, here Gabriel who is *"...Our spirit incarnated...a perfect human being. (Maryam: 19: 17)* who can speak Arabic and speak directly with the Prophet Muhammad saw.

So, actually Allah's revelation in the form of symbols was interpreted by Gabriel who *"...incarnated...a perfect human. (Maryam: 19: 17)* before being conveyed to the Prophet Muhammad saw so that the Prophet Muhammad saw would understand.

Now this is what is still not understood by most Muslims in the world.

CONCLUSION

Based on the description above, we can conclude that the verses: "*...Allah speak to a human...behind a veil...(Ash Syuura : 42: 51)*" "*...I am nothing but following what was revealed to me...(Al Ahqaaf: 46: 9)*.

Well, here Allah declares "*...Allah speak to a human...behind a veil...(Ash Syuura : 42: 51)*

So, what does Allah actually mean by "*...a veil...(Ash Syuura: 42: 51)*?

Well the answer is in the secret behind the verse: "*...We made a wall before them and behind them a wall, and We covered them so that they could not see (Yaasiin: 36: 9)*

Well, this means that the human eye can only see light in the electromagnetic spectrum area between 430 and 740 nanometers. If there are light rays in the electromagnetic spectrum area below 430 nanometers and light in the electromagnetic spectrum area above 740 nanometers, then the human eye cannot see the light.

Well, this is what is called "*...a veil...(Asy Syuura: 42: 51)*

So, in fact, human from birth have had "*...a veil...(Asy Syuura: 42: 51)*

Humans, anytime, anywhere, can speak directly with Allah, because there is "*...a veil...(Ash Syuura: 42: 51)*

So now, how did Allah convey revelations to the Prophet Muhammad saw, when Allah was in the Prophet Muhammad saw and in every human body?

The answer is in the secret behind the verse: "*...I breathed into Adam My spirit...(Shaad: 38: 72)*

Where "*...my spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms which form the nervous system is in the human body and brain.

So now, when Allah spoke to the Prophet Muhammad saw in the form of symbols, in the form of sounds, in the form of the sound of bells, the sound of vibrations of electromagnetic waves, which were interpreted by the spirit of Allah in the form of sounds in the form of an arrangement of words, where The results of the interpretation from the spirit of Allah were passed on to the mind of the Prophet Muhammad saw, so that the mind of the Prophet Muhammad saw understood what the arrangement of the words meant. Next, the order of words that was understood by the mind of the Prophet Muhammad saw was arranged in written form, so that the Prophet Muhammad saw understood the order of the words in written form.

Now, in order for human to understand the symbols revealed by Allah to the Prophet Muhammad saw, human must understand the results of the interpretation of Allah's spirit in the form of sounds in the form of an arrangement of words that can be heard and understood by human, so that the

human mind understands what it means the order of the words. Next, the arrangement of words that is understood by the human mind is arranged in written form, so that human can see the arrangement of the words and understand the meaning of the arrangement of the words.

Now this is the secret of Allah, namely that the symbols revealed by Allah to the Prophet Muhammad saw are the same as sounds in the form of an arrangement of words, and in the form of an arrangement of written words, which can be heard, seen and understood by the mind of the Prophet Muhammad saw.

So in fact, human can confirm the existence of Quran which is with Allah in the form of symbols through the interpretation of Allah's spirit in the form of sounds in the form of words that can be heard and understood by human, and which are in the form of words. What is understood by the human mind is arranged in written form, so that human can see the arrangement of the words and understand the arrangement of the words.

Well, the results of the interpretation of Allah's spirit are in the form of sound in the form of an arrangement of words that can be heard and understood by human, and in the form of an arrangement of words that the human mind can understand, arranged in written form, so that human can see the arrangement of the words and understood by the human mind, now exists in the form of a book of Quran written in Arabic.

So actually what is seen, what is written in Arabic in the current Al Quran is the result of the interpretation of Allah's spirit in the form of sound in the form of an arrangement of words that can be heard and understood by human, and in the form of an arrangement of words that are understood by the human mind are arranged in written form, so that human can see the arrangement of the words and understand the arrangement of the words.

So now Allah's secret has been revealed that the current Al Quran which contains the arrangement of words in written form in Arabic which can be read by human and which is understood by the human mind is the same as that which was revealed by Allah in the form of symbols in the form of sounds, in the form of the sound of a bell, the sound of vibrations of electromagnetic waves that exist with Allah.
