ABSTRACT

Before the author writes about all Muslims in the world are trapped in a freedom of worship that does not bring Allah's law, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about all Muslims in the world are trapped in a freedom of worship that does not bring Allah's law, based on Deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about all Muslims in the world are trapped in a freedom of worship that does not bring Allah's law, namely the following verses:

"And if you punish the deeds of them, with what Allah has revealed, and do not follow their desires. And be careful towards them, so that they do not turn you away from part of what Allah has revealed to you. If they turn away, then know that that indeed Allah wills to bring misfortune upon them because of some of their sins. And indeed, most people are wicked people (Al Maa'idah: 5: 49).

"O you who believe, obey Allah and obey the Messenger and Ulil Amri among you. Then if you have different opinions about something, then return it to Allah and the Messenger, if you truly believe in Allah and the Last Day. That is more important and has better consequences (An Nisaa': 4: 59).

In an effort to uncover the veil Allah's secret about all Muslims in the world are trapped in a freedom of worship that does not bring Allah's law, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis all Muslims in the world are trapped in a freedom of worship that does not bring Allah's law, based on Deoxyribonucleic acid (DNA)

PHOTON

Photon is an elementary particle of the boson type and a carrier of electromagnetic interactions.

QUARK

If we want to know quarks then we look at one of the hydrogen atoms which is an element of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and

contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. These nucleotides consist of folate, a 5-carbon sugar and one one nitrogen base. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA) is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35. 59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are abundantly available around us and in the atmosphere.

ALL MUSLIMS IN THE WORLD ARE TRAPPED IN A FREEDOM OF WORSHIP THAT DOES NOT BRING ALLAH'S LAW

Now, we are still continuing to focus our minds to uncover the secrets contained behind the verses: *"...obey Allah and obey the Messenger... (An Nisaa': 4: 59) "...if you punish the deeds of them, with what Allah has revealed...(Al Maa'idah: 5: 49).*

Well, here Allah declares *"...obey Allah and obey the Messenger...(An Nisaa' : 4: 59).*

It turns out, *"...obey Allah and obey the Messenger...(An Nisaa' : 4: 59)* is not implemented in state life, with its legal apparatus, but only in family life at home, in mosques, in schools, in universities.

So, concerning the law that requires a court, it is unthinkable and has not crossed the minds of Muslims in the world.

Now, the question arises,

Why do Muslims in the world not think about implementing *"..the law...with what Allah has revealed...(Al Maa'idah: 5: 49)?*

Of course, the answer is in the secret behind the verse: *"...obey Allah and obey the Messenger...(An Nisaa' : 4: 59).*

Well, *"...obey Allah and obey the Messenger...(An Nisaa' : 4: 59)* is quite implemented by Muslims in the world, through laws relating to thaharah such as purification, istinja, tayammum.

Then it concerns the law of prayer, the law of janazah, the law of zakat, the law of fasting, the law of Hajj, the law of umrah.

It also concerns the law of mu'amalat such as buying and selling, usury, banks, companies, endowments, and laws regarding food and how to slaughter animals.

Or in other words, Muslims in secular countries such as Egypt, Syria, Iraq, Turkey, Afghanistan, Bangladesh, Azerbaijan, Kazakhstan, Turkmenistan, Uzbekistan, Indonesia, Malaysia, Brunei, Somalia, Ethiopia, Jordan, Yemen, Oman, Bahrain, Qatar, United Arab Emirates, Kuwait, Libya, Sudan, Chad, Nigeria, Algeria, Morocco, Tunisia and Palestine are already satisfied, only by performing the sahadah, establishing prayer, paying zakat, performing fasting and hajj, even though the air is barren of Allah's law.

So, 53.3% of the laws implemented by Muslims in the world are only laws relating to thaharah such as purification, istinja, tayammum, the laws of prayer, janazah, zakat, fasting, hajj, umrah, mu'amalat laws involving buying and selling, usury, banks, companies, waqf, food laws and animal slaughter, then Muslims in the world have had enough *"...obey Allah and obey the Messenger...(An Nisaa' : 4: 59).*

As for the law, which is almost 46.7% the laws in Quran, which concern the law of faraidh or inheritance law, the law of marriage, the law of jinayat or murder, the law of hudud such as the law of adultery, stealing, robbery, corruption, liquor, the law of jihad, the law in court and the law of establishing an Islamic state, is not implemented by nearly 1 billion Muslims in the world.

Or it could also be said, all Muslims in the world are trapped in a freedom of worship that does not bring Allah's law, no longer need to establish an Islamic State, just by establishing a country like the countries that exist in the world today.

Moreover, most Muslims in the world, assume that the Prophet Muhammad saw did not establish the first Islamic State in the world, which was centered in Medina in 1 AH (622 AD).

Well, this model of Muslim thinking is what causes Muslims in the world to regress.

CONCLUSION

From what has been explained above, it can be concluded that the secrets contained behind the verses: *"...obey Allah and obey the Messenger... (An Nisaa': 4: 59) "...if you punish the deeds of them, with what Allah has revealed...(Al Maa'idah: 5: 49).*
