ABSTRACT

Before the author writes about Allah does not need a name, asmaul husna, Allah's form, in the form of a name, to understand the real Allah, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets of Allah does not need a name, asmaul husna, Allah's form, in the form of a name, to understand the real Allah, from the perspective of deoxyribonucleic acid (DNA).

There are several verses to reveal Allah's secrets about Allah does not need a name, asmaul husna, Allah's form, in the form of a name, to understand the real Allah, namely the following verses:

"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate yourself before Adam (Shaad: 38: 72)

"Then Allah perfected and breathed into Adam His spirit and Allah made for you hearing, sight and heart, you are very grateful (As Sajdah: 32: 9)

"And indeed We have created man and know what his heart whispers, and We are closer to man than his jugular vein (Qaf: 50:16)

"Only belongs to Allah asma-ul husna, so ask Him by saying asma-ul husna and leave those who deviate from the truth in His names. Later they will be rewarded for what they have done (Al A'raaf: 7: 180)

"And to Allah belongs the east and the west, so wherever you turn, there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2: 115)

In an effort to uncover the secret of Allah regarding Allah does not need a name, asmaul husna, Allah's form, in the form of a name, to understand the real Allah, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis Allah does not need a name, asmaul husna, Allah's form, in the form of a name, to understand the real Allah, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is

split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where Carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

ALLAH DOES NOT NEED A NAME, ASMAUL HUSNA, ALLAH'S FORM, IN THE FORM OF A NAME, TO UNDERSTAND THE REAL ALLAH

So now, we are still concentrating our minds on uncovering the secret contained behind the verse: *"...I breathed into Adam my spirit,...(Shaad : 38: 72)" "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)" "...We are closer to human than his jugular vein (Qaf: 50:16)" "...belongs to Allah asma-ul husna...(Al A'raaf: 7: 180).*

Here, Allah declares: *"...belongs to Allah asma-ul husna...(Al A'raaf: 7: 180)" "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)" "...We are closer to human than his jugular vein (Qaf: 50:16).*

Now, by understanding the real Allah through Allah's form in the form of Allah's energy, Allah's particle and *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*, then people all over the world will understand what Allah really means by the Asmaul Husna 99 names of Allah.

This means that Allah does not need a name, but for humans to understand the real Allah through Allah's form in the form of Allah's energy, Allah's particle *"...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)* and *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*

So, from **Ar Rahman** or the Most Merciful to **As Shabuur** or the Most Patient are symbols that exist within humans and throughout the universe.

Or in other words, asmaul husna, Allah's form, to understand the real Allah,

Well, the real Allah through Allah's form, in the form of *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which is built with hydrogen atoms, atoms Carbon, nitrogen atoms and oxygen atoms, exist in every human body, animals, plants, fungi, archaea and in inanimate objects, such as stone, iron, steel.

Where hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are formed by quarks, quarks are formed by Allah's energy and Allah's particle. Allah's energy is very small, **0.000000000**

000000000 000000000 01 grams per cubic cm required by Allah particle which are also very small, almost nothing, 0.000000000 000000000 000000000 000000000 00000 333591754209188 9 grams.

So, starting with Allah's energy which is very small and Allah's particle which are very small and almost non-existent, "*...wherever you turn, there is the face of Allah...*(*Al Baqarah : 2: 115*) is empirical evidence, which is the content of Allah Who Merciful.

Here, Allah does not look at whether it is humans, animals, plants, or inanimate objects, but everything that exists in the universe is a picture of Allah, the Most Merciful. Anything in the universe gets love from Allah in the form of Allah's energy, Allah's particles and "*...my spirit...*(*Shaad : 38: 72*) or "*...Allah's spirit...*(*Shaad : 38: 72*)

So the name Ar Rahman or the Most Merciful was born because of the real Allah through Allah's form in the form of Allah's energy, Allah's particles and "*...my spirit...*(*Shaad : 38: 72*) or "*...Allah's spirit...*(*Shaad : 38: 72*)

Likewise, As Shabuur or the Most Patient is a symbol of the real Allah through Allah's form in the form of Allah's energy, Allah's particle and "*...my spirit...*(*Shaad : 38: 72*) or "*...Allah's spirit...*(*Shaad : 38: 72*) is present in every human body, animals, plants, fungi and archaea.

Whether humans believe in Allah or not, the real Allah through Allah's form in the form of Allah's energy, Allah's particle and "*...my spirit...*(*Shaad : 38: 72*) or "*...Allah's spirit...*(*Shaad : 38: 72*) is present in every human body, animals, plants, fungi and archaea.

This means that humans, animals, plants, fungi and archaea get a source of life in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, As Shabuur or the Most Patient, describes the real Allah through Allah's form in the form of Allah's energy, Allah's particle and "*...my spirit...*(*Shaad : 38: 72*) or "*...Allah's spirit...*(*Shaad : 38: 72*) which is in every human body, animals, plants, fungi and archaea.

Humans, whether they believe in Allah or not, but the real Allah through Allah's form in the form of Allah's energy, Allah's particle and "*...my spirit...*(*Shaad : 38: 72*) or "*...Allah's spirit...*(*Shaad : 38: 72*) which is in every human body, animals, plants, fungi and archaea, gives humans the opportunity to think and understand the real Allah.

So, this is the basis of Allah As Shabuur or the Most Patient. Providing opportunities for humans to think and understand the real Allah through Allah's form in the form of Allah's energy, Allah's particles and "*...my spirit...*(*Shaad : 38: 72*) or "*...Allah's spirit...*(*Shaad : 38: 72*) which is present in every human body, animals, plants, fungi and archaea.

CONCLUSION

Based on the description above we can conclude that the secret contained behind the verse: "*...I breathed into Adam my spirit,...*(*Shaad : 38: 72*)"*...wherever you turn, there is the face of Allah...*(*Al Baqarah : 2: 115*)"*...We are closer to human than his jugular vein (Qaf: 50:16)*"*...belongs to Allah asmaa-ul husna...*(*Al A'raaf: 7: 180*).

Here, Allah declares: "*...belongs to Allah asmaa-ul husna...*(*Al A'raaf: 7: 180*)"*...wherever you turn, there is the face of Allah...*(*Al Baqarah : 2: 115*)"*...We are closer to human than his jugular vein (Qaf: 50:16)*.

Now, by understanding the real Allah through Allah's form in the form of Allah's energy, Allah's

particle and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72), then people all over the world will understand what Allah really means by the Asmaul Husna 99 names of Allah.

This means that Allah does not need a name, but for humans to understand the real Allah through Allah's form in the form of Allah's energy, Allah's particle "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115) and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)

So, from Ar Rahman or the Most Merciful to As Shabuur or the Most Patient are symbols that exist within humans and throughout the universe.

Or in other words, asmaul husna, Allah's form, to understand the real Allah,

Well, the real Allah through Allah's form, in the form of "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) which is built with hydrogen atoms, atoms Carbon, nitrogen atoms and oxygen atoms, exist in every human body, animals, plants, fungi, archaea and in inanimate objects, such as stone, iron, steel.

Where hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are formed by quarks, quarks are formed by Allah's energy and Allah's particle. Allah's energy is very small, 0.000000000 000000000 000000000 01 grams per cubic cm required by Allah particle which are also very small, almost nothing, 0.000000000 000000000 000000000 000000000 00000 333591754209188 9 grams.

So, starting with Allah's energy which is very small and Allah's particle which are very small and almost non-existent, "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115) is empirical evidence, which is the content of Allah Who Merciful.

Here, Allah does not look at whether it is humans, animals, plants, or inanimate objects, but everything that exists in the universe is a picture of Allah, the Most Merciful. Anything in the universe gets love from Allah in the form of Allah's energy, Allah's particles and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)

So the name Ar Rahman or the Most Merciful was born because of the real Allah through Allah's form in the form of Allah's energy, Allah's particles and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)

Likewise, As Shabuur or the Most Patient is a symbol of the real Allah through Allah's form in the form of Allah's energy, Allah's particle and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) is present in every human body, animals, plants, fungi and archaea.

Whether humans believe in Allah or not, the real Allah through Allah's form in the form of Allah's energy, Allah's particle and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) is present in every human body, animals, plants, fungi and archaea.

This means that humans, animals, plants, fungi and archaea get a source of life in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, As Shabuur or the Most Patient, describes the real Allah through Allah's form in the form of Allah's energy, Allah's particle and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) which is in every human body, animals, plants, fungi and archaea.

Humans, whether they believe in Allah or not, but the real Allah through Allah's form in the form of Allah's energy, Allah's particle and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)

which is in every human body, animals, plants, fungi and archaea, gives humans the opportunity to think and understand the real Allah.

So, this is the basis of Allah As Shabuur or the Most Patient. Providing opportunities for humans to think and understand the real Allah through Allah's form in the form of Allah's energy, Allah's particles and "*...my spirit...(Shaad : 38: 72)* or "*...Allah's spirit...(Shaad : 38: 72)* which is present in every human body, animals, plants, fungi and archaea.
