ABSTRACT

Before the author writes about Allah does not need any form from a small Allah's particle to as broad as Allah's spirit, in the form of the seven skies, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of Allah does not need any form from a small Allah's particle to as broad as Allah's spirit, in the form of the seven skies, based on deoxyribonucleic acid (DNA).

There are several verses that reveal the secret of Allah about Allah does not need any form from a small Allah's particle to as broad as Allah's spirit, in the form of the seven skies, namely the following verses:

"So when I have perfected the life of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72).

"Angels and spirit ascend to God in a day worth fifty thousand years (Al Ma'aarij: 70:4).

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see something that is not balanced? (Al Mulk: 67: 3).

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2: 115).

In an effort to uncover the secret of Allah about Allah does not need any form from a small Allah's particle to as broad as Allah's spirit, in the form of the seven skies, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis Allah does not need any form from a small Allah's particle to as broad as Allah's spirit, in the form of the seven skies, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

ALLAH DOES NOT NEED ANY FORM FROM A SMALL ALLAH'S PARTICLE TO AS BROAD AS ALLAH'S SPIRIT, IN THE FORM OF THE SEVEN SKIES

So now, we still continue to focus our minds on uncovering the secrets contained behind the verses: *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115) "...I breathed into Adam my spirit. ..(Shaad : 38: 72).*

Well, here Allah reveals a great secret about the true form of Allah, in the form of Allah's energy, Allah's particle and *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72).*

How to empirically prove the real Allah, in the form of Allah's energy, Allah's particle and *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) ?*

The answer lies in the secret behind the verse: *"...wherever you turn, there is the face of Allah... (Al Baqarah: 2: 115) "...I breathed into Adam My spirit... (Shaad: 38: 72).*

Now It turns out that by Allah declaring *"...wherever you turn, there is the face of Allah..." (Al Baqarah: 2: 115),* Allah's form is revealed, referring to Allah's particle and Allah's energy. Where is the very small Allah's particle that is almost non-existent **0.00000000 00000000 00000000 00000000 00000 3335917542091889** grams that has a speed of more than the speed of light **5 475 103 664 604.84** km per second with the help of the very small Allah's energy **0.00000000 00000000 00000000 01** grams per cubic cm, has been empirically proven *"...wherever you turn, there is the face of Allah... (Al Baqarah: 2: 115).*

This means, wherever our eyes are directed, before the eyes are fixed on that point, *".. .the face of Allah...(Al Baqarah: 2: 115)* is already there, through Allah's particle at a speed faster than the speed of light assisted by Allah's energy. Likewise, if our eyes are directed at a point on our body, before the eyes are directed at that point on our body, *"...the face of Allah... (Al Baqarah: 2: 115)* is already at that point.

Likewise, if our eyes are directed to the image that refers to the universe or *"...seven skies...(Al Mulq: 67: 3)* which are formed by *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed with quarks, quarks are formed with Allah's energy, then Allah's form refers to *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad :*

38: 72) which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, which become the universe or "...seven skies...(Al Mulk: 67: 3).

So actually, Allah does not need a form. Allah's form refers to Allah's particle which is very small almost non-existent, to the vastness of Allah's spirit in the form of the universe or "...seven skies...(Al Mulk: 67: 3).

So now if there are Islamic scholars in the world who believe that Allah, who has a certain form, occupies a certain place, then the opinion of these Islamic scholars is not correct.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: "...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115) "...I breathed into Adam my spirit..(Shaad : 38: 72).

Well, here Allah reveals a great secret about the true form of Allah, in the form of Allah's energy, Allah's particle and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72).

How to empirically prove the real Allah, in the form of Allah's energy, Allah's particle and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) ?

The answer lies in the secret behind the verse: "...wherever you turn, there is the face of Allah... (Al Baqarah: 2: 115) "...I breathed into Adam My spirit... (Shaad: 38: 72).

Now It turns out that by Allah declaring "...wherever you turn, there is the face of Allah..." (Al Baqarah: 2: 115), Allah's form is revealed, referring to Allah's particle and Allah's energy. Where is the very small Allah's particle that is almost non-existent **0.000000000 000000000 000000000 000000000 00000 3335917542091889** grams that has a speed of more than the speed of light **5 475 103 664 604.84** km per second with the help of the very small Allah's energy **0.000000000 000000000 000000000 01** grams per cubic cm, has been empirically proven "...wherever you turn, there is the face of Allah... (Al Baqarah: 2: 115).

This means, wherever our eyes are directed, before the eyes are fixed on that point, "...the face of Allah...(Al Baqarah: 2: 115) is already there, through Allah's particle at a speed faster than the speed of light assisted by Allah's energy. Likewise, if our eyes are directed at a point on our body, before the eyes are directed at that point on our body, "...the face of Allah... (Al Baqarah: 2: 115) is already at that point.

Likewise, if our eyes are directed to the image that refers to the universe or "...seven skies...(Al Mulk: 67: 3) which are formed by "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed with quarks, quarks are formed with Allah's energy, then Allah's form refers to "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, which become the universe or "...seven skies...(Al Mulk: 67: 3).

So actually, Allah does not need a form. Allah's form refers to Allah's particle which is very small almost non-existent, to the vastness of Allah's spirit in the form of the universe or "...seven skies...(Al Mulk: 67: 3).

So now if there are Islamic scholars in the world who believe that Allah, who has a certain form, occupies a certain place, then the opinion of these Islamic scholars is not correct.
