ABSTRACT

Before the author writes about Allah is searched through Allah's energy, Allah's particle and Allah's spirit, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets about Allah is searched through Allah's energy, Allah's particle and Allah's spirit, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about Allah is searched through Allah's energy, Allah's particle and Allah's spirit, namely the following verses:

"So when I have perfected the life of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)

"Then He perfected and breathed into Adam His spirit and He made for you hearing, sight and heart, you are very few, grateful. (As Sajdah: 32: 9)

"Angels and spirit ascend to God in a day worth fifty thousand years (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see something that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2: 115)

"And when Moses came at the time We had appointed and God had spoken to him, Moses said: "O my God, appear to me so that I may see You." God said: "You will never be able to see Me, but look at the mountain, if it stays where it is you will surely see Me. When his God appeared to the mountain, He made the mountain crumble and Moses fell unconscious. So after Moses regained consciousness, he said: "Glory be to You, I repent to You and I am the first to believe." (Al A'raaf : 7: 143)

"And We showed Abraham signs of greatness in the sky and the earth and so that he would be among those who believe. (Al An'aam: 6: 75)

"When the night was dark, Abraham saw a star he said: "This is my God", but when the star sank he said: "I do not like those who drown." (Al An'aam: 6: 76)

"Then when Abraham saw the moon rising he said: "This is my God." But after the moon had set, he said: "Indeed, if my God had not guided me, I would have been one of those who went astray." (Al An'aam: 6: 77)

"Then when Abraham saw the sun rising, he said: "This is my God, this is greater." So when the sun set, he said: "O my people, indeed I disassociate myself from what you have associated with each other. (Al An'aam: 6: 78)

"When his God said to Ibrahim: "Submit to obey!" Ibrahim replied: "I submit to obey God of the

worlds." (Al Baqarah: 2: 131)

In an effort to open the veil of Allah's secrets about Allah is searched through Allah's energy, Allah's particle and Allah's spirit, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis Allah is searched through Allah's energy, Allah's particle and Allah's spirit, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

ALLAH IS SEARCHED THROUGH ALLAH'S ENERGY, ALLAH'S PARTICLE AND ALLAH'S SPIRIT

So now, we still continue to focus our minds on uncovering the secrets contained behind the verses: *"...We showed Abraham signs of greatness in the sky and the earth...(Al An'aam: 6: 75)"...Moses said: "O my God, appear to me so that I may see You." God said: "You will never be able to see Me, but look at the mountain, if it stays where it is you will surely see Me. When his God appeared to the mountain, He made the mountain crumble...(Al A' raaf: 7: 143)*

Well, here Allah reveals the secret of how humans search for Allah, by giving a description of how Abraham searched for Allah *"When the night was dark, Abraham saw a star he said: "This is my God"...(Al An'aam: 6: 76)" ...when Abraham saw the moon rising he said: "This is my God."...Al An'aam: 6: 77)"...when Abraham saw the sun rising, he said: "This is my God"...(Al An 'aam: 6: 78)*

So, here, Allah describes how humans seek Allah, exemplified by Abraham.

Well, Abraham sought Allah through "... *signs...in the sky and the earth...*(*Al An'aam : 6: 75*) starting with "...*stars...This is my God...*(*Al An'aam: 6: 76*) then "...*seeing the moon...This is my God...*(*Al An'aam: 6: 77*) then "...*seeing the sun...This is my God...*(*Al An'aam: 6: 78*)

It turns out "...*star...*(*Al An'aam: 6: 76*), "...*moon...*(*Al An'aam: 6: 77*), "...*sun...*(*Al An'aam: 6: 78*) is not Allah, but the spirit of Allah which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed with quarks, quarks are formed with Allah's energy .

Likewise, Moses sought Allah "...*Moses said: "O my God, appear to me so that I may see You." God said: "You will never be able to see Me, but look at the mountain, if it stays where it is you will surely see Me. When his God appeared to the mountain, He made the mountain crumble...*(*Al A' raaf : 7: 143*)

Well, because Moses wanted to seek Allah, Allah commanded him "...*look at the mountain...*(*Al A'raaf : 7: 143*)

So it turns out, in "...*mountains...*(*Al A'raaf: 7: 143*) there is the spirit of God which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms. Likewise, when Allah "...*appeared to the mountain, He made the mountain crumble...*(*Al A' raaf : 7: 143*)

This illustrates that Allah's energy caused "...*the mountain crumble...*(*Al A' raaf : 7: 143*)

Well, here humans will get the picture that to seek Allah through the spirit of Allah "...*I breathed into Adam my spirit...*(*Shaad : 38: 72*) in the form of hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, in the form of energy Allah "...*the mountain crumble...*(*Al A' raaf : 7: 143*), and in the form of particles Allah "...*wherever you turn, there is the face of Allah...*(*Al Baqarah: 2: 115*) .

So actually, Allah must be sought so that humans understand the real Allah.

This means that humans understand the real Allah through the form of Allah in the form of Allah's energy, in the form of Allah's particle, in the form of Allah's spirit which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, atoms oxygen is formed with quarks, quarks are formed with Allah's energy.

Well, it turns out that Muslims all over the world, underestimate looking for Allah. Finally, because almost all Muslims in the world do not understand the real Allah, nearly 1 billion Muslims in the world live in secular countries, meaning that countries that make state laws do not refer to the laws revealed by Allah.

Well, this is the reason why Abraham and Moses tried to find the real God, namely to understand the real Allah through the form of Allah in the form of Allah's energy, in the form of Allah's particle, in the form of Allah's spirit which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed with quarks, quarks are formed with Allah's energy.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: "...*We showed Abraham signs of greatness in the sky and the earth...*(*Al An'aam: 6: 75*)"*...Moses said: "O my God, appear to me so that I may see You." God said: "You will never be able to see Me, but look at the*

mountain, if it stays where it is you will surely see Me. When his God appeared to the mountain, He made the mountain crumble...(Al A' raaf : 7: 143)

Well, here Allah reveals the secret of how humans search for Allah, by giving a description of how Abraham searched for Allah *"When the night was dark, Abraham saw a star he said: "This is my God"...(Al An'aam: 6: 76)" ...when Abraham saw the moon rising he said: "This is my God."...Al An'aam: 6: 77)"...when Abraham saw the sun rising, he said: "This is my God"...(Al An 'aam: 6: 78)*

So, here, Allah describes how humans seek Allah, exemplified by Abraham.

Well, Abraham sought Allah through *"... signs...in the sky and the earth...(Al An'aam : 6: 75)* starting with *"...stars...This is my God...(Al An'aam: 6: 76)* then *"...seeing the moon...This is my God...(Al An'aam: 6: 77)* then *"...seeing the sun...This is my God...(Al An'aam: 6: 78)*

It turns out *"...star...(Al An'aam: 6: 76), "...moon...(Al An'aam: 6: 77), "...sun...(Al An 'aam: 6: 78)* is not Allah, but the spirit of Allah which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed with quarks, quarks are formed with Allah's energy .

Likewise, Moses sought Allah *"...Moses said: "O my God, appear to me so that I may see You." God said: "You will never be able to see Me, but look at the mountain, if it stays where it is you will surely see Me. When his God appeared to the mountain, He made the mountain crumble...(Al A' raaf : 7: 143)*

Well, because Moses wanted to seek Allah, Allah commanded him *"...look at the mountain...(Al A'raaf : 7: 143)*

So it turns out, in *"...mountains...(Al A'raaf: 7: 143)* there is the spirit of God which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms. Likewise, when Allah *"...appeared to the mountain, He made the mountain crumble...(Al A' raaf : 7: 143)*

This illustrates that Allah's energy caused *"...the mountain crumble...(Al A' raaf : 7: 143)*

Well, here humans will get the picture that to seek Allah through the spirit of Allah *"...I breathed into Adam my spirit...(Shaad : 38: 72)* in the form of hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, in the form of energy Allah *"...the mountain crumble...(Al A' raaf : 7: 143)*, and in the form of particles Allah *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115) .*

So actually, Allah must be sought so that humans understand the real Allah.

This means that humans understand the real Allah through the form of Allah in the form of Allah's energy, in the form of Allah's particle, in the form of Allah's spirit which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, atoms oxygen is formed with quarks, quarks are formed with Allah's energy.

Well, it turns out that Muslims all over the world, underestimate looking for Allah. Finally, because almost all Muslims in the world do not understand the real Allah, nearly 1 billion Muslims in the world live in secular countries, meaning that countries that make state laws do not refer to the laws revealed by Allah.

Well, this is the reason why Abraham and Moses tried to find the real God, namely to understand the real Allah through the form of Allah in the form of Allah's energy, in the form of Allah's particle, in the form of Allah's spirit which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed

with quarks, quarks are formed with Allah's energy.
