ABSTRACT

Before I write down the problem of Allah's energy forming quarks, quarks forming atoms, atoms building my spirit, what about Allah who releases Allah's energy, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about Allah's energy forming quarks, quarks forming atoms, atoms building my spirit, what exactly is it about Allah releasing Allah's energy, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about Allah's energy forming quarks, quarks forming atoms, atoms building my spirit, what about Allah releasing Allah's energy, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"He is Allah, Who created all that is on earth for you and He willed the skys, then He made the seven skys. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"Who has created the seven skies in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"The angels and Gabriel ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"Those who when disaster strikes, they say: "Inna lillahi wa innaa ilaihi raaji'uun" Verily we belong to Allah and to Him we shall return. (Al Baqarah: 2: 156)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about Allah's energy forming quarks, quarks forming atoms, atoms building my spirit, how actually with Allah releasing Allah's energy, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that Allah forms Allah's energy, Allah's energy forms quarks, quarks form atoms, atoms make up my spirit, Allah and Allah's energy exchange each other, viewed from the perspective of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ALLAH BRINGS ALLAH'S ENERGY, ALLAH'S ENERGY BACK TO ALLAH

Now, we are still concentrating on uncovering the secret behind the verse: *"Indeed we belong to Allah and to Him we shall return. (Al Baqarah: 2: 156)*

Apparently, here Allah has explained that whatever belongs to Allah, eventually returns to Allah.

Or in other words, Allah forms Allah's energy, then Allah's energy will return to Allah.

That is, Allah's energy and whatever is in the universe is not lost, everything returns to Allah.

So, actually between Allah and Allah's energy can not be separated.

ALLAH AND ALLAH'S ENERGY CANNOT BE SEPARATED

Now we uncover the secret hidden behind the verse: Allah *"...created the seven heavens in layers...(Al Mulk: 67: 3)*

Well, when Allah *"...created the seven skys...(Al Mulk: 67:3)*, Allah used Allah's energy to form quarks, quarks formed atoms, atoms built the universe and everything in it including humans, animals, plants, earth. and everything in it.

When humans, animals, plants, earth, moon, stars, sun all die, then the energy of Allah which is the source of life for humans, animals, plants, earth, moon, stars, sun and the entire universe returns to Allah.

So, the energy of Allah that comes from Allah, finally returns to Allah.

That is, Allah and the energy of Allah cannot be separated.

Now, Allah's energy forms matter, such as quarks, atoms, humans, animals, plants, earth, planets, moon, stars, sun.

If it is time for matter to die and be destroyed, then the energy of Allah that is in it comes out, and is reunited with Allah again.

WHAT REALLY IS ALLAH AND ALLAH'S ENERGY

Now, let's uncover the secret hidden behind the verse: *"...I breathed into him my spirit...(Shaad: 38: 72)*

Where *"... my spirit...(Shaad : 38: 72)* is made up of hydrogen atoms, atoms, oxygen, nitrogen atoms, carbon atoms.

What is blown by Allah is in the form of hydrogen atoms, atoms, oxygen, nitrogen atoms, carbon atoms, which are the building of *"... My spirit... (Shaad: 38: 72)*

Where in the universe or in our sky contains 74% hydrogen atoms, 23% helium atoms, 1% oxygen atoms, 0.5% carbon atoms, 0.5% neon atoms, 0.1% iron atoms and 0.9% other elements.

It turns out that the building *"... my spirit...(Shaad : 38: 72)* in the form of hydrogen atoms, atoms, oxygen, nitrogen atoms, carbon atoms already exists in the universe or in our sky today.

THE SEVEN SKYS AND EVERYTHING IN THEIR CONTENTS ARE THE INFORMATION OF ALLAH THROUGH THE ENERGY OF ALLAH AND MY SPIRIT

Now, it has been revealed that "... *the seven skys in layers...* (*Al Mulk: 67: 3*) are actually the incarnation of Allah through Allah's energy and "... *My spirit...* (*Shaad: 38: 72*)

Therefore, whatever is formed by Allah's energy and "... *My spirit...* (*Shaad: 38: 72*) will return to Allah "*Indeed we belong to Allah and to Him we return.* (*Al Baqarah: 2: 156*)

CONCLUSION

From what has been explained above, it can now be concluded that the secret behind the verse: "*Indeed we belong to Allah and to Him we shall return.* (*Al Baqarah: 2: 156*)

Apparently, here Allah has explained that whatever belongs to Allah, eventually returns to Allah.

Or in other words, Allah forms Allah's energy, then Allah's energy will return to Allah.

That is, Allah's energy and whatever is in the universe is not lost, everything returns to Allah.

So, actually between Allah and Allah's energy can not be separated.

Now we uncover the secret hidden behind the verse: Allah "...*created the seven heavens in layers...*(*Al Mulk: 67: 3*)

Well, when Allah "...*created the seven skys...*(*Al Mulk: 67:3*), Allah used Allah's energy to form quarks, quarks formed atoms, atoms built the universe and everything in it including humans, animals, plants, earth. and everything in it.

When humans, animals, plants, earth, moon, stars, sun all die, then the energy of Allah which is the source of life for humans, animals, plants, earth, moon, stars, sun and the entire universe returns to Allah.

So, the energy of Allah that comes from Allah, finally returns to Allah.

That is, Allah and the energy of Allah cannot be separated.

Now, Allah's energy forms matter, such as quarks, atoms, humans, animals, plants, earth, planets, moon, stars, sun.

If it is time for matter to die and be destroyed, then the energy of Allah that is in it comes out, and is reunited with Allah again.

Now, let's uncover the secret hidden behind the verse: "...*I breathed into him my spirit...*(*Shaad: 38: 72*)

Where "... *my spirit...*(*Shaad : 38: 72*) is made up of hydrogen atoms, atoms, oxygen, nitrogen atoms, carbon atoms.

What is blown by Allah is in the form of hydrogen atoms, atoms, oxygen, nitrogen atoms, carbon atoms, which are the building of "... *My spirit...* (*Shaad: 38: 72*)

Where in the universe or in our sky contains 74% hydrogen atoms, 23% helium atoms, 1% oxygen

atoms, 0.5% carbon atoms, 0.5% neon atoms, 0.1% iron atoms and 0.9% other elements.

It turns out that the building "... *my spirit...*(*Shaad : 38: 72*) in the form of hydrogen atoms, atoms, oxygen, nitrogen atoms, carbon atoms already exists in the universe or in our sky today.

Now, it has been revealed that "... *the seven skys in layers...* (*Al Mulk: 67: 3*) are actually the incarnation of Allah through Allah's energy and "... *My spirit...* (*Shaad: 38: 72*)

Therefore, whatever is formed by Allah's energy and "... *My spirit...* (*Shaad: 38: 72*) will return to Allah "*Indeed we belong to Allah and to Him we return.* (*Al Baqarah: 2: 156*)
