ABSTRACT

Before the author writes about Allah's form is balanced, some are eternal and some are uneternal, most Muslims don't understand, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about Allah's form is balanced, some are eternal and some are uneternal, most Muslims don't understand, based on Deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about Allah's form is balanced, some are eternal and some are uneternal, most Muslims don't understand, namely the verses:

"When I have perfected the life of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him. (Shaad: 38: 72).

"Then When I have perfected the existence of Adam and have breathed into Adam My spirit, then you will submit to him by prostrating (Al Hijr: 15: 29).

"Who created the seven skys in layers. You do not see anything unbalanced in the creation of the Most Gracious. So look again, do you see anything unbalanced? (Al Mulc: 67: 3).

"Allah, there is no god but He Who Lives eternally and continually takes care of, neither sleeps nor sleeps. To Him belongs what is in the sky and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the sky and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255).

In an effort to uncover the secret of Allah about Allah's form is balanced, some are eternal and some are uneternal, most Muslims don't understand, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here I propose hypothesis Allah's form is balanced, some are eternal and some are uneternal, most Muslims don't understand, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with

gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

ALLAH'S FORM IS BALANCED, SOME ARE ETERNAL AND SOME ARE UNETERNAL, MOST MUSLIMS DON'T UNDERSTAND

So now, we still continue to focus our minds on uncovering the secrets contained behind the verses: *"...the seven skys in layers...which...are balanced...(Al Mulk: 67: 3)"* *"...I breathed into Adam My spirit...(Shaad : 38: 72)"* *"...He...breathed into Adam His spirit...(As Sajdah : 32: 9)"* *"...He Who Lives eternally and continually takes care of...(Al Baqarah: 2: 255).*

Apparently, here Allah has declared about Allah's law *"...which is...balanced...(Al Mulk: 67: 3)"* which also applies to Allah's form.

This means that in Allah's form there must be *"...balanced...(Al Mulk: 67: 3)"* between the eternal and uneternal.

Well, Allah has implemented the law of *"...balanced...(Al Mulk: 67: 3)"* into Allah's form.

"...my spirit...(Shaad : 38: 72)" or *"...Allah's spirit...(Shaad : 38: 72)"* is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Where these atoms are not eternal, because their age is up to **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years. After that, these atoms disappear, because the nuclear force that holds the quarks in the atom is lost.

So, when *"...my spirit...(Shaad : 38: 72)"* or *"...Allah's spirit...(Shaad : 38: 72)"* disappears from Allah's form, what remains is only Allah's energy **0.000000000 000000000 000000000 01** grams per cubic cm and the Allah particle is **0.000000000 000000000 000000000 000000000 00000 3335917542091889** grams which has the speed of light **5 475 103 664 604.84** km per second.

Well, it turns out that the law of *"...balanced... (Al Mulk: 67: 3)"* which is in Allah's form is no longer valid, because *"...my spirit...(Shaad : 38: 72)"* or *"...Allah's spirit...(Shaad : 38: 72)"* disappeared from Allah's form.

Now, because the universe is built with *"...my spirit...(Shaad : 38: 72)"* or *"...Allah's spirit...(Shaad : 38:*

72) disappears from Allah's form after reaching the age of 10 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 years, and return to Allah's energy, then a new universe will be created with the energy obtained from this disappearing universe.

Now, it is revealed, the secret of Allah is *"...He Who Lives eternally and continually takes care of... (Al- Baqarah: 2: 255).*

This is still not understood by all Muslims in the world.

CONCLUSION

Based on the explanation above, we can conclude that the secrets contained behind the verses: *"...the seven skys in layers...which...are balanced...(Al Mulk: 67: 3)"...I breathed into Adam My spirit...(Shaad : 38: 72) "...He...breathed into Adam His spirit...(As Sajdah : 32: 9) "...He Who Lives eternally and continually takes care of...(Al Baqarah: 2: 255).*

Apparently, here Allah has declared about Allah's law *"...which is...balanced...(Al Mulk: 67: 3)* which also applies to Allah's form.

This means that in Allah's form there must be *"...balanced...(Al Mulk: 67: 3)* between the eternal and uneternal.

Well, Allah has implemented the law of *"...balanced...(Al Mulk: 67: 3)* into Allah's form.

"...my spirit...(Shaad : 38: 72) or *"...Allah's spirit...(Shaad : 38: 72)* is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Where these atoms are not eternal, because their age is up to 10 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 years. After that, these atoms disappear, because the nuclear force that holds the quarks in the atom is lost.

So, when *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* disappears from Allah's form, what remains is only Allah's energy 0.0000000000 0000000000 0000000000 01 grams per cubic cm and the Allah particle is 0.0000000000 0000000000 0000000000 0000000000 00000 3335917542091889 grams which has the speed of light 5 475 103 664 604.84 km per second.

Well, it turns out that the law of *"...balanced... (Al Mulk: 67: 3)* which is in Allah's form is no longer valid, because *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* disappeared from Allah's form.

Now, because the universe is built with *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* disappears from Allah's form after reaching the age of 10 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 0000000000 years, and return to Allah's energy, then a new universe will be created with the energy obtained from this disappearing universe.

Now, it is revealed, the secret of Allah is *"...He Who Lives eternally and continually takes care of... (Al- Baqarah: 2: 255).*

This is still not understood by all Muslims in the world.
