ABSTRACT

Before I write about the problem of Allah's form, which is full of particles of Allah and my spirit, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about the form of Allah full of particles of Allah and my spirit, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about Allah's form full of particles of Allah and my spirit, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"Praise be to Allah, the Creator of the heavens and the earth, Who made the angels as messengers with wings, two, three and four respectively. Allah adds to His creation what He wills. Verily, Allah has power over all things. (Faathir: 35:1)

"But Allah acknowledges the Qur'an which He has revealed to you. Allah has sent it down with His knowledge; and the angels are witnesses. It is enough for Allah to acknowledge it. (An Nisaa': 4: 166)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)

"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"It is He who made the earth a bed for you and the sky a roof, and He sends down water from the sky, then He produces with it all the fruit as a sustenance for you; therefore do not establish partners with Allah, while you know. Al Baqarah : 2:22)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about Allah's being full of Allah particles and my spirit, I use a base of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis that Allah's form is full of Allah's particles and my spirit, where Allah's particles will remain forever, while my spirit will disappear, from the perspective of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ALLAH'S PARTICLES THAT WILL REMAIN ETERNALLY ALIVE, WHILE MY SPIRIT CONTAINS HYDROGEN ATOMS, CARBON ATOMIES, NITROGEN ATOMS AND OXYGEN ATOMS WILL BE LOST BECOME ALLAH'S ENERGY

Now, we are still concentrating on uncovering the secrets contained behind the verse: *"...I breathed into him my spirit...(Shaad: 38:72)"... I am near...(Al Baqarah: 2: 186) "...closer to him than his jugular vein (Qaf: 50:16)*

It turns out that God's particle which is almost zero in size, **0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9** grams will live eternally, while *"...my spirit...(Shaad: 38:72)* will be lost, returning to the energy of Allah.

Where did this Allah particle come from?

The Allah particle is born through the energy of Allah. Where the magnitude of Allah's energy is **0.0000000000 000000000 000000000 01** gram per cubic cm

IN ALLAH'S FORM IS FULL OF ALLAH PARTICLES AND MY SPIRIT

Now, why in the form of Allah is full of Allah's particles and *"...my spirit...(Shaad : 38: 72) ?*

Because, Allah's particles will make Allah's form live eternally, while *"...my spirit...(Shaad: 38:72)* which is built by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear, returning to Allah's energy.

WITH ALLAH'S PARTICLES IN ALLAH'S FORM, ALLAH WILL BE ETERNAL

Allah's particles will still exist in the form of Allah, which makes Allah eternal *"...He Who Lives eternally and continuously takes care of...(Al Baqarah: 2:255)* As for *"...my spirit...(Shaad: 38 : 72)* which is built by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear, returning to the energy of Allah.

Why won't the Allah particle disappear?

The answer is

Hidden in the secret behind the verse: *"...He Who Lives eternally...(Al Baqarah: 2:255)*

That is, because Allah's particles live eternally, then Allah's form which is full of Allah's particles will live eternally.

Now the carriage is done, the secret that is hidden behind the verse: "*...He Who Lives eternally again continuously takes care of... (Al Baqarah: 2:255)*" because in the form of Allah is full of particles of Allah.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: "*...I breathed into him my spirit...(Shaad: 38:72)"... I am near...(Al Baqarah: 2: 186) "...closer to him than his jugular vein (Qaf: 50:16)*"

It turns out that God's particle which is almost zero in size, **0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9** grams will live eternally, while "*...my spirit...(Shaad: 38:72)*" will be lost, returning to the energy of Allah.

Where did this Allah particle come from?

The Allah particle is born through the energy of Allah. Where the magnitude of Allah's energy is **0.0000000000 000000000 000000000 01** gram per cubic cm

Now, why in the form of Allah is full of Allah's particles and "*...my spirit...(Shaad : 38: 72) ?*"

Because, Allah's particles will make Allah's form live eternally, while "*...my spirit...(Shaad: 38:72)*" which is built by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear, returning to Allah's energy.

Allah's particles will still exist in the form of Allah, which makes Allah eternal "*...He Who Lives eternally and continuously takes care of...(Al Baqarah: 2:255)*" As for "*...my spirit...(Shaad: 38 : 72)*" which is built by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear, returning to the energy of Allah.

Why won't the Allah particle disappear?

The answer is

Hidden in the secret behind the verse: "*...He Who Lives eternally...(Al Baqarah: 2:255)*"

That is, because Allah's particles live eternally, then Allah's form which is full of Allah's particles will live eternally.

Now the carriage is done, the secret that is hidden behind the verse: "*...He Who Lives eternally again continuously takes care of... (Al Baqarah: 2:255)*" because in the form of Allah is full of particles of Allah.
