**ABSTRACT**

Previously, the author asked forgiveness from Allah SWT. Here the author tries to open the veil about whether it is true that the seven skys interact and touch each other, the earth is the touch point of the seven skys, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

In the Qur'an there are verses that the author considers to be able to reveal the secret about whether it is true that the seven skys interact and touch each other, the earth is the touch point of the seven skys, namely the verses:

*"And We put before them a wall and behind them a wall and We covered them so that they could not see (Yaasiin: 36: 9)*

*"at Sidratil Muntaha" (An Najm: 53:14), "(Muhammad saw Jibril) when Sidratil Muntaha was overwhelmed by something that covered him". (An Najm: 53:16)*

*"Nearby there is a paradise to live in (An Najm: 53:15)*

*"His sight (Muhammad) did not turn away from what he saw and did not go beyond it." (An Najm: 53:17)*

*"And indeed Muhammad saw Gabriel on the bright horizon" (At Takwiir: 81: 23)*

*"So He made it seven skys in two periods. He revealed in each sky its affairs. And We adorn the near sky with bright stars and We take care of it as well as possible. Such is the provision of the Mighty, All-Knowing. (Fushshilat :41:12)*

*"O you who believe, protect yourselves and your families from a hell fire whose fuel is humans and stones; its guardians are angels who are harsh, harsh, and do not disobey Allah in what He commands them and always do what He is commanded. (At Tahrir: 66:6)*

*"And hasten to forgiveness from your Lord and to Paradise, whose breadth is as wide as the skys and the earth, which is prepared for those who are pious." (Ali 'Imran: 3:133)*

*"Indeed he has seen some of the greatest signs of his Lord. (An Najm: 53: 18)*

*"Allah created the skys and the earth with rights. Verily in that are the signs of Allah's power for the believers (Al 'Ankabuut: 29: 44)*

*"And We did not create the skys and the earth and everything between them by playing around (Al Anbiyaa ': 21:16)*

*"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)*

*"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

Where in an effort to open the veil about whether it is true that the seven skys interact and touch each other, the earth is the touch point of the seven skys, the author based on deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here the author proposes the hypothesis that the seven heavens interact and touch each other, the earth is the touch point of the seven heavens, based on Deoxyribonucleic acid (DNA).

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **THE SEVEN SKYS INTERACT AND TOUCH EACH OTHER, THE EARTH IS THE TOUCHING POINT OF THE SEVEN SKYS**

Now, we are still trying to focus our minds to reveal the secrets contained in the verse: *"... He made it seven heavens... We decorated the sky close to, the bright stars... (Fushshilat: 41:12) "...Muhammad saw Gabriel on the bright horizon" (At Takwiir: 81: 23) "at Sidratil Muntaha" (An Najm: 53: 14), "... when Sidratil Muntaha was overwhelmed by something that covered him". (An Najm: 53:16)"nearby is paradise...(An Najm: 53:15)*

Apparently, here Allah has declared *"... Muhammad saw Jibril on the bright horizon" (At Takwiir: 81: 23) "in Sidratil Muntaha" (An Najm: 53: 14) "nearby there is paradise ... (An Najm: 53:15)*

Well, because the Prophet Muhammad saw and Jibril transformed into a perfect human being, then the Prophet Muhammad saw saw Jibril.

Now the question arises,

Why did the Prophet Muhammad see Jibril?

The answer is in the secret behind the verse: *"... Muhammad saw Jibril on the bright horizon" (At Takwiir: 81: 23) "at Sidratil Muntaha" (An Najm: 53: 14)*

It turns out, *"... a bright horizon" (At Takwiir: 81: 23) "in Sidratil Muntaha" (An Najm: 53: 14) "Nearby there is paradise ... (An Najm: 53: 15)* is on earth .

Why *"...Sidratil Muntaha" (An Najm: 53:14)* which *"nearby is paradise...(An Najm: 53:15)*

is on earth?

Because the sky 2 in which there is "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*" interacts and comes into contact with the sky 1 in which there is the earth, the sun and other planets that revolve around the sun.

So, actually, sky 2 to sky 7 interact and come into contact with sky 1 or "...*the sky is close to the bright stars...(Fushshilat: 41:12)*" on earth.

Sky 2 through sky 7 is invisible to the human eye or transparent. This means that the human eye cannot see it. Due to the limited field of view of the human eye, the human eye can only see light in the region of the electromagnetic spectrum between 430 and 740 nanometers. If there is light in the electromagnetic spectrum below 430 nanometers and light in the electromagnetic spectrum above 740 nanometers, the human eye cannot see the light.

Why sky 2 to sky 7 is transparent?

Because in the "...*seven skys...(Fushshilat : 41:12)*" contains 72% dark energy, 23% dark matter and 5% are neutrinos or elementary particles that have very, very small masses) and atoms. (**Universe, Martin Rees, Dorling Kindersley Limited, London, 2005**).

So, in fact, the most abundant is dark energy, or Allah's energy, 72%, then 23% dark matter, where this material is invisible to the human eye, the remaining 5% is atoms such as hydrogen atoms, carbon atoms, oxygen atoms, , nitrogen atoms and other atoms

Well, sky 2 to sky 7 contains 23% dark matter, where this material is invisible to the human eye.

Meanwhile, in the sky 1, where the earth and sun are located, which contains hydrogen atoms, carbon atoms, oxygen atoms, nitrogen atoms and other atoms can be seen by the human eye.

Now another question arises,

Why in sky 2 there is "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*" ?

The answer is, whatever is in sky 2 to sky 7 is an imitation of whatever is in sky 1.

So, actually, "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*" is on earth.

Or in other words, "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*" what is on earth is original. While "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*" which is in the sky 2 to sky 7 is an imitation.

Why, everything in sky 1 must be made a copy, where the imitation is stored in sky 2 to sky 7?

Because, whatever is in sky 1 nothing is lost, everything must have a copy, where the copy is stored in sky 2 to sky 7.

Why is sky 2 to sky 7 invisible to the human eye?

Because in sky 2 to sky 7 contains 23% dark matter, where dark matter is invisible to the human eye. Although anything in the sky 1 can be seen, but after making an imitation, it is not visible to the human eye, because the imitation uses dark matter.

So, "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*" on earth, made an imitation, where the imitation is stored in the sky 2 until the sky 7, then the imitation is invisible to the human eye.

Now, one night on the 27th of Rajab in the prophetic year 11 coincided with the 8th of March 620 AD The Prophet Muhammad saw mi'raj, had entered the 2nd sky, but the Prophet Muhammad saw, did not understand and did not know that in fact, the Prophet Muhammad saw was already in the sky 2 in which there is Sidratil muntaha and paradise and hell.

Now the question arises,

Why is Sidratil mutaha, paradise and hell on earth and in sky 2 ?

The answer is "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*" which is on earth and its imitation which is stored in sky 2 to 7, the same -both on earth. Because sky 1 and sky 2 interact and touch each other on earth. Sky 1 and sky 2 touch near Masjidil Aqsa.

So, actually, when the Prophet Muhammad saw did Mi'raj, it was not necessary to go to sky 2, but simply to go through the door where sky 1 and sky 2 touched, namely near Masjidil Aqsa.

This is the mystery of Allah, which most people still do not understand. So, the Prophet Muhammad saw when Miraj walked into the door where sky 1 and sky 2 touched, namely near Masjidil Aqsa. Where in the sky 2 there is an imitation "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*"

This is the secret of Allah that was shown to the Prophet Muhammad saw "...*he has seen some of the greatest signs of his Lord. (An Najm: 53: 18)*"

## CONCLUSION

Based on what has been described above, we can conclude that the secrets contained in the verse: "... *He made it seven heavens... We decorated the sky close to, the bright stars... (Fushshilat: 41:12)*" "...*Muhammad saw Gabriel on the bright horizon*" (*At Takwiir: 81: 23*) "*at Sidratil Muntaha*" (*An Najm: 53: 14*), "... *when Sidratil Muntaha was overwhelmed by something that covered him*". (*An Najm: 53:16*) "*nearby is paradise... (An Najm: 53:15)*"

Apparently, here Allah has declared "... *Muhammad saw Jibril on the bright horizon*" (*At Takwiir: 81: 23*) "*in Sidratil Muntaha*" (*An Najm: 53: 14*) "*nearby there is paradise ... (An Najm: 53:15)*"

Well, because the Prophet Muhammad saw and Jibril transformed into a perfect human being, then the Prophet Muhammad saw saw Jibril.

Now the question arises,

Why did the Prophet Muhammad see Jibril?

The answer is in the secret behind the verse: "... *Muhammad saw Jibril on the bright horizon*" (*At Takwiir: 81: 23*) "*at Sidratil Muntaha*" (*An Najm: 53: 14*)

It turns out, "... a bright horizon" (At Takwiir: 81: 23) "in Sidratil Muntaha" (An Najm: 53: 14) "Nearby there is paradise ... (An Najm: 53: 15) is on earth .

Why "...Sidratil Muntaha" (An Najm: 53:14) which "nearby is paradise...(An Najm: 53:15) is on earth?

Because the sky 2 in which there is "... Sidratil Muntaha" (An Najm: 53: 14) which "nearby is paradise ... (An Najm: 53: 15) interacts and comes into contact with the sky 1 in which there is the earth, the sun and other planets that revolve around the sun.

So, actually, sky 2 to sky 7 interact and come into contact with sky 1 or "...the sky is close to the bright stars...(Fushshilat: 41:12) on earth.

Sky 2 through sky 7 is invisible to the human eye or transparent. This means that the human eye cannot see it. Due to the limited field of view of the human eye, the human eye can only see light in the region of the electromagnetic spectrum between 430 and 740 nanometers. If there is light in the electromagnetic spectrum below 430 nanometers and light in the electromagnetic spectrum above 740 nanometers, the human eye cannot see the light.

Why sky 2 to sky 7 is transparent?

Because in the "...seven skys...(Fushshilat : 41:12) contains 72% dark energy, 23% dark matter and 5% are neutrinos or elementary particles that have very, very small masses) and atoms. (Universe, Martin Rees, Dorling Kindersley Limited, London, 2005).

So, in fact, the most abundant is dark energy, or Allah's energy, 72%, then 23% dark matter, where this material is invisible to the human eye, the remaining 5% is atoms such as hydrogen atoms, carbon atoms, oxygen atoms. , nitrogen atoms and other atoms

Well, sky 2 to sky 7 contains 23% dark matter, where this material is invisible to the human eye.

Meanwhile, in the sky 1, where the earth and sun are located, which contains hydrogen atoms, carbon atoms, oxygen atoms, nitrogen atoms and other atoms can be seen by the human eye.

Now another question arises,

Why in sky 2 there is "... Sidratil Muntaha" (An Najm: 53: 14) which "nearby is paradise ... (An Najm: 53: 15) ?

The answer is, whatever is in sky 2 to sky 7 is an imitation of whatever is in sky 1.

So, actually, "... Sidratil Muntaha" (An Najm: 53: 14) which "nearby is paradise ... (An Najm: 53: 15) is on earth.

Or in other words, "... Sidratil Muntaha" (An Najm: 53: 14) which "nearby is paradise ... (An Najm: 53: 15) what is on earth is original. While "... Sidratil Muntaha" (An Najm: 53: 14) which "nearby is paradise ... (An Najm: 53: 15) which is in the sky 2 to sky 7 is an imitation.

Why, everything in sky 1 must be made a copy, where the imitation is stored in sky 2 to sky 7?

Because, whatever is in sky 1 nothing is lost, everything must have a copy, where the copy is stored

in sky 2 to sky 7.

Why is sky 2 to sky 7 invisible to the human eye?

Because in sky 2 to sky 7 contains 23% dark matter, where dark matter is invisible to the human eye. Although anything in the sky 1 can be seen, but after making an imitation, it is not visible to the human eye, because the imitation uses dark matter.

So, "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*" on earth, made an imitation, where the imitation is stored in the sky 2 until the sky 7, then the imitation is invisible to the human eye.

Now, one night on the 27th of Rajab in the prophetic year 11 coincided with the 8th of March 620 AD The Prophet Muhammad saw mi'raj, had entered the 2nd sky, but the Prophet Muhammad saw, did not understand and did not know that in fact, the Prophet Muhammad saw was already in the sky 2 in which there is Sidratil muntaha and paradise and hell.

Now the question arises,

Why is Sidratil mutaha, paradise and hell on earth and in sky 2 ?

The answer is "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*" which is on earth and its imitation which is stored in sky 2 to 7, the same -both on earth. Because sky 1 and sky 2 interact and touch each other on earth. Sky 1 and sky 2 touch near Masjidil Aqsa.

So, actually, when the Prophet Muhammad saw did Mi'raj, it was not necessary to go to sky 2, but simply to go through the door where sky 1 and sky 2 touched, namely near Masjidil Aqsa.

This is the mystery of Allah, which most people still do not understand. So, the Prophet Muhammad saw when Miraj walked into the door where sky 1 and sky 2 touched, namely near Masjidil Aqsa. Where in the sky 2 there is an imitation "... *Sidratil Muntaha*" (*An Najm: 53: 14*) which "*nearby is paradise ... (An Najm: 53: 15)*"

This is the secret of Allah that was shown to the Prophet Muhammad saw "*...he has seen some of the greatest signs of his Lord. (An Najm: 53: 18)*"
