ABSTRACT

Before I write down the problem, based on what, Allah created man with his desire, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about, based on what, Allah created humans according to his desire, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool based on what, Allah created man with his desire, namely the verses:

"And We did not send before you an apostle and not a prophet, but when he has a desire, Satan also introduces temptations against that desire, Allah removes what the devil puts in, and Allah strengthens His verses. And Allah is Knowing, Wise, (Al Hajj: 22: 52)

"And as for those who fear the greatness of their Lord and refrain from their lustful desires, (An Naazi'aat: 79: 40)

"...Allah knows that you cannot restrain your desire, therefore Allah forgives you and forgives you. So now interfere with them and follow what Allah has ordained for you...(Al Baqarah 2:187)

"Say to the believing men: "Let them hold their gazes and guard their private parts; that is purer for them, verily Allah is Knowing of what they do." (An Nur: 24:30)

"O mankind, verily We created you from a male and a female and made you into nations and tribes so that you may know one another. Verily, the most honorable of you in the sight of Allah is the one who is most pious among you. Verily Allah is All-Knowing, All-Knowing. (Al Hujuraat: 49:13)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about what Allah created man with his will, I used the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that Allah created man with his desire to develop into a family, society and nation from the basic point of Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WHAT IS DESIRE

Now, let's continue to concentrate on solving the secret contained behind the verse: *"... We did not send before you an apostle and not a prophet, but if he has a desire, even Satan puts temptations against that desire, Allah removes it. what the devil put in... (Al Hajj: 22: 52)*

Apparently, Allah has created man and *"...I breathed into him my spirit...(Shaad: 38:72)* through which *"...My spirit...(Shaad: 38:72)* was born desire.

Well, it is this desire, which is the source for humans to live and develop.

THE DEVIL AND SATAN ATTEMPT TO AFFECT HUMAN DESIRE

Now we dig the secret behind the verse: *"... if he has a desire, even the devil enters temptations against that desire, Allah removes what the devil put in... (Al Hajj: 22: 52)*

Apparently, the devil and the satan know that Allah has created humans through *"...my spirit... (Shaad: 38:72)* which gives birth to human desires.

Through this human desire the devil and the satan continue to try to influence humans.

But of course Allah *"... Allah removes what the devil put in... (Al Hajj: 22: 52)*

WITH THE EXIST OF DESIRE, HUMANS DEVELOP BUILDING FAMILY, COMMUNITY AND NATION

Now, because of this human desire, humans develop, build families, communities and nations.

Without human desire, it is impossible for humans to live and develop.

Of course, this desire that is not influenced by the influence of the devil and the satan will build families, communities and nations according to what has been outlined by Allah.

We uncover the secret hidden behind the verse: *"... verily We created you from a male and a female and made you into nations and tribes so that you may know one another... (Al Hujuraat: 49:13)*

Well, it turns out that with human desire, *"...nations and...tribes... (Al Hujuraat: 49:13)* were born.

ALLAH KNOWS HUMAN'S DESIRE, THEN ALLAH FORGIVES HUMANS

Now, we continue to unravel the secret behind the verse: *"... Allah knows that you cannot restrain your desire, therefore Allah forgives you and forgives you. So now interfere with them and follow what Allah has ordained for you...(Al Baqarah 2:187)*

Apparently, Allah forgives humans who have desires with their wives at night during the fasting month.

Why does Allah forgive humans who have desires with their wives on the night of the fasting month?

The answer is

There is a secret behind the verse: *"... Allah knows that you cannot restrain your desire... (Al Baqarah 2: 187)*

Now the secret hidden behind the verse has been revealed: *"... Allah knows that you cannot restrain your desire, therefore Allah forgives you and forgives you... (Al Baqarah 2: 187)* and the verse: *"... Satan also inserts temptations against that desire, Allah removes what the devil puts in... (Al Hajj: 22: 52)*

CONCLUSION

Based on the description above, we can conclude that the secret contained behind the verse: *"... We did not send before you an apostle and not a prophet, but if he has a desire, even Satan puts temptations against that desire, Allah removes it. what the devil put in... (Al Hajj: 22: 52)*
