**ABSTRACT**

Before I write down the problem because in Allah's form there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then those atoms will disappear, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about because in Allah's form there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then those atoms will disappear, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about because in Allah's form there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then those atoms will disappear, namely the following verses:

*"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)*

*"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)*

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)*

*"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)*

*"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)*

*"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

*"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)*

*"The angels and spirit ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)*

*"On the day the earth will be replaced with another earth and sky, and they will all gather before the presence of Allah, the One, the All-Mighty (Ibrahim: 14:48)*

*"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

*And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Wise and All-Knowing. (Al Baqarah: 2: 115)*

*"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"And when Moses came at our appointed time and the Lord had spoken to him, Moses said: "My Lord, show me so that I can see You." The Lord said: "You will never be able to see Me, but behold. to the hill, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses regained consciousness, he said: "Glory be to you. , I repent to You and I am the first to believe." (Al A'raaf: 7: 143)*

*"Didn't We create you from despicable water (Al Mursalaat: 77:20)*

*"Then We made the essence of semen in a solid place. (Al Mu'minuun: 23:13)*

*"And verily We have created man from an essence of clay. (Al Mu'minuun: 23:12)*

*"And does man not notice that We created him from a drop of water, then suddenly he becomes a real challenger (Yaasiin: 36: 77)*

*"And it is Allah Who has brought you to life, then caused you to die, then brought you to life, verily the human being is very much denying the favor. (Al Hajj: 22: 66)*

*"Those who when disaster strikes, they say: "Inna lillahi wa innaa ilaihi raaji'uun" (Indeed we belong to Allah and to Him we shall return) (Al Baqarah: 2: 156)*

*"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"And it is Allah Who has brought you to life, then caused you to die, then brought you to life, verily the human being is very much denying the favor. (Al Hajj: 22: 66)*

In an effort to open the veil of Allah's secret about because in Allah's form there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then those atoms will disappear, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose a hypothesis because in Allah's form there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then those atoms will disappear from Allah's form, from the point of view of Deoxyribonucleic acid (DNA).

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **DEOXYRIBONUCLIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **IN ALLAH'S FORM THERE ARE HYDROGEN ATOM, CARBON ATOM, NITROGEN ATOM AND OXYGEN ATOM**

Now, we are still concentrating on uncovering the secrets contained behind the verse: *"...I perfected the incident and I breathed into him my spirit...(Shaad: 38:72)*

It turns out that in the form of Allah contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Why in the form of Allah there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms?

The answer is hidden in the secret behind the verse: *"... I... have breathed into it my spirit... (Al Hijr: 15: 29)*

Well, apparently in *"...my spirit...(Al Hijr: 15: 29)* there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

How can hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms enter into the form of Allah, when these atoms will disappear?

The answer is

It is hidden in the secret behind the verse: *"...I perfected the event and I breathed into him my spirit... (Shaad: 38: 72)*

Well, it means that here Allah created Adam after perfecting the events, then *"... blow on him my spirit... (Shaad: 38: 72)*

What was breathed into Adam was *"... my spirit... (Shaad: 38: 72)* which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Why *"... my spirit... (Shaad: 38: 72)* contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms?

The answer is hidden behind the verse: *"...He perfected and breathed into it His spirit and He made for you hearing, sight and heart... (As Sajdah: 32: 9)*

Well, here Allah has declared to humans that *"... my spirit... (Shaad: 38: 72)* is the source of human life, namely with the formation of *"...hearing, seeing and heart...(As Sajdah: 32 :9)*

Well, *"...hearing, seeing and heart...(As Sajdah: 32:9)* is formed based on the basic pattern of Deoxyribonucleic acid (DNA), which according to human DNA consists of 32.20% carbon atoms, 25.43% atoms nitrogen, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, actually *"...my spirit... (Shaad: 38:72)* is a building block of DNA. Because *"... my spirit... (Shaad : 38: 72)* is a building block of DNA, then in *"... my spirit... (Shaad : 38: 72)* contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen.

### **THE HYDROGEN ATOM, CARBON ATOM, NITROGEN ATOM AND OXYGEN ATOM IN ALLAH ARE THE SAME AS THE HYDROGEN, CARBON ATOM, NITROGEN ATOM AND OXYGEN ATOM IN THE HUMAN BODY**

Now, because Allah *"...has created the seven skys in layers...(Al Mulk: 67:3)* with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then all the contents in the seven skys are included in the human body. are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms

So, because Allah breathed *"... my spirit... (Shaad: 38: 72)* into all that is in the seven skyss, both into living things and into inanimate objects, the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms must be fully available in the form of Allah.

### **HYDROGEN ATOM, CARBON ATOM, NITROGEN ATOM AND OXYGEN ATOM WILL BE LOST, BACK BECOME ALLAHS ENERGY**

Whatever is in the seven skys and all that is in it is not lost. That is, when hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are transformed into Allah's energy, then those atoms are no longer in shape, lost.

So, Allah's energy is derived from hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms that turn into Allah's energy.

## **IN ALLAH'S FORM THERE IS ALLAH'S ENERGY THAT COME FROM HYDROGEN ATOMS, CARBON ATOMS, NITROGEN ATOMS AND OXYGEN ATOMS THAT CHANGE INTO ALLAH'S ENERGY**

Now it has been revealed, the secret that is hidden behind the verse: *"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced ... (Al Mulk: 67: 3)*

*"...balanced...(Al Mulk: 67: 3)* meaning, when Allah's energy becomes an atom, then the atom returns to Allah's energy, in a balanced state, nothing is lost.

### **CONCLUSION**

Based on the description above, we can conclude that the secrets contained behind the verse: *"...I perfected the incident and I breathed into him my spirit...(Shaad: 38:72)*

It turns out that in the form of Allah contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Why in the form of Allah there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms?

The answer is hidden in the secret behind the verse: *"... I... have breathed into it my spirit... (Al Hijr: 15: 29)*

Well, apparently in *"...my spirit...(Al Hijr: 15: 29)* there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

How can hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms enter into the form of Allah, when these atoms will disappear?

The answer is

It is hidden in the secret behind the verse: *"...I perfected the event and I breathed into him my spirit...(Shaad: 38: 72)*

Well, it means that here Allah created Adam after perfecting the events, then *"... blow on him my spirit... (Shaad: 38: 72)*

What was breathed into Adam was *"... my spirit... (Shaad: 38: 72)* which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Why *"... my spirit... (Shaad: 38: 72)* contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms?

The answer is hidden behind the verse: *"...He perfected and breathed into it His spirit and He made for you hearing, sight and heart... (As Sajdah: 32: 9)*

Well, here Allah has declared to humans that *"... my spirit... (Shaad: 38: 72)* is the source of human life, namely with the formation of *"...hearing, seeing and heart...(As Sajdah: 32 :9)*

Well, *"...hearing, seeing and heart...(As Sajdah: 32:9)* is formed based on the basic pattern of Deoxyribonucleic acid (DNA), which according to human DNA consists of 32.20% carbon atoms,

25.43% atoms nitrogen, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, actually "...*my spirit...* (*Shaad: 38:72*) is a building block of DNA. Because "... *my spirit...* (*Shaad : 38: 72*) is a building block of DNA, then in "... *my spirit...* (*Shaad : 38: 72*) contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen.

Now, because Allah "...*has created the seven skys in layers...*(*Al Mulk: 67:3*) with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then all the contents in the seven skys are included in the human body. are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms

So, because Allah breathed "... *my spirit...* (*Shaad: 38: 72*) into all that is in the seven skyss, both into living things and into inanimate objects, the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms must be fully available in the form of Allah.

Whatever is in the seven skys and all that is in it is not lost. That is, when hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are transformed into Allah's energy, then those atoms are no longer in shape, lost.

So, Allah's energy is derived from hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms that turn into Allah's energy.

Now it has been revealed, the secret that is hidden behind the verse: "*Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced ... (Al Mulk: 67: 3)*

"...*balanced...*(*Al Mulk: 67: 3*) meaning, when Allah's energy becomes an atom, then the atom returns to Allah's energy, in a balanced state, nothing is lost.
