**ABSTRACT**

Before the author writes the problem because Allah's mind is reflected through human's thinking, so to understand the real Allah, humans must use the mind, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about because Allah's mind is reflected through human's thinking, so to understand the real Allah, humans must use the mind, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about because Allah's mind is reflected through human's thinking, so to understand the real Allah, humans must use the mind, namely the following verses:

*"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"And verily We have created man from an essence of clay. (Al Mu'minuun: 23:12)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill and let them believe in Me, so that they will always be in truth.(Al Baqarah: 2:186)*

*"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)*

*"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

*"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)*

*"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Wise, All-Knowing. (Al Baqarah: 2:115)*

*"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)*

*"And indeed We know that they say: "Indeed the Qur'an was taught to him by a human." Whereas the language of the people they accuse of learning to him is the language of 'Ajam, while the Qur'an is in clear Arabic. (An Nahl: 16: 103 )*

*"Those who were earlier, were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has provided for them paradises where rivers flow in them. forever. They will abide in it. That is a great victory. (At Taubah : 9: 100)*

*"And He taught Adam all the names, then presented them to the Angels and said: "Name me the names of these things if you are true, those who are true!" (Al Baqarah: 2:31)*

*Allah said: "O Adam, tell them the names of these things." So after he told them the names of these objects, Allah said: "Have I not told you that I know the secrets of the heavens and the earth and know what they are. what you give birth to and what do you hide?" (Al Baqarah: 2:33)*

In an effort to open the veil of Allah's secret about because Allah's mind is reflected through human's thinking, so to understand the real Allah, humans must use the mind, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here the author proposes a hypothesis because because Allah's mind is reflected through human's thinking, so to understand the real Allah, humans must use the mind, in the seven skys that have a balance with Allah in thinking are humans, to understand the real Allah must use the mind, based on Deoxyribonucleic acid (DNA)

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **DEOXYRIBONUCLIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and

contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

### **BECAUSE ALLAH'S MIND IS REFLECTED THROUGH HUMAN'S THINKING, THEN TO UNDERSTAND THE REAL ALLAH, HUMANS MUST USE THE MIND**

Well now, we are still concentrating on unraveling the secrets contained behind the verses: *"... He taught Adam all the names... (Al Baqarah: 2: 31) "Allah said: "O Adam, inform to them the names of these things"...(Al Baqarah: 2:33)...I breathed on him a spirit...(Shaad: 38:72)"...seven skys... balanced... (Al Mulk : 67:3)*

Apparently, Allah has declared *"... Allah taught Adam all the names... (Al Baqarah: 2: 31)"... the seven skys... balanced... (Al Mulk: 67: 3)*

Now the question arises,

Why *"... Allah taught Adam all the names... (Al Baqarah: 2: 31) ?*

The answer is in the secret behind the verse: *"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth... (Ali 'Imran: 3:191)*

Well, because humans have been given one tool, namely the brain, which consists of **65 000 000 000** nerve cells, to be used for thinking and *"...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)*

This is, the only creature of Allah, who is called human, in the entire of the seven skys and all that is in them, has obtained the status of the highest position, among other creatures of Allah.

Because of this high status, Allah has declared that Allah is balanced in thinking with humans, as the seven skys are *"... balanced... (Al Mulk: 67: 3)*

Now Allah has also declared *"... I breathed into him my spirit... (Shaad: 38: 72)"... the seven skys... balanced... (Al Mulk: 67: 3)*

It turns out, since the first time Allah created man, in this case Adam, it turns out that Allah has implanted what is in Allah's form, namely the building of atoms which is the basis of the building of the seven skys and all of their contents.

Now, it is these atoms, called hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, which form the building of *"...my spirit...(Shaad: 38:72) or "...Allah's spirit... (Shaad : 38:72)*

**“...my spirit...(Shaad: 38:72) or “...Allah's spirit... (Shaad : 38:72) is what makes the building 65 000 000 000 nerve cells in the human brain.**

Or in other words, Allah's mind is reflected through human's thinking.

Now, with Allah's mind is reflected through human's thinking, then human' mind is **“...balanced... (Al Mulk: 67:3)** with Allah's mind. Where in human's thinking there is Allah's mind.

Therefore, Allah's mind can be in the form of revelation that is directly in the human's thinking, **“...I breathed into him my spirit...(Shaad: 38: 72)**

That is, Allah's mind is in the human's thinking, through the **65 0000 000 000** neural network of the human brain. Or in other words, Allah's mind is in the human brain which is built by **“...my spirit... (Shaad: 38:72) or “...Allah's spirit... (Shaad : 38:72),** which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, Allah has raised human to a balanced level in terms of thinking between Allah and human. Where Allah gives a lesson **“... about the creation of the skys and the earth... (Ali 'Imran: 3: 191)** then humans reflect Allah's mind about **“... the creation of the skys and the earth... (Ali 'Imran: 3: 191 )" Allah said: "O Adam, tell them the names of these things." So... he told them the names of these things... (Al Baqarah: 2: 33)**

This is the secret of Allah, where Allah and humans are **“...balanced... (Al Mulk: 67: 3)** in thinking. This means that to understand the real Allah must go through thinking **“...they think about the creation of the skys and the earth...(Ali 'Imran: 3:191)" O our Lord, You did not create this in vain...(Ali 'Imran: 3:191)**

## **CONCLUSION**

Based on the description above, we can conclude that the secrets contained behind the verses: **“... He taught Adam all the names... (Al Baqarah: 2: 31) "Allah said: "O Adam, inform to them the names of these things"...(Al Baqarah: 2:33)...I breathed on him a spirit...(Shaad: 38:72)"...seven skys... balanced... (Al Mulk : 67:3)**

Apparently, Allah has declared **“... Allah taught Adam all the names... (Al Baqarah: 2: 31)"... the seven skys... balanced... (Al Mulk: 67: 3)**

Now the question arises,

Why **“... Allah taught Adam all the names... (Al Baqarah: 2: 31) ?**

The answer is in the secret behind the verse: **“Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth... (Ali 'Imran: 3:191)**

Well, because humans have been given one tool, namely the brain, which consists of **65 000 000 000** nerve cells, to be used for thinking and **“...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)**

This is, the only creature of Allah, who is called human, in the entire of the seven skys and all that is in them, has obtained the status of the highest position, among other creatures of Allah.

Because of this high status, Allah has declared that Allah is balanced in thinking with humans, as the seven skys are **“... balanced... (Al Mulk: 67: 3)**

Now Allah has also declared "*... I breathed into him my spirit... (Shaad: 38: 72) "... the seven skys... balanced... (Al Mulk: 67: 3)*

It turns out, since the first time Allah created man, in this case Adam, it turns out that Allah has implanted what is in Allah's form, namely the building of atoms which is the basis of the building of the seven skys and all of their contents.

Now, it is these atoms, called hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, which form the building of "*...my spirit...(Shaad: 38:72)* or "*...Allah's spirit... (Shaad : 38:72)*

*“...my spirit...(Shaad: 38:72)* or "*...Allah's spirit... (Shaad : 38:72)* is what makes the building **65 000 000 000** nerve cells in the human brain.

Or in other words, Allah's mind is reflected through human's thinking.

Now, with Allah's mind is reflected through human's thinking, then human' mind is "*...balanced... (Al Mulk: 67:3)* with Allah's mind. Where in human's thinking there is Allah's mind.

Therefore, Allah's mind can be in the form of revelation that is directly in the human's thinking, "*...I breathed into him my spirit...(Shaad: 38: 72)*

That is, Allah's mind is in the human's thinking, through the **65 0000 000 000** neural network of the human brain. Or in other words, Allah's mind is in the human brain which is built by "*...my spirit... (Shaad: 38:72)* or "*...Allah's spirit... (Shaad : 38:72)*, which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, Allah has raised human to a balanced level in terms of thinking between Allah and human. Where Allah gives a lesson "*... about the creation of the skys and the earth... (Ali 'Imran: 3: 191)* then humans reflect Allah's mind about "*... the creation of the skys and the earth... (Ali 'Imran: 3: 191 )"* Allah said: "*O Adam, tell them the names of these things."* So... he told them the names of these things... *(Al Baqarah: 2: 33)*

This is the secret of Allah, where Allah and humans are "*...balanced... (Al Mulk: 67: 3)* in thinking. This means that to understand the real Allah must go through thinking "*...they think about the creation of the skys and the earth...(Ali 'Imran: 3:191)" O our Lord, You did not create this in vain...(Ali 'Imran: 3:191)*
