ABSTRACT

Before the author writes the problem because everything in the seven skys is not lost, then incarnation is one way to survive in the seven skys, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about because everything in the seven skys is not lost, then incarnation is one way to survive in the seven skys, based on deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about because everything in the seven skys is not lost, then incarnation is one way to survive in the seven skys, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth (Al Baqarah: 2: 186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring back the dead... (Fushshilat: 41: 39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"It is He Who created the skys and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)

"So he put a veil from them; then We sent our spirit to him, and he appeared before him a perfect human being. (Maryam: 19:17)

"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about because everything in the seven skys is not lost, then incarnation is one way for survival in the seven skys, the author uses the basis of Deoxyribonucleic acid (DNA)

HYPOTHESIS

Here the author proposes the hypothesis that reincarnation is one way to survive in the seven skys, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1

phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ALLAH HAS OPENED THE WAY FOR SURVIVAL LIFE IN THE SEVEN SKYS THROUGH INCARNATION

Now, we are still concentrating on uncovering the secrets contained behind the verse: *"...I breathed into him my spirit...(Shaad: 38:72)"...We sent our spirit to him, he incarnated...human Perfect. (Mary: 19:17)*

Apparently, Allah has opened a way for survival in the seven heavens *"...Our spirit...incarnated...a perfect human being. (Mary: 19:17)*

Now the question arises

Why did Allah pave the way with incarnation for survival in the seven skys?

The answer is hidden in the secret behind the verse: *"Allah... The Everlasting One who continues to take care of... (Al Baqarah: 2:255)*

Well, *"Allah... The Everlasting Life (Al Baqarah: 2: 255)"... I breathed into him my spirit... (Shaad: 38: 72)*, which is the reason, why Allah made incarnation a way for survival in the seven skys.

"...my spirit...(Shaad : 38:72) is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, wherein these atoms live to the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years

Now the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms that are very long-lived were used by Allah to create the seven skys and all their contents, including humans. Where in the human body there are **7 000000000 000000000 000000000** atoms.

Because the lifespan of humans and other living things is not long, when humans and other living things die, then the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms that are in the dead human body and living creatures that die, come out and some of the atoms hydrogen, nitrogen atoms and oxygen atoms rise into the atmosphere. Some oxygen atoms are inhaled by humans and other living things. Some of the carbon atoms are taken up by trees, plants and flowers to be used as glucose as a food source.

Now, some oxygen atoms are inhaled by humans and other living things. Some of the carbon atoms are taken up by trees, plants and flowers to be used as glucose as a food source.

This is what is called the incarnation, meaning that the oxygen atom in the human body that has died, comes out, is inhaled by humans and other living things. So is the carbon atom taken by trees, plants and flowers to be used as glucose as a food source.

So, actually, with this incarnation Allah can continue to maintain the survival of humans, other living things, trees, plants and flowers.

CONCLUSION

The conclusions that can be drawn from the explanation above are the secrets contained behind the verse: *"...I breathed into him my spirit...(Shaad: 38:72)"...We sent our spirit to him, he incarnated...human Perfect. (Mary: 19:17)*

Apparently, Allah has opened a way for survival in the seven heavens “...*Our spirit...incarnated...a perfect human being. (Mary: 19:17)*

Now the question arises

Why did Allah pave the way with incarnation for survival in the seven skys?

The answer is hidden in the secret behind the verse: "*Allah... The Everlasting One who continues to take care of... (Al Baqarah: 2:255)*

Well, "*Allah... The Everlasting Life (Al Baqarah: 2: 255)"... I breathed into him my spirit... (Shaad: 38: 72)*, which is the reason, why Allah made incarnation a way for survival in the seven skys.

"...my spirit...(Shaad : 38:72) is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, wherein these atoms live to the age of **10 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000** years

Now the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms that are very long-lived were used by Allah to create the seven skys and all their contents, including humans. Where in the human body there are **7 00000000 00000000 00000000** atoms.

Because the lifespan of humans and other living things is not long, when humans and other living things die, then the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms that are in the dead human body and living creatures that die, come out and some of the atoms hydrogen, nitrogen atoms and oxygen atoms rise into the atmosphere. Some oxygen atoms are inhaled by humans and other living things. Some of the carbon atoms are taken up by trees, plants and flowers to be used as glucose as a food source.

Now, some oxygen atoms are inhaled by humans and other living things. Some of the carbon atoms are taken up by trees, plants and flowers to be used as glucose as a food source.

This is what is called the incarnation, meaning that the oxygen atom in the human body that has died, comes out, is inhaled by humans and other living things. So is the carbon atom taken by trees, plants and flowers to be used as glucose as a food source.

So, actually, with this incarnation Allah can continue to maintain the survival of humans, other living things, trees, plants and flowers.
