**ABSTRACT**

Before the author writes down the problem because most people in the world do not understand Allah's spirit, Allah's spirit is made as a source of incarnation and becomes a belief, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret because most people in the world do not understand Allah's spirit, Allah's spirit is made as a source of incarnation and becomes a belief, based on deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking about because most people in the world do not understand Allah's spirit, Allah's spirit is made as a source of incarnation and becomes a belief, namely the following verses:

*"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*"And if We made the apostle an angel, We would certainly have made him a man and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)*

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me. Me, that they may always be in the truth.(Al Baqarah: 2:186)*

*"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)*

*"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31:28)*

*"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

*"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring back the dead... (Fushshilat: 41: 39 )*

*"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)*

*"It is He Who created the skys and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)*

*"So he put a veil from them; then We sent Our spirit to him, and he appeared before him a perfect human being. (Maryam: 19:17)*

*"Allah, there is no god but He Who Lives eternally and continuously takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is in front of them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

In an effort to open the veil of Allah's secret about because most people in the world do not understand Allah's spirit, Allah's spirit is made as a source of incarnation and becomes a belief, the author uses the basis of Deoxyribonucleic acid (DNA)

## **HYPOTHESIS**

Here the author puts forward the hypothesis of Allah's spirit as the source of incarnation, because Allah's spirit is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, these atoms live to the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years, as long as Therefore these atoms can be reused, based on Deoxyribonucleic acid (DNA)

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **DEOXYRIBONUCLIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

**BECAUSE MOST PEOPLE IN THE WORLD DO NOT UNDERSTAND THE ALLAH'S SPIRIT, BECOME ALLAH'S SPIRIT AS A SOURCE OF INCARNATION AND BECOME A BELIEVE**

Now, we are still concentrating on uncovering the secrets contained behind the verse: *"...Our spirit...incarnated (become)...a perfect human (Maryam: 19:17) "...I breathed into him my spirit. ... (Shaad : 38:72)*

Allah declared *"...Our spirit... incarnated (became)... a perfect human being (Maryam: 19:17)*

Well, it turns out that *"...Our spirits...incarnate (become)...humans...(Maryam: 19:17)*

Now the question arises

Why *"...Our spirit...(Maryam: 19:17)* or *"...Allah's spirit...(Shaad: 38:72)* can become human?

The answer is *"...Our spirit...(Maryam: 19:17)* or *"...Allah's spirit...(Shaad: 38:72)* is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms,

Well, because hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms live to age **10 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000** years, so long as these atoms can be reused.

Or in other words, *"...Allah's spirit...(Shaad: 38:72)* is the source of the incarnation.

Because, everything in the seven heavens, including humans, is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, so when humans are in their bodies there are **7 00000000 00000000 00000000** atoms die, the atoms come out of the human body that has died, some atoms such as hydrogen atoms, nitrogen atoms rise to the atmosphere. Carbon atoms and oxygen atoms make up carbon dioxide, inhaled by trees, plants and flowers, but only carbon atoms are taken up as glucose, a food source, while oxygen atoms are released and inhaled by humans and animals.

As for the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms that make up *"...Allah's spirit...(Shaad: 38:72)* come out and gather in one place.

Well, this is what is called incarnation, meaning that the oxygen atom in the human body that is dead, comes out, is inhaled by humans and animals. Likewise, carbon atoms are taken up by trees, plants and flowers to be used as glucose as a food source.

So, actually, as long as hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are still alive during that time these atoms continue to be reused by humans, animals, trees, plants and flowers.

This is, which is still not understood by most people in the world, where *"...Allah's spirit...(Shaad: 38:72)* is the source of the incarnation.

Apparently, because most people in the world do not understand about "...Allah's spirit...(Shaad: 38:72) which is the source of the incarnation, then the incarnation is made as a belief.

Like most people believe that God incarnated into Jesus, humans incarnated into humans, humans incarnated into animals. Where this incarnation is not just once, but many times, which is called reincarnation.

Also, for example, oxygen atoms released from the bodies of deceased parents are sucked in by their children who come to their parents' graves.

When a human body that has died is burned, within a few minutes hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are released from the burned human body, then oxygen atoms are inhaled by humans and children and families who attend the cremation ceremony. Carbon atoms are sucked in by the trees, plants and flowers that are near the burning corpse.

Well, the process of incarnation of the father to this child, has been used as a belief by most people until now.

In fact, the process of incarnation and reincarnation is a natural law, or Allah's law that applies in the seven skies. So, the incarnation need not be used as a belief.

## CONCLUSION

The conclusion that can be drawn from the explanation above is the secrets contained behind the verse: "...Our spirit...incarnated (become)...a perfect human (Maryam: 19:17) "...I breathed into him my spirit. ...(Shaad : 38:72)

Allah declared "...Our spirit... incarnated (became)... a perfect human being (Maryam: 19:17)
