ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT regarding the exhaustion of hydrogen atoms, carbon atoms and oxygen atoms, then paradise and hell will be transferred to the earth and other skies, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

In the Qur'an, several verses are found that are the key to unlocking the secret about because of the exhaustion of hydrogen atoms, carbon atoms and oxygen atoms, paradise and hell will be transferred to the earth and other paradise, namely the verses:

"Allah is the light of the heavens and the earth....Light upon light...(An Nuur: 24:35)

"Angels and spirits ascend to God in a day the measure of which is fifty thousand years. (Al Ma'aarij: 70:4)

"O mankind, indeed We have created you from a male and a female and made you into nations and tribes so that you may know one another. Verily, the most honorable of you in the sight of Allah is the one who is most pious among you. Verily Allah is All-Knowing, All-Knowing. (Al Hujuraat: 49:13)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"When the sun is rolled up, (At Takwiir: 81:1)

"And when the stars fall, (At Takwiir: 81: 2)

"And when the spirits are met (At Takwiir: 81: 7)

"And when the sky is removed, (At Takwiir: 81:11)

"They ask you about the Hour: "When will it happen?" Say: "Indeed, the knowledge of the Hour is with my Lord; no one can explain the time of his coming except Him. The apocalypse is very heavy in the skies and on the earth. The Hour will not come to you but suddenly." They ask you as if you really knew it. Say: "Indeed, the knowledge of the Day of Resurrection is with Allah, but most people do not know." (Al A'raf : 7:187)

"On the day the earth will be replaced with another earth and sky, and they will all gather before the presence of Allah, the One, the Most Mighty. (Ibrahim: 14:48)

"And the earth was lit up with the light of its Lord; and the book was given and the prophets and witnesses were brought and judged between them with justice, while they were not wronged. (Az Zumar: 39: 69)

"In that place, each person feels the retribution for what he has done before and they are returned to Allah their true Protector and disappear from them what they made up. (Yunus: 10:30)

"We left them on that day mixed with one another, then the trumpet was blown again, then We gathered them all together (Al Kahf: 18: 99)

"And We will clearly show Hell on that day to the disbelievers, (Al Kahf: 18: 100)

"And they do not glorify Allah with proper exaltation when the whole earth is in His hands on the Day of Resurrection and the heavens are rolled up with His right hand. Glory be to God and exalted is He above what they associate. (Az Zumar: 39: 67)

In an effort to unmask about the exhaustion of hydrogen atoms, carbon atoms and oxygen atoms, paradise and hell will be transferred to another earth and sky, I based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESES

Here I propose the hypothesis that paradise and hell will be transferred to another earth and sky, because they run out of hydrogen atoms, carbon atoms and oxygen atoms, from the point of view of photons, quarks and deoxyribonucleic acid (DNA).

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

137 YEARS THAT WILL COME ACCORDING TO ALLAH'S CALCULATION, PARADISE AND HELL WILL BE MOVED TO ANOTHER EARTH AND OTHER SKY, BECAUSE OF THE OUT OF HYDROGEN, CARBON ATOM AND OXYGEN ATOM

Now, we are still trying to uncover the secret hidden behind the verse: *"...the earth was replaced with another earth and the sky, and they all gathered before Allah... (Ibrahim: 14:48)*

Apparently, the earth will be replaced with another earth, as well as the sky will be replaced with another sky, why the earth and sky will be replaced?

The answer is

Hidden in the secret behind the verse: *"When the sun is rolled up, (At Takwiir: 81: 1) "and when the stars fall, (At Takwiir: 81: 2) "and when the sky is removed, (At Takwiir: 81: 11)*

Why is the sun rolled up?

The sun rolled because the sun ran out of fuel atoms of hydrogen and helium atoms. Where the helium atom is created because two hydrogen atoms collide and become a new atom, namely a helium atom.

Well, because it runs out of hydrogen atoms as solar fuel, the sun dies, or in other words *"...the sun is rolled up, (At Takwiir: 81: 1)*

When will the sun die?

The answer is about 137 years in the future according to Allah's reckoning or about 2 500 000 000 years in the future according to human reckoning *"...a day which is fifty thousand years. (Al Ma'aarij: 70:4)*

Why *"... the stars are falling, (At Takwiir: 81: 2) ?*

Shooting stars are just like the sun, because the sun is also a star, running out of hydrogen atoms and helium atoms as star fuel.

Well, because the stars run out of fuel for hydrogen atoms and helium atoms, the stars die, or in other words *"...the stars fall, (At Takwiir: 81: 2)* because there is no more star attraction. or gravity.

Also, why *"...the sky is obliterated, (At Takwiir: 81:11) ?*

The sky is obliterated because the sky, which is an expanse of space where the sun and stars are above it, loses the sun and the dead stars. Because the sun and the stars that are above the expanse of the room or the sky are dead, then *"...the sky is obliterated, (At Takwiir: 81: 11)*

So, actually, *"...the sun is rolled up, (At Takwiir: 81:1) "...the stars are falling, (At Takwiir: 81:2) "...the sky is obliterated, (At Takwiir: 81:11)* because the sun and stars run out of fuel hydrogen atoms and helium atoms.

Well, because *"...the sun is rolled up, (At Takwiir: 81: 1) "... the stars are falling, (At Takwiir : 81: 2) "..."the sky is obliterated, (At Takwiir : 81: 11)* then the earth, moon and other planets that revolve around the sun will die too.

Because the sun, the earth and the expanse of the room or the sky above which the sun and the earth are all dead, then paradise and hell must be moved to another expanse of space or sky above which there is another earth and another sun that has not yet died.

Why must paradise and hell be transferred to another earth and another sun and another sky?

Because paradise, hell and *"...my spirit...(Shaad : 38:72)* require oxygen atoms, hydrogen atoms and carbon atoms. Without oxygen atoms, hydrogen atoms and carbon atoms, paradise, hell and *"...my spirit...(Shaad: 38: 72)* would not exist.

So, for the survival of paradise, hell and “...my spirit...(Shaad: 38:72) we must look for a new earth, sun and sky that are still alive and contain oxygen atoms, hydrogen atoms and carbon atoms.

Of course in the Milky Way galaxy, there are billions of stars and earths and moons that are still alive and have not run out of hydrogen atoms and helium atoms as fuel for the stars or suns.

Now, it has been revealed, the secret hidden behind the verses “... the earth is replaced with another earth and the sky ... (Ibrahim: 14: 48) ”When the sun is rolled up, (At Takwiir: 81: 1) ”and when the stars fall, (At Takwiir: 81: 2) ”and when the sky is removed, (At Takwiir: 81: 11)

That is, because about 137 years to come according to Allah's reckoning or about 2 500 000 000 years in the future according to human reckoning, “...the sun is rolled up, (At Takwiir: 81:1) ”...the stars are falling, (At Takwiir: 81: 2) ”...the sky is obliterated, (At Takwiir: 81: 11), then the sun and stars run out of fuel for hydrogen atoms and helium atoms, so the sun and stars die.

So, for the survival of paradise, hell and “...my spirit...(Shaad: 38:72) we must look for a new earth, sun and sky that are still alive and contain oxygen atoms, hydrogen atoms and carbon atoms.

Because paradise, hell and “...my spirit...(Shaad: 38:72) require oxygen atoms, hydrogen atoms and carbon atoms, then paradise, hell and “...my spirit...(Shaad: 38: 72) must be transferred to another earth and another sky where there are still oxygen atoms, hydrogen atoms and carbon atoms. Without oxygen atoms, hydrogen atoms and carbon atoms, paradise, hell and “...my spirit...(Shaad: 38: 72) would not exist.

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: “...the earth was replaced with another earth and the sky, and they all gathered before Allah... (Ibrahim: 14:48)

Apparently, the earth will be replaced with another earth, as well as the sky will be replaced with another sky, why the earth and sky will be replaced?
