ABSTRACT

Before I write the problem because paradise and hell are on our earth, when in 251.8 years according to Allah, the sun will be rolled up, then heaven and hell are transferred to another earth that has oxygen atoms and hydrogen atoms, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about because paradise and hell are on our earth, when in 251.8 years according to Allah, the sun will be rolled up, then paradise and hell are transferred to another earth that has oxygen atoms and hydrogen atoms, from from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about because paradise and hell are on our earth, when in 251.8 years according to Allah, the sun will be rolled up, then paradise and hell are transferred to another earth that has oxygen atoms and hydrogen atoms, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill and let them believe in Me, so that they will always be in truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"And if We wish, We have indeed made in your place on earth angels that have been passed down from generation to generation. (Az Zukhruf: 43:60)

"When the sun is rolled up (At Takwiir: 81: 1)

"On the day the earth will be replaced with another earth and sky, and they will all gather before the presence of Allah, the One, the Most Mighty. (Ibrahim: 14:48)

"And hasten to forgiveness from your Lord and to Paradise, whose breadth is as wide as the skys and the earth, which is prepared for those who are pious." (Ali 'Imran: 3:133)

"It is Allah who sent down the book with truth and balance. And do you know that the Day of Resurrection may be near? (Ash Shuura: 42:17)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about because paradise and hell are on our earth, when in 251.8 years according to Allah, the sun will be rolled up, then paradise and hell are transferred to another earth that has oxygen atoms and hydrogen atoms, I use an acid base deoxyribonucleic acid or deoxyribonucleic acid or nucleic acid molecular structure.

HYPOTHESIS

Here I put forward the hypothesis that without Allah creating man, Allah would not be known in all the seven heavens and their contents, because man was given a brain with more thoughts than any other creature of Allah, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

PARADISE AND HELL ARE IN OUR EARTH, BECAUSE 251.8 YEARS AGAIN THE SUN WILL BE COLLECTED, THEN HEAVEN AND HELL WILL BE MOVED TO ANOTHER EARTH WHICH HAS OXYGEN ATOMS AND HYDROGEN ATOMS

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"Who has created the seven skys in layers... (Al Mulk: 67: 3)"* *When the sun is rolled up (At Takwiir: 81: 1)* *"...the earth is replaced with another earth and the sky...(Ibrahim: 14:48)"* *...heaven whose breadth is as wide as the heavens and the earth...(Ali 'Imran: 3:133)"* *...do you know you, maybe the Day of Judgment is near? (Asy Syuura: 42:17)*

Now, here Allah has declared, that 251.8 years from now, according to Allah's reckoning, Allah will roll up *"...the sun...(At Takwiir : 81:1)* and will replace *"...the earth is replaced with the earth another and the (other) skys...(Ibrahim: 14:48)*

So, now the question arises,

How long will the sun be rolled up according to human calculations?

The answer is

Hidden in the secret behind the verse: *"Angels and spirits ascend to God in a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

Apparently, Allah counts at the speed of light according to Allah. That is, the speed of light according to Allah is 1 day equal to **18 262 980** days according to human calculations.

So, if calculated according to humans, at the speed of light according to human calculations, the sun

will be rolled up about **4600 000 000** years from now.

BECAUSE THE HYDROGEN ATOMS AS FUEL IN THE SUN WILL BE OUT, THEN THE SUN WILL BE ROLLED BY ALLAH

Well, according to human calculations, hydrogen atoms as fuel in the sun will run out in about **4600 000 000** years.

So, during that time “...*my spirit...*(*Shaad : 38:72*) that already exists and lives in heaven and hell, must wait another **4600 000 000** years to be transferred to another earth that still has oxygen atoms and hydrogen atoms. .

Because if the sun runs out of hydrogen atoms, then the sun will die, or in other words “... *the sun is rolled up* (*At Takwiir: 81: 1*)

COULD PARADISE AND HELL BE MOVED TO ANOTHER EARTH, IN THE MILKY WAY GALAXY

So, now the question arises again, how many other suns are there in the Milky Way galaxy, which are the same degree as our sun today?

The answer is,

If the sun or any other star had the same mass as our sun today, when our sun is rolled up, then most likely there is no sun or star like our sun.

The problem is, the sun or other stars that have the same mass as our sun, **4600 000 000** years from now, will run out of hydrogen atoms as fuel.

Well, here is the problem.

Most likely there is no sun or other star that has the same model and mass as our sun in this Milky Way galaxy.

Now, if there was a sun or a star that was bigger or smaller than our sun, then there would not be an earth similar to our present earth model, which revolves around that big or small star, which can be made a new place for paradise and hell.

MOVED TO THE ANDROMEDA GALAXY, NEIGHBORHOOD OF THE MILKY WAY GALAXY

Well, now, until now, there has not been found a sun model like our sun today, in the Andromeda galaxy, if there is, then it is certain that the sun or star has run out of hydrogen atoms, just as our sun has run out of hydrogen atoms for fuel.

In other galaxies that are billions of billions in number, similarly, if you want to look for a sun or a star like our sun today, the sun or star will also run out of hydrogen atoms.

WHY LOOK FOR ANOTHER SUN THAT IS MODEL AND HAS THE SAME MASS AS OUR SUN

Well, the problem is, if you want to get oxygen atoms, hydrogen atoms, nitrogen atoms, carbon

atoms like on our earth, then you have to look for a sun or star similar to our sun. The distance between the sun and the earth must be the same, no more, no less.

ALLAH WITH ALLAH ENERGY, ALLAH PARTICLES AND MY SPIRIT WILL FIND ANOTHER SUN AND ANOTHER EARTH SAME AS OUR SUN AND EARTH NOW

Of course, "... *the earth is replaced with another earth and (other) sky...* (*Ibrahim: 14: 48*) although it is not exactly the same as the earth and the sun today, it does not matter, because those who live in paradise and hell is "...*my spirit...*(*Shaad : 38:72*)

Whatever the circumstances in paradise and hell, "...*my spirit...*(*Shaad : 38:72*) will live to an age 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "*Who has created the seven skys in layers...* (*Al Mulk: 67: 3*)" "*When the sun is rolled up* (*At Takwiir: 81: 1*) "*...the earth is replaced with another earth and the sky...*(*Ibrahim: 14:48*)"*...heaven whose breadth is as wide as the heavens and the earth...*(*Ali 'Imran: 3:133*)"*...do you know you, maybe the Day of Judgment is near?* (*Asy Syuura: 42:17*)
