**ABSTRACT**

Before I write about the problem of getting closer to Allah through my spirit and Allah's particles, which are formed by Allah's energy, which is in the human body, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of getting closer to Allah through my spirit and Allah particles, which are formed by Allah's energy, which is in the human body, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that are Allah's secret unlocking tools about getting closer to Allah through my spirit and Allah's particles, which are formed by Allah's energy, which is in the human body, namely the following verses:

*"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)*

*"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)*

*"Praise be to Allah, the Creator of the heavens and the earth, Who made the angels as messengers with wings, two, three and four respectively. Allah adds to His creation what He wills. Verily, Allah has power over all things. (Faathir: 35:1)*

*"But Allah acknowledges the Qur'an which He has revealed to you. Allah has sent it down with His knowledge; and the angels are witnesses. It is enough for Allah to acknowledge it. (An Nisaa': 4: 166)*

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)*

*"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)*

*"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)*

*"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

*"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)*

*"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"It is He who has made the earth a bed for you and the sky a roof, and He sends down water from the sky, then He produces with it all the fruit as a sustenance for you; therefore do not establish partners with Allah, while you know. Al Baqarah : 2:22)*

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)*

*"It is lawful for you on the night of the fasting month to mix with your wives; they are clothes for you, and you are clothes for them. Allah knows that you cannot restrain your lust, so Allah forgives you and forgives you. So now mix them and follow what Allah has ordained for you, and eat and drink until the white thread is clear to you from the black thread, namely dawn. Then complete the fast until night, do not interfere with them, while you are doing i'tikaf in the mosque. That is the prohibition Allah, so do not approach him. Thus Allah explains His verses to people, so that they may become pious. Asbabun nuzul (Al Baqarah: 2: 187)*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

In an effort to open the veil of Allah's secret about drawing closer to Allah through my spirit and Allah's particles, which are formed by Allah's energy, which is in the human body, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I put forward the hypothesis of getting closer to Allah through my spirit and Allah particles, which are formed by Allah's energy, which is in the human body, because my spirit and Allah particles are Allah's form, seen from the point of view of Deoxyribonucleic acid (DNA).

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with

gluons.

## **DEOXYRIBONUCLIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **BECAUSE MY SPIRIT, ALLAH PARTICLES AND ALLAH'S ENERGY ARE IN THE HUMAN BODY, HUMANS CAN EASY TO CLOSE TO ALLAH**

Now, we are still concentrating on uncovering the secrets contained behind the verse: *"...I breathed into him my spirit...(Shaad: 38:72)"... I am near...(Al Baqarah: 2: 186) "...closer to him than his jugular vein (Qaf: 50:16) "...I grant the supplication of the one who prays when he asks Me...(Al Baqarah: 2: 186) "...wherever you are facing there the face of Allah...(Al Baqarah: 2: 115)*

Apparently, Allah here has declared that if humans intend to get closer to Allah, do it through *"... my spirit... (Shaad: 38: 72)* and the particles of Allah formed by Allah's energy *"...wherever you face that's the face of Allah...(Al Baqarah : 2: 115)*

Well, *"... my spirit... (Shaad: 38: 72)* is already in the human body, because Allah has *"...breathed into him my spirit... (Shaad: 38: 72)* Likewise, the particles of Allah which is formed by the energy of Allah is already in the human body *"... wherever you turn there is the face of Allah... (Al Baqarah: 2: 115)*

Actually, humans anytime, anywhere, can immediately meet and draw closer to Allah *"...I grant the request of the one who prays when he asks Me...(Al Baqarah: 2: 186)*

So, if humans understand and realize that actually in the human body there is a form of Allah through *"...my spirit...(Shaad: 38: 72)* and the particles of Allah formed by Allah's energy.

Therefore, anywhere, anytime, humans can directly meet and speak directly to Allah, in any language *"...Allah...Knows. (Al Baqarah: 2: 115)* and Allah *"...accepts the supplication of the one who prays when he asks Allah... (Al Baqarah: 2: 186)*

## **THE QUESTION NOW IS DOES HUMANS UNDERSTAND AND REALIZE THAT THE FORM OF ALLAH IS IN THE HUMAN BODY**

Now, to know that in the human body there is *"... my spirit... (Shaad: 38: 72)* and the particles of Allah formed by Allah's energy, then humans must understand the real Allah.

That is, Allah is not only mentioned through the mouth, but must be understood and lived deeply, how Allah really is in the form of Allah, *"... my spirit ... (Shaad: 38: 72)* and the particles of Allah and the energy of Allah.

Because “...my spirit...(Shaad: 38:72), Allah's particles and Allah's energy are inseparable.

Allah's energy forms the particles of Allah and “...my spirit...(Shaad : 38:72) wherein ”...my spirit... (Shaad : 38:72) is built up with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. While the atoms are formed by quarks, and quarks are formed by the energy of Allah.

So, in the human body, it is complete for humans to meet and draw closer to Allah.

Or in other words, humans can do 'Itikaf, not only in the mosque, but 'Itikaf with the intention of getting closer to Allah directly into the human body, while standing, sitting or lying down, anywhere, at home, or anywhere, which can be done. allows humans to get closer through the human body itself *"those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "Our Lord, You did not create this in vain, Glory be to You. ... (Ali 'Imran : 3:191)*

## CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: *"...I breathed into him my spirit...(Shaad: 38:72)"... I am near...(Al Baqarah: 2: 186) "...closer to him than his jugular vein (Qaf: 50:16) "...I grant the supplication of the one who prays when he asks Me...(Al Baqarah: 2: 186) "...wherever you are facing there the face of Allah...(Al Baqarah: 2: 115)*
