**ABSTRACT**

Before the author writes about education in religious schools and schools searching for the real Allah not just memorized, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets of education in religious schools and schools searching for the real Allah not just memorized, based on deoxyribonucleic acid (DNA).

There are several verses that reveal the secrets of Allah regarding education in religious schools and schools searching for the real Allah not just memorized, namely the following verses:

*"people who remember Allah while standing or sitting or lying down and they think about the creation of the sky and the earth : "Our God, You did not create this in vain, Glory be to You, so protect us from the torment of hell. (Ali 'Imran : 3: 191).*

*"So when I have perfected the life of Adam and breathed into Adam my spirit, then you will fall down and prostrate yourself to him. (Shaad : 38: 72).*

*"And when Moses came at the time We had appointed and God said to him, Moses said: "O my God, appear to me so that I can see You." God said: "You will never be able to see Me, but look at the mountain, then if the mountain stays where it is you will surely see Me." When his God appeared to the mountain, God made the mountain crumble and Moses fell unconscious. So after Moses regained consciousness, he said: "Glory be to God. You, I repent to You and I am the first to believe." (Al A'raaf: 7: 143).*

*"And We inspired Moses' mother, "Suck him, and if you are worried about him then throw him into the river (Nil)...(Al Qashash : 28: 7).*

*"And thus We showed Abraham signs of glory in the sky and the earth and so that he would be among those who believe. (Al An'aam : 6: 75).*

*"When the night was dark, he saw a star he said: "This is my God", but when the star sank he said: "I do not like something that drown." (Al An'aam: 6: 76).*

*"Then when he seeing the rising moon he said: "This is my God" But after the month had set, he said: "Indeed, if my God had not guided me, I would have been one of those who went astray." (Al An'aam: 6: 77).*

*"Then when he saw the sun rising, he said: "This is my God, this is greater." So when the sun set, he said: "O my people, indeed I disassociate myself from what you associate with. (Al An'aam: 6: 78).*

*"When his God said to him: "Submit to obey!" Ibrahim answered: "I submit to God of the worlds". (Al Baqarah: 2: 131).*

*"And when Ibrahim said to his father, Aazar "No wonder you made idols as gods? Verily I see you and your people in manifest error." (Al An'aam: 6: 74).*

*"Moses said: "O my God, verily, I have killed a man from their group, so I am afraid they will kill me. (Al Qashash: 28: 33).*

In an effort to uncover the secrets of Allah regarding education in religious schools and schools searching for the real Allah not just memorized, the author uses the basis of deoxyribonucleic acid.

## **HYPOTHESIS**

Here the author proposes hypothesis education in religious schools and schools searching for the real Allah not just memorized, based on Deoxyribonucleic acid (DNA)

## **PHOTON**

Photon is an elementary particle of the boson type and a carrier of electromagnetic interaction.

## **QUARK**

If we want to know quarks, then we pay attention to one of the atoms hydrogen which is a building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Furthermore, if this proton is split, then we will find two quarks up and one down quark. Where these three quarks are combined with gluons.

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. These nucleotides consist of folate, 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## **EDUCATION IN RELIGIOUS SCHOOLS AND SCHOOLS SEARCHING FOR THE REAL ALLAH NOT JUST MEMORIZED**

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"people who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth... (Ali 'Imran: 3: 191) "...Ibrahim said to his father, Aazar "Shouldn't you make idols as gods?... (Al An'aam: 6:74) "...We showed Ibrahim signs of majesty in the skys and the earth and so that he is a believer. (Al An'aam: 6:75) "...Musa said: "My God, show me so that I can see You" God said: "You can never see Me, but look at the mountain, then if it stays in its place you will surely see Me." (Al A'raaf: 7: 143).*

It turns out, here Allah has given a picture to humans, that when humans are young, they have been

looking for Allah, who really is Allah, Allah is sought through signs in the sky and on earth.

There are not many youths who from a young age have tried to seek Allah, most youths only accept what their parents have made or ordered them to do.

However, around 1500 BC, in Ur in the southern Iraqi province of Dhi Qar, 17 km from the provincial capital Nasiriyah, one of the sites of the ancient Sumerian city, a baby named Ibrahim was born.

When Ibrahim reached a young age, his mind felt heavy seeing *"...his father, Aazar...(Al An'aam: 6:74)* and his people made stones and wood as idols to worship.

Why did Aazar, Abraham's father, and his people worship statues of stone and wood?

The answer is because Allah has *"...breathed into Adam my spirit...(Shaad: 38:72)* and into the seven skys and all that is in them. Where *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* is formed by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. So actually, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are present in rock and wood.

So, Aazar, Abraham's father, and his people worshiped statues of stone and wood because they thought that in stone and wood was *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72).*

However, they did not understand that *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* is a hydrogen atom, a carbon atom, a nitrogen atom and an oxygen atom, nor did the youth of Ibrahim understand that in stone and wood there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Until this moment, many people worship statues made of stone and wood, because in stone and wood there is *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72).*

Now, when Aazar, Abraham's father, and his people worshiped statues of stone and wood, in which was *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*, the youth of Ibrahim, on the other hand, looked for who breathed *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* into Adam, the human body and into the seven skys and all that is in them.

Allah has shown *"... to Ibrahim the signs of majesty in the skys and the earth... (Al An'aam: 6: 75).*

Now, what are *"...signs of majesty in the skys and the earth...(Al An'aam: 6:75) ?*

The answer is hidden in the secret behind the verses: *"...he saw a star he said: "This is my God"...(Al An'aam: 6:76)"...he saw the moon rising he said: "This is My God"...(Al An'aam: 6:77)"...he saw the sun rising, he said: "This is my God, this is greater"...(Al An'aam: 6:78 ).*

Well, it turns out, After thinking deeply, Ibrahim concluded that the star, moon and sun are not Allah, because the stars, moon and sun are not always visible, the stars and the moon are visible at night, while the sun is not visible at night.

So, with *"...signs...in the sky...(Al An'aam: 6:75)*, the youth Ibrahim concluded, that the stars, moon and sun are not Allah.

Finally, the youth of Ibrahim came to a certainty that there is Allah who created this world, who created the stars, moon, sun and humans, namely *"...God of the worlds". (Al Baqarah: 2:131).*

Well, *"When his God said to him: "Submit obey!" Ibrahim replied: "I submit to God of the worlds". (Al Baqarah: 2:131)*

Finally, the youth Ibrahim found Allah, *"...the God of the worlds." (Al Baqarah: 2:131)*

Now, around the year 656 BC, when Moses was born, and when Moses was baby, commanded by God through inspiration given to Moses' mother *"...we inspired Moses' mother; "Put him down, and if you are worried about him then throw him into the river...(Al Qasash : 28: 7).*

Apparently, Moses baby got to Pharaoh's wife, and was nurtured until Moses became a young man.

This young Moses, came out of Egypt, because he killed a young man from Pharaoh's people *" Musa said: "O my God, indeed I have killed a human from their group, so I am afraid they will kill me. (Al Qashash: 28:33).*

When the young Moses before returning to Egypt, was called by Allah at a predetermined time, before being appointed as the Prophet, at the meeting with Allah, Moses asked Allah *"... " My God, show me so that I can see You. "... (Al A'raaf: 7:143).*

It turns out that here, Moses, there has never been a prophet before asking Allah to be able to see Allah, but Moses asked Allah to *"...be able to see Allah... (Al A'raaf: 7: 143).*

Well, here, Allah wants to describe Allah's form, first Allah says *"...You can never see Me, but look at the mountain, so if it stays where it is, you will surely see Me...( Al A'raaf: 7:143).*

Apparently, Allah wanted to tell Moses, that on the mountain there is *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* namely hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

However, Moses did not understand about *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* namely in that mountain Allah has *"...breathed into (the mountain) my spirit...(Shaad: 38:72)* , meaning that in the mountain there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. That is Allah's form that Musa wanted to see.

Because Moses did not understand *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which was in the mountain, then Allah *"...appeared to the mountain, made the mountain crumble and Musa fell unconscious... (Al A'raaf: 7: 143)*

Now, when Allah *"...appeared to the mountain, he made the mountain crumble...(Al A'raaf: 7: 143)* Allah's energy came which was **18 262 980** times the energy that was near the mountain at that time.

Because of the magnitude of Allah's energy, *"... he made the mountain crumble... (Al A'raaf: 7: 143)*

When *"...the mountain was crumble...(Al A'raaf : 7:143)* then *"...Musa... fell unconscious...(Al A'raaf : 7:143)* and after *"...Musa regained consciousness, he said: "Glory be to You, I repent to You and I am the first to believe." (Al A'raaf: 7: 143)*

Well, here Allah has described how the actual form of Allah's form is in the form of *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which is in the mountain in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Then the form of Allah in the form of Allah's energy when *"...he made the mountain crumble... (Al A'raaf: 7: 143).*

So, to see Allah's form, according to Allah is, first *"...look at the mountain...(Al A'raaf: 7:143)* This means that in the mountain there is *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which is formed by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Second, Allah's form according to Allah, is in the form of Allah's energy *"...he made the mountain crumble... (Al A'raaf: 7: 143).*

Now, it has been revealed, the secret hidden behind the verse:*"...signs of majesty in the skys and the earth...(Al An'aam: 6:75)"...look at that mountain...(Al A'raaf: 7:143) "... he made the mountain crumble...(Al A'raaf: 7:143).*

Namely the youth of Ibrahim came to Allah by seeing *"...signs of majesty in the sky...(Al An'aam: 6:75)* such as, the stars, the moon and the sun. The youth of Moses came to Allah when *"...the mountain was crushed...(Al A'raaf: 7: 143)* because of Allah's energy which amounted to **18 262 980** times the energy that was near the mountain at that time.

So, starting today, education in religious schools and schools searching for the real Allah not just memorized.

## CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"people who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth... (Ali 'Imran: 3: 191)"...Ibrahim said to his father, Aazar "Shouldn't you make idols as gods?... (Al An'aam: 6:74) "...We showed Ibrahim signs of majesty in the skys and the earth and so that he is a believer. (Al An'aam: 6:75) "...Musa said: "My God, show me so that I can see You" God said: "You can never see Me, but look at the mountain, then if it stays in its place you will surely see Me." (Al A'raaf: 7: 143).*

It turns out, here Allah has given a picture to humans, that when humans are young, they have been looking for Allah, who really is Allah, Allah is sought through signs in the sky and on earth.

There are not many youths who from a young age have tried to seek Allah, most youths only accept what their parents have made or ordered them to do.

However, around 1500 BC, in Ur in the southern Iraqi province of Dhi Qar, 17 km from the provincial capital Nasiriyah, one of the sites of the ancient Sumerian city, a baby named Ibrahim was born.

When Ibrahim reached a young age, his mind felt heavy seeing *"...his father, Aazar...(Al An'aam: 6:74)* and his people made stones and wood as idols to worship.

Why did Aazar, Abraham's father, and his people worship statues of stone and wood?

The answer is because Allah has *"...breathed into Adam my spirit...(Shaad: 38:72)* and into the seven skys and all that is in them. Where *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* is formed by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. So actually, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are present in rock and wood.

So, Aazar, Abraham's father, and his people worshiped statues of stone and wood because they thought that in stone and wood was *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72).*

However, they did not understand that *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38:*

72) is a hydrogen atom, a carbon atom, a nitrogen atom and an oxygen atom, nor did the youth of Ibrahim understand that in stone and wood there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Until this moment, many people worship statues made of stone and wood, because in stone and wood there is *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*.

Now, when Aazar, Abraham's father, and his people worshiped statues of stone and wood, in which was *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*, the youth of Ibrahim, on the other hand, looked for who breathed *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* into Adam, the human body and into the seven skies and all that is in them.

Allah has shown *"... to Ibrahim the signs of majesty in the skys and the earth... (Al An'aam: 6: 75)*.

Now, what are *"...signs of majesty in the skys and the earth...(Al An'aam: 6:75) ?*

The answer is hidden in the secret behind the verses: *"...he saw a star he said: "This is my God"...(Al An'aam: 6:76)"...he saw the moon rising he said: "This is My God"...(Al An'aam: 6:77)"...he saw the sun rising, he said: "This is my God, this is greater"...(Al An'aam: 6:78 )*.

Well, it turns out, After thinking deeply, Ibrahim concluded that the star, moon and sun are not Allah, because the stars, moon and sun are not always visible, the stars and the moon are visible at night, while the sun is not visible at night.

So, with *"...signs...in the sky...(Al An'aam: 6:75)*, the youth Ibrahim concluded, that the stars, moon and sun are not Allah.

Finally, the youth of Ibrahim came to a certainty that there is Allah who created this world, who created the stars, moon, sun and humans, namely *"...God of the worlds". (Al Baqarah: 2:131)*.

Well, *"When his God said to him: "Submit obey!" Ibrahim replied: "I submit to God of the worlds". (Al Baqarah: 2:131)*

Finally, the youth Ibrahim found Allah, *"...the God of the worlds." (Al Baqarah: 2:131)*

Now, around the year 656 BC, when Moses was born, and when Moses was baby, commanded by God through inspiration given to Moses' mother *"...we inspired Moses' mother; "Put him down, and if you are worried about him then throw him into the river...(Al Qasash : 28: 7)*.

Apparently, Moses baby got to Pharaoh's wife, and was nurtured until Moses became a young man.

This young Moses, came out of Egypt, because he killed a young man from Pharaoh's people *" Musa said: "O my God, indeed I have killed a human from their group, so I am afraid they will kill me. (Al Qashash: 28:33)*.

When the young Moses before returning to Egypt, was called by Allah at a predetermined time, before being appointed as the Prophet, at the meeting with Allah, Moses asked Allah *"... " My God, show me so that I can see You. "... (Al A'raaf : 7:143)*.

It turns out that here, Moses, there has never been a prophet before asking Allah to be able to see Allah, but Moses asked Allah to *"...be able to see Allah... (Al A'raaf: 7: 143)*.

Well, here, Allah wants to describe Allah's form, first Allah says *"... You can never see Me, but look at*

*the mountain, so if it stays where it is, you will surely see Me...( Al A'raaf : 7:143).*

Apparently, Allah wanted to tell Moses, that on the mountain there is *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* namely hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

However, Moses did not understand about *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* namely in that mountain Allah has *"...breathed into (the mountain) my spirit...(Shaad: 38:72)* , meaning that in the mountain there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. That is Allah's form that Musa wanted to see.

Because Moses did not understand *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which was in the mountain, then Allah *"...appeared to the mountain, made the mountain crumble and Musa fell unconscious... (Al A'raaf: 7: 143)*

Now, when Allah *"...appeared to the mountain, he made the mountain crumble...(Al A'raaf: 7: 143)* Allah's energy came which was **18 262 980** times the energy that was near the mountain at that time.

Because of the magnitude of Allah's energy, *"... he made the mountain crumble... (Al A'raaf: 7: 143)*

When *"...the mountain was crumble...(Al A'raaf : 7:143)* then *"...Musa... fell unconscious...(Al A'raaf : 7:143)* and after *"...Musa regained consciousness, he said: "Glory be to You, I repent to You and I am the first to believe." (Al A'raaf: 7: 143)*

Well, here Allah has described how the actual form of Allah's form is in the form of *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which is in the mountain in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Then the form of Allah in the form of Allah's energy when *"...he made the mountain crumble... (Al A'raaf: 7: 143).*

So, to see Allah's form, according to Allah is, first *"...look at the mountain...(Al A'raaf: 7:143)* This means that in the mountain there is *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which is formed by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Second, Allah's form according to Allah, is in the form of Allah's energy *"...he made the mountain crumble... (Al A'raaf: 7: 143).*

Now, it has been revealed, the secret hidden behind the verse:*"...signs of majesty in the skys and the earth...(Al An'aam: 6:75)"...look at that mountain...(Al A'raaf : 7:143)* *"... he made the mountain crumble...(Al A'raaf : 7:143).*

Namely the youth of Ibrahim came to Allah by seeing *"...signs of majesty in the sky...(Al An'aam: 6:75)* such as, the stars, the moon and the sun. The youth of Moses came to Allah when *"...the mountain was crushed...(Al A'raaf: 7: 143)* because of Allah's energy which amounted to **18 262 980** times the energy that was near the mountain at that time.

So, starting today, education in religious schools and schools searching for the real Allah not just memorized.
